487. REGULATIONS GOVERNING THE TAKING OF SMALL NUMBERS OF MARINE MAMMALS INCIDENTALLY TO OIL AND GAS EXPLORATION IN THE BEAUFORT AND CHUKCHI SEAS

Legal Authority: 16 USC 1371(a)(5)

CFR Citation: 50 CFR 228

Legal Deadline: None

Abstract: Section 101(a)(5) of the Marine Mammal Protection Act directs the Secretary to allow, on request by U.S. citizens who engage in a specified activity (other than commercial fishing) in a specified geographical region, the incidental take of small numbers of marine mammals. The agency must find that the taking will have a negligible impact on the species or stocks, and will not have an unmitigable adverse impact on the availability of the species for subsistence uses. The Service received a request from 6 oil companies for a take of marine mammals incidental to oil exploration in the Beaufort and Chukchi Seas. These regulations allow a take if certain conditions are met including requirements for monitoring and reporting and a prohibition on taking in the spring lead system used by bowhead whales in the Chukchi Sea. These regulations allow the oil companies to proceed with energy exploration while protecting marine mammals.

Abstract:

(A) Incorporate into existing regulations for the part of the Capital Construction Fund administered for fishermen new requirements imposed by the Tax Reform Act of 1986.

(B) Incorporate into existing regulations, clarification of existing restraints on the use of the Capital Construction Fund by fishermen.

(C) Incorporate into existing regulations, assessment of user fees for Capital Construction Fund benefits provided fishermen.

Additional Information: (A) Under existing regulations, at 50 CFR Part 259, the acquisition of a qualified vessel is not interpreted to include the lease of a qualified vessel. The legislative history of the Tax Reform Act, 1986, indicates Congressional intent to consider lease hire payments from the CCF to be considered qualified withdrawals, if such payments are used for the acquisition of a qualified vessel through lease for a period of five years or more. The proposed rules would allow for payments from the CCF for such purpose. (B) Under existing conditions at 50 CFR Part 259, CCF benefits for fishermen are restricted in accordance with Part 251 of 50 CFR. The proposed rule would allow for either the moderation or lifting of these restrictions. (C) The proposed rules would add to 59 CFR Part 3 provisions for the assessment of user fee charges to fund operating costs for that portion of the CCF administered for fishermen.

498. AMENDMENT 1 GULF OF MEXICO REEF FISH FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 641

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: Amendment 1 will attempt to rebuild declining reef fish stocks, especially red snapper. A primary objective of the amendment will be to reduce red snapper harvest by 24 percent the first year through the use of a commercial quota of 3.1 million pounds, by the establishment of a 13-inch minimum fish for commercial and recreational fisheries taking red snapper, and by establishing a 7-fish red snapper bag limit per person in the recreational sector. The amendment will also protect other species of reef fish, as well as red snapper by proposing to: (1) reduce use of fish traps from 200 to 100 per vessel and expand the stressed area off Texas and Louisiana; (2) prohibit the use of bottom long lines shoreward of the 50-fathom curve; and (3) prohibit use of entanglement nets west of Cape San Blas, Florida, and shoreward of the 20-fathom curve east of Cape San Blas, Florida. Several additional species will be included in the management unit, and additional conservation measures will be forthcoming.

Significance: Regulatory Program

Legal Authority: 16 USC 4001 to 4017 Fish & Seafood Promotion Act of 1986 (FSPA)

CFR Citation: 50 CFR 270, (New)

Legal Deadline: None

Abstract: The proposed rule describes the conditions under which seafood marketing councils for one or more species of fish or fish products authorized under the FSPA may be established and operated. The councils will be funded through self-assessment by segments of the industry represented on the council and are established through: (1) application of particular sector(s) of industry to the Secretary of Commerce; (2) favorable Secretarial review of the application; and (3) passage of a referendum conducted by the Secretary among sector participants. The Secretary appoints members to the councils from lists of nominees supplied by the industry. Councils will submit annual plans and budgets for species-specific marketing and promotion, including consumer education, research, and other activities. Costs to the Federal Government are estimated to range from $100,000 to $200,000 for program start-up and other initial costs to establish one council. Annual costs will vary and depend upon the number of applications received and the number of referenda conducted. Benefits to the industry may be substantial.

Abstract: Amendment 3 will address biological objectives of the FMP by establishing a "Flexible Area Action System" to enable the New England Fishery Management Council, its Multispecies Committee, and NMFS to respond in a timely manner to protect large concentrations of juvenile, sublegal, and spawning fish. Under this system, measures ranging from mesh size restrictions to limited closed areas could be implemented. This system is

needed to: (1) enhance age-at-entry controls; (2) eliminate the need for certain emergency actions; and (3) respond to requests from the fishing industry for timely action in a way that improves the climate for cooperation and progress between the Council and the fishing industry.

508. PACIFIC COAST GROUNDFISH FISHERY - REGULATORY AMENDMENT TO FACILITATE ENFORCEMENT

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 663

Abstract: Two changes to the regulations implementing the fishery management plan for Pacific coast groundfish fisheries in the Exclusive Economic Zone off the coasts of Washington, Oregon, and California are proposed. The first change would require certain commercially caught groundfish species to be sorted prior to the first weighing after offloading. The second change would prohibit possession of unauthorized fixed gear on a fishing vessel. These changes would improve efficiency in enforcing fishing restrictions.

509. BLUE MUSSEL FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: Not yet determined

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 30 days and final action within such time as the Secretary deems appropriate.

Abstract: Secretarial Fishery Management Plan on blue mussels to address the problem of periodic contamination of blue mussels with paralytic shellfish poisoning (PSP), particularly in the Nantucket Shoals area of the EEZ. Monitoring had been provided by the National Shellfish Sanitation Program whose jurisdiction does not extend to the EEZ. Because of cost this effort has become too burdensome and has been discontinued. Factors to be considered are definition of the management unit, interrelationship of the stock with other managed shellfish stocks in the EEZ and PSP monitoring procedures.

510. AMENDMENT 3 TO THE FISHERY MANAGEMENT PLAN FOR THE ATLANTIC SEA SCALLOP FISHERY

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 650

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt of amendment from the fishery management council.

Abstract: Amendment 3 to the Fishery Management Plan is expected to address enforcement problems in the fishery by requiring landing of scallops during landing windows. Offloading from a sea scallop dredge vessel, or from a vessel landing sea scallops in the shell may be prohibited other than during a 12-hour offloading window. More flexible offloading windows are expected for other vessels.

Abstract: PL 99-502 amended the Stevenson-Wydler Innovation Act of 1980 by establishing a number of procedures to encourage the development of technologies by laboratories owned or operated by the Federal Government, to facilitate the transfer of such technologies to the public, and to promote cooperation between these laboratories and the private sector.

Executive Order 10096 would be amended with regard to the Government's rights to ownership of inventions created in laboratories owned or operated by the Federal Government. A revised version of the Executive order might be prepared and regulations would be developed to implement the amendments effected by PL 99-502.

This action will not increase Federal costs. In the short run it will encourage private sector collaboration to assist work done in Federal laboratories by appropriated funds, and in the long run increased commercialization of patents and inventions will increase tax revenues.

Abstract: The CFR must be updated to reflect the new Federal policy, as amended by the 1988 Trade Act (PL 100-48), regarding Federal use of the metric system in its procurements, grants and other business-related activities, and the impact on State and local governments and the private sector of this transition. No alternatives are being considered.

The costs to the Federal Government cannot be accurately estimated, but will include the cost of redoing some regulations and publications, costs associated with orienting employees and contractors to use of the metric system and some share of contractor costs for converting. The benefits will be the greater marketability of U.S. products which will improve our competitive posture in world markets and thereby improve U.S. trade balances.

Semiannual Regulatory Agenda

DEPARTMENT OF DEFENSE (DOD)

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Chs. I, V, VI, and VII

33 CFR Ch. II

36 CFR Ch. III

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, DoD.

ACTION: Publication of the consolidated semiannual agenda of DoD regulatory documents.

SUMMARY: The Department of Defense is publishing this consolidated semiannual agenda of regulatory documents, including those that are procurement-related, for public information and comments under E.O. 12291 "Federal Regulation" and the Office of Federal Procurement Policy Act of 1988 (102 Stat. 4055; 41 U.S.C. 402). This agenda incorporates the objective and criteria, when applicable, of the regulatory reform program under E.O. 12291, the Federal Procurement Policy Act, and other regulatory programs. It contains DoD issuances initiated by DoD components that may have economic and environmental impact on State, local, public, or private interests under the criteria of E.O. 12291. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and, therefore, are published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

This agenda updates the report published on October 30, 1989, and includes regulations expected to be issued and under review over the next 12 months. The procurement-related agenda items included in this publication will also be used by the Office of Federal Procurement Policy to publish a "Procurement Regulatory Activity Report" as required by the Office of Federal Procurement Policy Act Amendments of 1988.

The next agenda is scheduled to be published in October 1990. In addition to this agenda, DoD components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

FOR FURTHER INFORMATION CONTACT: For information concerning the overall DoD regulatory improvement program and for general semiannual agenda information, contact Mrs. Pearl Rascoe-Harrison; telephone 202-746-0933, or write to Directorate for Information Operations and Reports, Washington Headquarters Services, 1215 Jefferson Davis Highway, Suite 1204, Arlington, Virginia 22202-4302.

For questions of a legal nature concerning the agenda and its statutory requirements or obligations, contact the Office of the General Counsel, DoD, Washington, DC 20301, or call 202-697-2714.

For general information on Office of the Secretary regulations, contact Mrs. Patricia H. Means, Directives Division, Correspondence and Directives, Directorate, Washington Headquarters Services; telephone 202-697-4111. For general information on the procurement-related agenda items, contact Mr. Owen L. Green III; telephone 202-697-7266, or write to the Defense Acquisition Regulatory System, Pentagon, Room 3D139, Washington, DC 20301-3062.

For general information on Department of the Army regulations, contact Mr. Kenneth L. Denton; telephone 202-325-6297, or write to Commander, U.S. Army Publications and Printing Command, ATTN: ASQZ-PGR, Room 1420, Hoffman I, Alexandria, Virginia 22331-0302.

For general information on Department of the Navy regulations, contact Ms. Alcinda P. Wenberg; telephone 202-697-7216, or write to Department of the Navy, Information Resources Management, IRM(C), Washington, DC 20350-1000.

For general information on Department of the Air Force regulations, contact Ms. Patsy J. Conner; telephone 202-694-3527, or write to Department of the Air Force, SAF/AAIA, Pentagon, Washington, DC 20330-1000.

For specific agenda items, contact the appropriate individual indicated in each DoD component report.

SUPPLEMENTARY INFORMATION: This consolidated agenda is composed of the regulatory status reports, including procurement-related regulatory status reports from the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force. Included also in this agenda is the regulatory report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12291. Their agenda will reflect these requirements with follow-on reporting actions taken as necessary.

DoD issuances range from DoD Directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement directives). The OSD agenda section contains the primary directives under which DoD components promulgate their implementing regulations.

To ease identification and to clarify the differences among the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes component level of authority and type of issuance, in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12291, will continue to be the DoD single source reporting vehicle, which will identify issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, when applicable, DoD components will identify those rules which come under the criteria of the:

a. Regulatory Flexibility Act;

b. Paperwork Reduction Act;

c. GATT International Trade Agreement; and

d. Office of Federal Procurement Policy Act Amendments of 1988.

These DoD issuances, which are directly applicable under these statutes, will be identified in the agenda and their action status indicated. Generally, the reports in this agenda will contain four sections: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions.

Although not a regulatory agency, the Department of Defense will continue to participate in regulatory initiatives designed to reduce the economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD component representatives identified in each section.

Although sensitive to the needs of the public and regulatory reform, the

DOD

Department of Defense reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission.

Note: The publishing of this agenda does not waive the applicability of the military affairs exemption in section 553 of title 5 and section 1 of E.O. 12291.

D. O. Cooke,

Director, Administration and Management.

CFR Citation: 33 CFR 325, App D

Legal Deadline: None

Abstract: Procedures for the protection of endangered species in the regulatory program of the Corps of Engineers. Because of the increased emphasis being placed on endangered species by the Federal and State resource agencies, the Corps identified a need to provide more definitive guidance on implementing the Endangered Species Act (ESA) in its regulatory program. The Corps is now developing counterpart regulations with the Department of Interior. The regulations will basically bring together various guidance used in the past by both the Corps and DOI. The regulations will include guidance on how the ESA Amendments impact applicants for Federal permits.

Significance: Agency Priority

Legal Authority: 33 USC 401 et seq; 33 USC 1344; 33 USC 1413

CFR Citation: 33 CFR 325.1(f)

Legal Deadline: None

Abstract: This regulation will provide for an increase in the fees charged by the Corps of Engineers for Department of the Army permits issued pursuant to section 10 of the River and Harbor Act of 1899, section 404 of the Clean Water Act, and section 103 of the Marine Protection Research and Sanctuaries Act. This action is being taken after an evaluation of the current fee structure by the Department of Defense Inspector General determined that the fee amounts had not been changed for a significant time. The regulation change will also restructure the fees from "permit fees" to nonrefundable application fees.

Unified Agenda of Federal Regulations

AGENCY: Office of the Secretary, Education.

ACTION: Publication of the semiannual agenda of Federal regulations.

SUMMARY: The Secretary of Education publishes a semiannual agenda of Federal regulations as required by Office of Management and Budget (OMB) Bulletin No. 90-03, issued under the authority of section 6(b) of Executive Order 12291 "Federal Regulation." The purpose of the agenda is to encourage more effective public participation in the regulatory process by giving the public early information about pending regulatory activities.

FOR FURTHER INFORMATION CONTACT: Questions or comments related to specific regulations listed in this agenda should be directed to Kenneth C. Depew, Acting Director, Division of Regulations Management, Office of the General Counsel, Department of Education, Room 2131, FOB-6, 400 Maryland Avenue SW., Washington, DC 20202-2241; telephone: (202) 732-2887.

SUPPLEMENTARY INFORMATION: Executive Order 12291, dated February 17, 1981, and the Regulatory Flexibility Act, Public Law 96-354, enacted September 19, 1980, require the Department of Education to publish, in October and April of each year, (1) an agenda of regulations that the Department expects to issue and (2) currently effective regulations that are under review. The agenda includes both notices of proposed rulemaking (NPRMs) currently being drafted and pending final regulations.

Under the authority of Executive Order 12291, the Director of OMB has issued OMB Bulletin No. 90-03, dated December 1, 1989, prescribing the content and structure of the Unified Agenda of Federal Regulations. The Unified Agenda will be issued semiannually and will cover the succeeding 12 months from the date of publication.

For each set of regulations listed, the Agenda provides the title of the document, the type of document, a citation of any rulemaking or other action taken since publication of the most recent Agenda, and planned dates of future rulemaking. In addition, the Agenda provides the following information:

- An abstract, which includes a description of the problem to be addressed, any principal alternatives being considered, and potential costs and benefits of the action.
- An indication of whether the planned action is likely to have significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act (5 U.S.C. 601(b)).
- A reference to where a reader can find the current regulations in the Code of Federal Regulations.
- A citation of legal authority.
- The name, address, and telephone number of the contact person at the Department from whom a reader can obtain additional information regarding the planned action.
- An indication if the action is priority and the criteria used in determining the priority status.
- The effective date of regulations previously published by the Department for which action has been completed.

If the "Abstract" section of an entry refers readers to the preamble, it means that amendments to those particular regulations would be designed (1) to effect regulatory relief, including reducing paperwork and compliance burdens, improving cost effectiveness, and to the extent possible, vesting greater discretion in State and local agencies; and (2) if necessary, to clarify and simplify requirements governing that program.

The Department will continue to review all regulations to be promulgated to ensure that they reflect the principles set forth in the joint statement issued by the President and the Nation's Governors developed during the course of the Education Summit held on September 27-28, 1989, in Charlottesville, Virginia. Particular attention will be given to increasing flexibility at the State and local levels in the use of Federal funds in return for greater accountability for increasing the levels of education and training under the Department's programs.

This publication in the **Federal Register** does not impose any binding obligation on the Department with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded. Dates of future regulatory action are subject to revision in subsequent agendas.

Dated: February 20, 1990.

Edward C. Stringer,

General Counsel.

Legal Authority: 20 USC 1221e-3(a)(1)

CFR Citation: 34 CFR 074; 34 CFR 080

Legal Deadline: None

Abstract: These regulations remove Part 80 and revise Part 74 to establish certain government-wide administrative requirements for grants and cooperative agreements to State and local governments, institutions of higher education, hospitals, and nonprofit and commercial organizations. These regulations are based on an OMB proposal to combine OMB Circulars A-102 (Grants and Cooperative Agreements with State and Local Governments) and A-110 (Grants and Cooperative Agreements with Institutions of Higher Education Hospitals and Other Nonprofit Organizations) into a single, unified grants management circular. The revised circular, for the first time, also applies these administrative requirements to commercial organizations that receive grants or cooperative agreements.

626. TECHNICAL AMENDMENTS TO PROGRAM REGULATIONS

Legal Authority: 20 USC 1221e-3(a)(1)

CFR Citation: 34 CFR 080

Legal Deadline: None

Abstract: On November 4, 1988, the Department published an NPRM proposing to establish certain governmentwide administrative requirements for grants and cooperative agreements to State and local governments, institutions of higher education, hospitals, and non-profit and commercial organizations. The regulations appear in a revised 34 CFR Part 74. These amendments to program regulations specify the extent to which the revised Part 74 regulations apply to the programs of the Department. The regulations also specify statutorily required deviations to the revised Part 74 regulations.

Regulatory Agenda

AGENCY: Department of Energy.

ACTION: April 1990 regulatory agenda.

SUMMARY: In order to make Government more responsive to the citizens of the United States and to assist in fulfilling the President's commitment to lessen regulatory burdens, the Department of Energy is publishing this regulatory agenda of rulemakings in progress and rulemakings which currently are expected to begin during the coming year. The agenda also includes any rules which are being reviewed within the Department to determine whether to propose modifications, as well as rulemakings and rule reviews which have been completed since the last regulatory agenda in October 1989. It also contains information on any rulemakings which are likely to have a significant economic impact on a substantial number of small entities, and it contains additional data on procurement-related actions.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda in general, please contact: Peter A. Greenlee, Department of Energy, Room 6A-141, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-9507.

Specific: For further information about any particular item on the agenda, please contact the individual listed under that item.

SUPPLEMENTARY INFORMATION:

Covered agencies publish regulatory agendas under Executive Order 12291 in April and October of each year. Under the Executive order, the Office of Management and Budget (OMB) sets standards and procedures for the preparation of these agendas. The April 1990 regulatory agenda has been prepared in accordance with OMB Bulletin No. 90-03.

There are important reasons for preparing the agenda. It is vital to efforts to reduce the burdens of existing and future regulations, to increase agency accountability for regulatory actions, to provide for Presidential oversight of the regulatory process, to minimize duplication and conflict of regulations, and to insure well-reasoned regulations. The Department has made considerable progress in these efforts.

Executive Order 12291 provides that the regulatory agenda may be incorporated with the "regulatory flexibility agenda" required under the Regulatory Flexibility Act, 5 U.S.C. 602 *et seq.* The regulatory flexibility agenda must cover any rule which the agency expects to propose or promulgate which is "likely to have a significant economic impact on a substantial number of small entities." Its information requirements are similar to those of the Executive order. The regulatory flexibility agenda required under 5 U.S.C. 602(a) is incorporated in today's notice.

The Office of Federal Procurement Policy Act Amendments of 1988, 41 U.S.C. 402, require publication twice a year of a "Procurement Regulatory Activity Report." As determined by OMB, agency information is now in the Agenda for use by the Office of Federal Procurement Policy (OFPP) in producing these reports.

Entries appended to this notice reflect the status of activities as of approximately February 15, 1990. They are divided into categories first by subagency and then according to their stage of rulemaking action: Prerule, proposed rulemaking, final rulemaking, or completed action.

Appended entries contain the following information: (1) The organizational unit responsible for the regulation; (2) RIN number (that is, the Regulation Indentifier Number assigned by OMB/OIRA); (3) title; (4) significance (that is, whether the regulation appears in the Regulatory Program, prepared annually under Executive Order 12498, and if it does not, whether it is nevertheless a departmental priority); (5) the name, title, address, and telephone number of a person who is knowledgeable about the regulation; (6) effects on small business (that is, whether the action is likely to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act) and effects on Federal, State, and local governments; (7) CFR citation (that is, portion of the Code of Federal Regulations that will be affected); (8) legal authority (that is, a citation to the section of the United States Code (USC), Public Law (PL), or Executive order (EO) that authorizes the regulatory action); (9) abstract (that is, a description of the problem the regulation will address, the regulatory approach under consideration, the alternatives being considered for addressing the problem, and the potential costs and benefits of the action); (10) legal deadline (that is, the statutory or judicial deadline, if any); and (11) timetable (that is, the dates and citations, if applicable, for all past stages and, generally, the date for at least the next stage of the rulemaking). The timetable for completed actions (that is, regulations completed or withdrawn and reviews completed since the preceding agenda) gives the completion date and the citation, if appropriate.

For each procurement-related regulatory action, additional information is provided in the Additional Information data element (Block A): (1) A statement that the action is procurement-related; (2) whether there is a statutory requirement for the action; and (3) whether there is a paperwork burden associated with the action.

A draft of this agenda has been transmitted to the Chief Counsel for Advocacy of the Small Business Administration for comment, if any, under the requirements of 5 U.S.C. 602(b).

The Department's next agenda will be published in October 1990.

Issued in Washington, DC, on February 27, 1990.

Stephen A. Wakefield,

General Counsel.

freezers, and freezers; room air conditioners; central air conditioners and central air conditioning heat pumps; water heaters; pool heaters; direct heating equipment; furnaces; dishwashers; clothes washers; clothes dryers; kitchen ranges and ovens; and fluorescent lamp ballasts. Other appliances, including television sets, may be regulated by the Department. This rulemaking will review the statutory standards for water heaters; pool heaters; kitchen ranges and ovens; room air conditioners; direct heating equipment; mobile home furnaces; and fluorescent lamp ballasts to determine whether those levels need to be amended. In addition, television sets will be examined to determine whether conservation standards are justified.

CFR Citation: 10 CFR 436

Abstract: Under the National Energy Conservation Policy Act, as amended, DOE has promulgated regulations establishing a methodology for estimating and comparing the life cycle costs of Federal buildings and for determining life cycle cost effectiveness. The Energy Security Act required that the regulations provide for the use of marginal energy costs in the life cycle cost analyses. DOE sought legislative revisions to authorize use of average energy costs rather than marginal costs. Appropriate legislative relief came with the Omnibus Budget Reconciliation Act of 1986. The current rulemaking would update base year prices and energy cost escalation rates based on current average energy cost projections. It would also eliminate the need for Federal Register publication of future annual updates so long as there is no significant change in the method for making average energy cost projections. In addition, the Federal Energy Management Improvement Act of 1988 requires the Secretary of Energy to establish the discount rate for life cycle costing. The current rulemaking would include the methodology by which the discount rate will be established.

Abstract: The final rule on the inclusion of electric vehicles in the Corporate Average Fuel Economy (CAFE) program was issued by DOE on April 15, 1981. It established a methodology for determining the equivalent petroleum-based fuel economy of electric vehicles so that they could be included in a manufacturer's overall CAFE program. This methodology was based on several factors including the energy efficiency of the vehicle, the efficiency of electricity generation and transmission, the fuels used to generate electricity, and the driving patterns of electric vehicles. At this time, DOE is proposing updating the factors in this methodology that are necessary for calculating the CAFE credits for electric vehicles.

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.22

Legal Deadline: None

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. In February 1984, DOE proposed to establish test procedures for heat pump water heaters and to eliminate the need for the test procedure waiver granted to A.O. Smith for its water heater with a thermal compensatory dip tube. Based on the comments received pursuant to the February 8, 1984 NPRM, the Department prepared a new NPRM published March 13, 1987. This NPRM proposed a single test procedure to cover gas, oil and electric water heaters as well as heat pump water heaters, and extended the test procedures to cover instantaneous type water heaters. In addition to the A.O. Smith matter, the rulemaking would eliminate the need for the test procedure waivers granted Bock Corp., Ford Products and

Lockinvar Corp. for their high mass oil-fired water heaters.

676. ENERGY CONSERVATION STANDARDS FOR WATER HEATERS; TECHNICAL AMENDMENTS

Legal Authority: 42 USC 6292

CFR Citation: 10 CFR 430.32

Legal Deadline: None

Abstract: This action would be a technical amendment, based on water heater test procedure changes in progress (see 1904-AA12), of the statutory standard for water heaters contained in the National Appliance Energy Conservation Act of 1987 (NAECA), as amended. This amendment could change the way the standard level is measured, but would not change the level of the minimum energy conservation standard itself. NAECA requires amendment of the applicable standard if the Secretary determines that an amended test procedure will alter the measured efficiency of the standard. This technical amendment of the standard is to be completed concurrently with the rulemaking with respect to the amended test procedure.

Abstract: On April 18, 1983, the Department of Energy (DOE) published a rule which established the Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste (standard disposal contract) to be used by the DOE in furnishing disposal services to the owners or generators of spent nuclear fuel and/or high-level radioactive waste (48 FR 16590). On March 17, 1989, the U.S. Court of Appeals for the District of Columbia (Consolidated Edison Co. et al. v. DOE, No. 88-1194) ruled that the ongoing 1.0 mill per kilowatt hour (1M/KWH) fee in DOE's standard disposal contract should be based on nuclear electricity actually sold rather than net generation of electricity as adopted in the amended final rule of September 17, 1987 (52 FR 35356). This notice publishes for comment amendments to Article I.13, Article VIII.A.1 and B.1, and Appendix G of the standard disposal contract to be consistent with the court's ruling. This amendment is expected to reduce revenues from the ongoing fee about seven percent.

Abstract: Legislative changes and economic conditions have made it necessary to modify the regulatory language to comport with congressional intent of the amended Fuel Use Act. Specifically, it is proposed to remove all language that relates to industrial facilities. The fuel price calculations and inflation indices used in the cost test calculations supporting exemptions based on a lack of alternate fuel at a cost that does not substantially exceed the cost of using imported petroleum will be changed. It also is proposed to insert language that will dramatically decrease the evidence that must be presented to qualify for an FUA exemption when a powerplant certifies to the technical and financial feasibility of using an alternate fuel at a future date.

Significance: Agency Priority

Legal Authority: 42 USC 2011 et seq; Atomic Energy Act and Energy Reorganization Act, as amended

CFR Citation: 10 CFR 707

Legal Deadline: None

Abstract: Will establish comprehensive drug abuse prevention policy and program at DOE-owned or -leased operations consistent with DOE responsibility to protect public health and safety and national security. Regulation will address drug testing requirements, educational and training programs, drug counseling and rehabilitation, confidentiality and protection of privacy of employees. Costs incurred will affect cost reimbursement type contracts for managing, operating, constructing, and servicing DOE facilities. Benefits will be in establishing reasonable level of consistency among contractor programs and resultant cost to the Government and in reducing risk of unacceptable damage to security environment, health and safety of employees and the public.

CFR Citation: 10 CFR 1015

Legal Deadline: None

Abstract: The Department of Energy (DOE) Debt Collection Regulations (10 CFR 1015) are being updated to include provisions of the revised Office of Management and Budget Circular A-129 and to implement the Federal Tax Refund Offset Program. This update supports the objective of 10 CFR 1015, which establishes the overall regulations under which DOE collects claims owed to the United States including the implementation of the Federal Claims Collection Act (31 USC 3701-3719) as amended by the Debt Collection Act of 1982 (PL 97-365). DOE's Debt Collection Regulations also incorporate the Federal Claims Collection Standards (4 CFR 101-105) published jointly by the Department of Justice and the General Accounting Office. The preamble to the Federal Claims Collection Standards states that each Federal agency is required to develop its own implementing regulations based on and consistent with these standards. The Debt Collection Act specifies that each agency must prescribe regulations on certain aspects of the debt collection process. Furthermore, the Department of Treasury's Regulations (26 CFR 301.6402) which implement the Deficit Reduction Act of 1984 (31 USC 3720A) (cont)

Significance: Agency Priority

Legal Authority: 42 USC 2011, Atomic Energy Act

CFR Citation: 10 CFR 708

Legal Deadline: None

Abstract: Employees of contractors at DOE nuclear energy facilities should be able to provide information to DOE and the Congress concerning violations of law, health and safety, or matters involving gross mismanagement, waste, fraud or abuse without fear of reprisal. The proposed regulation will establish a procedure for investigation, hearing and review of allegations of reprisal for such disclosures. Contractors found to have discriminated against an employee for providing such information must provide relief to the complainant. Costs incurred will affect cost reimbursement type contracts for managing, operating, constructing and servicing DOE facilities. Benefits will be in protecting whistleblowers who provide valuable information about unsafe, illegal, or wasteful practices.

707. ● REVISIONS TO FEE SCHEDULES; CONTRACTS

Legal Authority: 42 USC 2201; 42 USC 7254

CFR Citation: 48 CFR 9

Legal Deadline: None

Abstract: This action will update DOE's fee schedules to reflect inflation which has been experienced since they were last revised in 1983. In addition, this action may revise certain techniques used in negotiating award fee contracts. For example, this action may increase the amounts negotiated as base fees under such arrangements, and may also make base fees mandatory, rather than discretionary, in certain kinds of contracts. This action will affect management and operating contracts, construction management contracts, and construction contracts which use award fee arrangements.

Legal Authority: 42 USC 7254; 42 USC 7256; 31 USC 6301 to 6308

CFR Citation: 10 CFR 600

Legal Deadline: None

Abstract: This regulation establishes standards for program offices to follow in conducting objective merit review of discretionary awards. It addresses problems with inconsistencies among programs and uncertainties about processes within DOE. No costs are apparent. Benefits include consistency and greater public awareness of agency procedures. This regulation also implements OMB-encouraged grants management changes growing out of the Florida Demonstration Project. No costs are apparent. Benefits include less governmental and recipient paperwork and greater recipient efficiency.

Legal Authority: 42 USC 2201; 42 USC 7254

CFR Citation: 48 CFR 916; 48 CFR 970

Legal Deadline: None

Abstract: Amends the Department of Energy Acquisition Regulation to provide a mandatory contract clause for the Department's management and operating (M&O) contracts awarded on an award fee basis. The clause provides that a fee determination official may withhold all award fees if a contractor's performance is unacceptable in any important area. The clause requires contractors to provide self-evaluations which will be used by agency personnel in their appraisal of contractor management.

Significance: Regulatory Program

Legal Authority: PL 100-408; 42 USC 2273(c); 42 USC 2282a

CFR Citation: 10 CFR 830 to 832

Legal Deadline: None

Abstract: The Price-Anderson Act of 1988 contains provisions subjecting DOE contractors (and subcontractors and suppliers thereto) who are indemnified under the Price-Anderson Act, to penalties for violations of nuclear safety rules, regulations, or orders issued by the Department. The Secretary has authority to compromise, modify, or remit penalties and to prescribe regulations as necessary. The Secretary is required to determine by rule whether nonprofit educational institutions should receive automatic remission of civil penalties.

The penalty provisions of the Act were directed toward increasing DOE safety related control over contractors through financial penalties. These regulations implement the penalty provisions of the Act and will include, as an appendix, a General Statement of Enforcement Policy.

Legal Authority: 42 USC 7131; 42 USC 7231; 42 USC 7254; 28 CFR 50.15 (a)(7)(iii)

CFR Citation: 10 CFR 1012

Legal Deadline: None

Abstract: The Department of Energy does not have a policy for indemnifying its employees who are sued personally and suffer an adverse judgment as a result of conduct taken within the scope of employment. Lawsuits against Federal employees in their personal capacity can constitute a major impediment to the effective conduct of the public's business, since employees faced with the potential of being held personally liable may be inhibited in discharging their duties. To deal with this problem, the Department proposes to establish a policy permitting, but not requiring, the indemnification of an employee who suffers an adverse verdict, judgment, or other monetary award when the actions giving rise to liability were within the scope of his employment and indemnification is in the interest of the Government. This policy would be modeled on a similar policy already adopted by the Department of Justice for its employees.

Legal Authority: 42 USC 7254; 5 USC 301; 28 CFR 1621

CFR Citation: 10 CFR 202

Legal Deadline: None

Abstract: The intent of this regulation is to establish an agency-wide procedure for processing and responding to subpoenas or requests for Department of Energy records or testimony by Department of Energy officers and employees. A regulation intended to fulfill this purpose currently exists. However, relocating its position in the Code of Federal Regulations and some minor language changes would clarify its applicability. In addition, efficient application of the regulation will be promoted by more closely modeling it on the comparable Department of Justice regulation, since the Department of Justice is usually responsible for representing the Department of Energy in such matters. The cost of this action is expected to be de minimis and could effect a savings, since clarification and recodification of the existing regulation may avoid needless litigation.

AGENCY: Office of the Secretary, HHS.

ACTION: Publication of unified agenda of regulations.

SUMMARY: The President's February 17, 1981, Executive order (12291) and the Regulatory Flexibility Act of 1980 require the Department to publish an agenda of significant regulations being developed and an indication of those regulatory actions that are being analyzed for their effect on small businesses. The Department published its last agenda on October 30, 1989.

FOR FURTHER INFORMATION CONTACT: For further inquiries or comments related to specific regulations listed in the agenda, the public is encouraged to contact the appropriate responsible individual. Questions or comments on the overall agenda should be sent to: Charlotte E. Lewis, Regulations Coordinator, Office of the Secretary, Department of Health and Human Services, 200 Independence Avenue SW., Washington, DC 20201; telephone: (202) 245-6824.

727. REVISIONS TO "QUALITY OF CARE" EXCLUSION AND PAYMENT DENIAL REGULATIONS

Legal Authority: 42 USC 1320a-7(b)(6)(B); 42 USC 1320c-3(a)(2); 42 USC 1320c-5

CFR Citation: 42 CFR 1001; 42 CFR 1004; 42 CFR 466

Legal Deadline: None

Abstract: This rulemaking would revise and consolidate, where feasible, the principal regulations pertaining to "quality of care" exclusions from Medicare and other health care programs. Such exclusions may be based on the furnishing of excessive services, the failure to furnish care that meets professionally recognized standards of medical care, or the failure to properly document medical services. This rulemaking would attempt to make the various OIG regulations relating to such quality of care exclusions consistent with each other, consistent with HCFA's PRO payment denial regulations at 42 FR 466, and consistent with the case law that has been decided in the U.S. Courts of Appeals in recent years.

728. PRINCIPLES FOR DETERMINING COSTS AND COST ALLOCATION PROCEDURES APPLICABLE TO GRANTS, CONTRACTS, AND OTHER AGREEMENTS FOR WORK PERFORMED BY HOSPITALS

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74, Appendix E; 45 CFR 78

Legal Deadline: None

Abstract: This action will revise the Department's current cost principles for research and development activities under grants and contracts with hospitals to make them clearer, more specific, and compatible with cost principles issued by OMB for State and local units of government, educational institutions and nonprofit organizations. The revision will also broaden the coverage of the principles to include all grants, contracts and other agreements with hospitals (except the Medicare & Medicaid programs).

Legal Deadline: None

Abstract: This rulemaking would standardize the procedures for imposing civil money penalties and related sanctions authorized by statutes incorporating provisions of section 1128A of the Social Security Act. In addition to standardizing OIG's existing CMP procedures, this rule would include provision for CMPs and related exclusions for various Medicare Part B violations resulting from OBRA '86, OBRA '87 and PL 100-360, including (1) those who bill Medicare beneficiaries on a non-assigned basis for services of a certified nurse anesthetist or a physician assistant; (2) non-participating physicians billing for actual charges above permitted charges; and (3) certain instances of failure to provide appropriate diagnostic codes with a request for payment for an item or service provided by a physician.

737. REVISIONS TO THE PRO SANCTIONS NOTIFICATION PROCESS

Legal Authority: 42 USC 1320c-5(b)(2)

CFR Citation: 42 CFR 1004

Legal Deadline: None

Abstract: This rule would provide for an alternative to the method of public notice currently used by the OIG in informing the general public of its decision to sanction a practitioner or other person under section 1156 of the Social Security Act as a result of a PRO recommendation. The rule would allow each sanctioned physician or other provider an opportunity to elect to inform each of his or her patients of the sanction action rather than having the OIG provide notice to the general public by publishing a notice in a newspaper.

Legal Authority: 47 USC 398

CFR Citation: 45 CFR 87.1-40

Legal Deadline: None

Abstract: Implements the Equal Opportunity in Employment Provisions of the Public Telecommunications Financing Act of 1978, PUB. L. 95-567, 47 U.S.C. 398(b)(1). This provision requires that equal opportunity in employment be afforded to all persons and that no person shall be subjected to discrimination in employment on the grounds of race, color, religion, national origin, or sex by the Public Broadcasting Service, National Public Radio, and public telecommunications entities receiving Federal funds from the Corporation for Public Broadcasting.

743. AUDITS OF NON-GOVERNMENTAL GRANTEES

Significance: Agency Priority

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74.62(b), (Revised)

Legal Deadline: None

Abstract: This action will implement OMB Circular A-133 which is expected to be issued sometime this year. The Circular will provide governmentwide standards for non-Federal audits of college and university and other non-profit recipients of Federal grants and contracts. The Circular and these amendments will replace the audit

requirements currently contained in OMB Circular A-110.

Additional Information: It is expected that OMB which published a draft of its Circular in the Federal Register and obtained public comments will soon issue this Circular. The specific form and nature of our action is dependent upon actions to be taken by OMB. It is possible that A-133 may be implemented as part of the current revision of the A-102/A-110 Common Rule-45 CFR Part 92. If so there may be no need for this action.

CFR Citation: 42 CFR 1001; 42 CFR 1003

Legal Deadline: None

Abstract: These final regulations provide for the imposition of civil money penalties and exclusions against physicians billing the Medicare program or program beneficiaries for services of an assistant at surgery for cataract operations where prior approval has not been granted. This rule specifically responds to various comments raised as a result of the interim final, and makes a number of technical corrections to those final regulations.

748. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74; 45 CFR 92

Legal Deadline: None

Abstract: Fiscal and Administrative requirements governing grants and cooperative agreements to non-governmental recipients are presently codified in an HHS-specific regulation (45 CFR Part 74). This rule would move those requirements (with many changes and additions) to a new rule (45 CFR Part 92) that would be virtually identical to the rules of 26 other federal agencies. The same action would also create a mechanism for applying a new set of liberalized rules to research grants. Since all Federal agencies' grants and cooperative agreements would henceforth be subject to identical rules, there should be administrative benefits for multi-award recipients and better understanding of the terms and conditions of awards.

753. IMPLEMENTATION OF THE EQUAL ACCESS TO JUSTICE ACT IN AGENCY PROCEEDINGS

Legal Authority: 5 USC 504(c)(1)

CFR Citation: 45 CFR 13

Legal Deadline: None

Abstract: The Equal Access to Justice Act requires agencies to pay attorney fees to parties prevailing against the Government in certain types of administrative proceedings. It requires each agency to issue rules implementing the Act as it applies to these proceedings. As originally enacted, the Act had a sunset clause. A recent statutory amendment eliminated the sunset provision and made other changes in the Act. The instant regulation would amend 45 CFR Part 13 (HHS's regulation implementing the Act) to eliminate the corresponding sunset provision and to make other changes conforming with the statutory changes.

770. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; REVISED MEDICAL CRITERIA FOR DETERMINATION OF DISABILITY; CARDIOVASCULAR SYSTEM

Significance: Regulatory Program

Legal Authority: 42 USC 1302; 42 USC 1383; 42 USC 405

CFR Citation: 20 CFR 404.1500ff Appendix 1

Legal Deadline: None

Abstract: Sections 4.00 and 104.00 of Appendix 1 of the Disability regulations (404.1501 through 404.1599) describe cardiovascular impairments considered severe enough to prevent an individual from doing any gainful activity or, in the case of a child under age 18, age-appropriate activities. Because of the advances in medical technologies and practice in this area we are revising the criteria in the Listing of Impairments to bring these sections up to date. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program.

Legal Authority: 42 USC 1302; 42 USC 1383; 42 USC 405

CFR Citation: 20 CFR 404.1500ff, Appendix 1

Legal Deadline: None

Abstract: Sections 3.00 and 103.00 of Appendix 1 to the Disability Regulations (404.1501 through 404.1599) describe those respiratory impairments which are considered severe enough to prevent a person from engaging in any gainful activity or, in the case of a child under age 18, age-appropriate activities. We are proposing revisions to require consideration of the nature and clinical manifestations of respiratory disorders and the limitations such disorders impose on the individual's ability to function. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance programs.

Significance: Agency Priority

Legal Authority: 42 USC 1302; 42 USC 405; 42 USC 1383

CFR Citation: 20 CFR 404.1500ff, Appendix 1

Legal Deadline: None

Abstract: Sections 1.00 and 101.00 of Appendix 1 to the Disability Regulations (404.1501 through 404.1599) describe those musculoskeletal impairments which are considered severe enough to prevent a person from doing any gainful activity or, in the case of a child under age 18, age-appropriate activities. We are proposing comprehensive revisions to these sections to ensure that the medical evaluation criteria are up to date and consistent with the latest advances in medicine. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program.

Legal Authority: 42 USC 405; 42 USC 1320a-6; 42 USC 1302; 42 USC 1383; PL 98-369, Sec 2615; 42 USC 1383b; 42 USC 1327

Legal Deadline: None

Abstract: Sec. 2615 of Pub. L. 98-369 amended sec. 1127 of the Social Security Act to eliminate windfalls that permitted some people who were paid Old-Age, Survivors and Disability Insurance (OASDI) and Supplemental Security Income (SSI) benefits retroactively to receive more in total benefits for the same period than if they had been paid the benefits when regularly due. The two main changes are: (1) SSI benefits will be reduced where retroactive OASDI benefits have been paid before the SSI benefits. Under prior law, reductions could be made only in retroactive OASDI benefits and only when the retroactive SSI had been paid first. (2) OASDI or SSI benefits payable upon reinstatement following a period of suspension or termination will be reduced by the amount of SSI benefits that would not have been paid if the OASDI benefits had been paid when regularly due. We will amend our regulations to conform to the statutory changes. The program savings to SSA are estimated as $5 million a year.

Abstract: This provision of the law requires us to consider the combined effect of all of a person's impairments in determining disability regardless of whether any single impairment, if considered separately, would be of sufficient severity. If we do find a medically severe combination of impairments, the combined impact of the impairments must be considered throughout the disability determination process. When the combined effect is found to be severe, the person's impairments are evaluated throughout

the full sequential evaluation process. We are revising the regulations to explain in greater detail how we consider the combined effect of multiple impairments and what we mean by a severe impairment.

Abstract: The proposed regulation reflects the provisions of the following statutes: (1) Pub. L. 97-458, enacted January 12, 1983, which provides that Indian judgment funds held in trust or distributed per capita pursuant to a plan approved by Congress or the Secretary of the Interior are excluded from income and resources under the Supplemental Security Income program (2) Pub. L. 98-64, enacted August 2, 1983, which provides for the exclusion of all funds held in trust by the Secretary of the Interior for an Indian tribe and distributed per capita to a member of that tribe and (3) Pub. L. 100-241, enacted February 3, 1988, which provides for the exclusion from income and resources of certain items received by an individual Alaska native or descendent of an Alaska native from a native corporation. Some savings in program costs may result from these changes.

777. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; EVALUATION CRITERIA FOR IMMUNE SYSTEM DISORDERS, INCLUDING HIV INFECTION (ACQUIRED IMMUNODEFICIENCY SYNDROME (AIDS)/AIDS-RELATED COMPLEX)

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1302

Abstract: Sections 10.00 and 110.00 of Appendix 1 to the Disability Regulations (404.1501 through 404.1599) describe immune system disorders which are severe enough to prevent a person from doing any gainful activity or, in the case of a child under age 18, age-appropriate activities. We are proposing to add the criteria for evaluation of AIDS to these sections. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program. The budgetary impact is unknown at this time.

778. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; NONPAYMENT OF BENEFITS TO PRISONERS, VOCATIONAL REHABILITATION EXCEPTION

Significance: Agency Priority

Legal Authority: 42 USC 402(x)(1); 42 USC 405

CFR Citation: 20 CFR 404D

Legal Deadline: None

Abstract: Existing regulations at 20 CFR 404.468(d) provide a vocational rehabilitation exception to the nonpayment of benefits to prisoners provision described at 20 CFR 404.468(a). Under the exception, the nonpayment provision does not apply if a prisoner who is entitled to benefits on the basis of disability is actively and satisfactorily participating in a rehabilitation program which has been specifically approved for the individual by court of law. In addition, the Secretary must determine that the program is expected to result in the individual being able to do substantial gainful activity upon release and within

a reasonable time. No benefits will be paid to the prisoner for any month prior to the approval of the program. The proposed regulations would set out more definitive criteria for applying the exception and would define terms, such as "rehabilitation program," "court of law," and "reasonable time," for purposes of applying the exception.

Legal Deadline: None

Abstract: Section 8 of Pub. L. 99-643 provides that effective for benefits payable for months after May 1986, an underpayment shall be paid to any surviving spouse of a deceased SSI recipient whether or not the spouse was eligible for SSI, if such spouse was living in the same household with the recipient at the time of death, or within the 6 months immediately preceding the month of death, or to the parent(s) of a deceased disabled or blind child who was an SSI recipient if the child was living with the parent(s) at the time of death or within the 6 months immediately preceding the month of death. These proposed regulations would also reflect a policy change that would continue the appeals process (versus automatic dismissal), at the Administrative Law Judge or Appeals Council level, for the survivors' entitlement to an underpayment if they meet certain conditions. The cost estimate for these provisions is estimated to be $2 million per year in program costs and less than $1 million and 30 workyears in administrative expenses.

Significance: Regulatory Program

Legal Authority: 42 USC 1302; 42 USC 1382(a); 42 USC 1382c(f)

CFR Citation: 20 CFR 416.1165

Abstract: Under the current SSI rules, three different formulas are used to calculate the amount of income deemed to an eligible child from his or her ineligible parent(s) when they are living together. The formulas produce different results depending on the type of income (earned versus unearned) and the number of children in the household. This sometimes creates anomalies. The rule would resolve the anomalies by providing that one formula be used regardless of the type of parental income. The formula to be used is the formula now used when the parent(s) has both earned and unearned income.

Legal Authority: 42 USC 1302; 42 USC 1383b

CFR Citation: 20 CFR 404.1624; 20 CFR 416.1024

Abstract: These proposed regulations would place a limitation on the rates of payment a State may pay for laboratory tests purchased by State agencies. Under these proposed regulations a State agency would be required to limit

the amounts it pays for laboratory tests to the maximum payment level contained in the Health Care Financing Administration's (HCFA) National Limitation Amounts for Laboratory Fee Schedules. Currently the only payment requirement is that the rates of payment not exceed the highest rates paid by Federal or other agencies in the State for the same or similar types of services.

Significance: Regulatory Program

Legal Authority: 42 USC 1302

CFR Citation: 20 CFR 416.1103; 20 CFR 416.1133

Legal Deadline: None

Abstract: It is our policy that money borrowed (a loan) is not income for SSI purposes and therefore has no effect on a person's SSI benefits. These proposed regulations will state that only cash transactions may be considered loans. These proposed regulations will also provide that the one-third reduction rule which applies when a person who lives in another's household and receives in-kind support and maintenance will not apply if the SSI recipient pays his or her pro rata share in cash and no later than the month under consideration. No additional costs or savings are anticipated since these proposed regulations will codify existing policy.

Abstract: These regulations would reflect recently enacted statutory changes that extend social security coverage to work situations not previously covered. These newly covered work situations include: (1) Inactive duty training in the uniformed services; (2) Certain agricultural labor situations; and (3) Work for a spouse or parent. Additionally, the year for reporting corporate directors' income has been changed, and Medicare coverage is provided to many previously uncovered State and local government employees. Also, a recently enacted statutory provision (section 8017 of PL 100-647) further revised our coverage provisions relating to agricultural wages.

Abstract: These proposed rules reflect sec. 9110 of Pub.L. 100-203. They extend Interim Assistance Reimbursement to cases in which assistance is provided by a State while an individual's Supplemental Security Income (SSI) payments are suspended or terminated and then subsequently reinstated. Current regulations provide for reimbursement to a State only for interim assistance payments made while an individual's initial application for SSI is pending. No additional program costs are anticipated since the amount reimbursed to the State is later deducted from the individual's SSI payments.

Abstract: The regulation reflects the provisions of section 9120 of Pub. L.

Abstract: This proposed rule would change one of the requirements for determining whether an insured person is contributing to the support of a child at a specific time. The requirements that contributions be made regularly and be large enough to meet an important part of a child's living expenses would be replaced by a requirement that consideration be given to the economic circumstances of both the insured person and the child and that recognition also be given to the child's needs. Because of the minimal number of persons who would be affected by these proposed changes any additional program costs would be negligible.

Abstract: We have learned that old-age and survivors' insurance beneficiaries whose estimate of earnings for the current year is more than the exempt amount for that year, but is equal to or less than the prior year's earnings, tend to underestimate or fail to report their work for the next year which results in overpayments. We are proposing an addition to the current regulation which will clarify that our interpretation of Section 203(h)(3) and (h)(4) of the Social Security Act permits SSA to request estimates of earnings for the next taxable year as well as the current taxable year. If a beneficiary does not furnish the requested future year's earnings estimate, we will use the estimate for the current year to determine whether to withhold benefits for the next year. We estimate savings of $3.5 million per year.

Legal Deadline: None

Abstract: The proposed rules contain procedures for determining when a State agency has substantially failed to make disability determinations in accordance with applicable Federal law. If it is determined that a State agency has substantially failed to make disability determinations in a manner consistent with Federal regulations or other written guidelines, the Social Security Administration, in accordance with section 221 of the Social Security Act (42 USC 421), must assume the responsibility for making the disability determinations. The costs or savings likely to result from implementation of these regulations are not predictable.

Legal Authority: 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 416.1201

Legal Deadline: None

Abstract: This proposed change would exclude from the definition of resources, in the Supplemental Security Income program, for one calendar month following the month of receipt, certain cash payments made to an ineligible spouse or parent for providing medical or social services to the eligible individual. Current rules exclude such amounts paid to the eligible individual for one calendar month following the month of receipt. This proposal would broaden the exclusion to include similar payments made to certain other individuals whose income and resources are deemed available to the SSI recipient.

Abstract: This regulation reflects the provisions of two sections in PL 100-647. The first provision requires the Social Security Administration to deny or terminate benefits if the beneficiary is deported (or ordered deported) because of certain actions performed while associated with the Nazi government of Germany or one of its allies. The second provision extends the current law treatment of self-employed workers who may claim an exemption from Social Security coverage if they are members of a religious faith that is opposed to participation in Social Security programs to their employees in cases where both the employee and the employer are members of a qualifying religious faith.

CFR Citation: 20 CFR 416.204

Legal Deadline: None

Abstract: We propose to amend our regulations on redeterminations of Supplementary Security Income eligibility. Our current policy does not include in the redetermination period the month of eligibility, the month of application, or the month of the last redetermination or eligibility update. The redeterminations omit these months and, as a result, we do not have an accounting of all living arrangements, income, and resources for the period of eligibility. We propose to change our policy to include in the redetermination period the month of eligibility, month of application, or month of eligibility update for the first redetermination and the month of the last redetermination for subsequent redeterminations. However, for redeterminations that have a period of review that extends beyond the rules of administrative finality, we propose to limit the verification of retroactive information on factors of eligibility to no more than what the rules of administrative finality allow.

Abstract: We are issuing these rules to govern the Blood Donor Locator Service, which we will establish and conduct, as required by section 8008 of P.L. 100-647. Under these rules, we will furnish to participating States, at their request, the last known personal mailing address (residence or post office box) of blood donors whose blood donation shows that they are or may be infected with the human immunodeficiency virus which causes acquired immune deficiency syndrome, if the State or an authorized blood donation facility has been unable to locate the donors. If our records or those of the Internal Revenue Service contain an adequate personal mailing address for the donor, we will provide it to the State so that the State or the blood donation facility can inform the donor of the possible need for medical care and treatment.

Abstract: To be considered in "full-time" attendance under the existing regulations, an elementary or secondary student must be enrolled for at least 20 hours of scheduled school attendance per week. The proposed regulation would modify our policy so that a student who is enrolled for fewer than 20 hours per week may nevertheless be considered in full-time attendance if the student is enrolled for the number of hours per week that is considered by the school to be full time and is precluded by reasons beyond the individual's control from enrolling in a program involving at least 20 or more hours per week.

803. ● OLD-AGE, SURVIVORS AND DISABILITY INSURANCE PROGRAM; ADMINISTRATIVE WAIVER OF DISADVANTAGEOUS RECOMPUTATIONS

Legal Authority: 42 USC 415(f)(2)(A)

CFR Citation: 20 CFR 404.285; 20 CFR 404.287

Legal Deadline: None

Abstract: The Social Security Administration automatically recomputes the primary insurance amount of a beneficiary who has wages or self-employment income for a given year. Generally, recomputations are advantageous to workers and their families because benefits are increased. However, there are unusual situations where benefits are decreased as a result of a recomputation. Under current regulations, we process the recomputation and notify the beneficiary of the decrease in benefits, but will automatically withdraw the recomputation if the beneficiary so requests in writing. We propose to revise the regulations to waive administratively a disadvantageous recomputation and notify the beneficiary of that action and that he or she may nevertheless request that the recomputation be processed if he or she so desires.

Abstract: The regulations include standards for obtaining consultative examinations, the types of consultative examination referrals to be made, and monitoring procedures for consultative examinations and the referral process. The regulations also provide for evaluating all medical evidence of record and developing a 12-month medical history. References to "medical assessments" will be replaced by references to medical source statements as to what a person can still do despite his or her impairment(s). The regulations also set forth the standards to be used in evaluating the medical opinions of treating and other medical sources. The changes will not have any significant impact on either administrative or program costs.

Abstract: The issue is whether amounts otherwise due an individual assigned to repay a legal obligation should continue to be included in income under the Supplemental Security Income (SSI) program. The regulation will clarify that we count such amounts as income. Because this clarification only will reflect current operating policy, no costs/savings are anticipated.

Abstract: These regulations for administering the disability determination function make changes to improve the disability determination process by modifying our State agency monitoring and technical and management assistance procedures, administrative standards, and fiscal, audit, and appeals requirements. They also clarify when we will find that a State agency has substantially failed to make disability determinations consistent with the regulations and other written guidelines.

Abstract: These rules which implement section 2612 of Pub. L. 98-369 will limit the rate at which an overpayment may be recovered from an individual still receiving benefits (SSI or federally administered supplementary payments, or both) to 10 percent of the recipient's total income (countable income plus SSI and State supplementary payments) or the recipient's payment for the month, whichever is less. The 10 percent requirement will apply only to recipients in current payment status. The 10 percent limit will not apply in situations involving conditional disposition of resources agreements, misuse of burial funds, recovery by refund, cross program adjustment for individuals not in SSI current pay or where it is determined that the overpayment occurred because of recipient fraud, willful misrepresentation, or concealment. The rules, in negotiated cases, set a rate of withholding that is appropriate for the financial condition of the overpaid person after (continued)

Abstract: Section 112.00 of Appendix 1 to the Old-Age, Survivors, and Disability Insurance Disability Regulations 404.1501 through 404.1599 describes the medical criteria that apply only to the evaluation of mental impairments of persons under age 18. We are proposing comprehensive revisions to that section to ensure that the medical criteria are up to date and consistent with the latest advances in medicine. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program.

Abstract: We are adding a specific listing for catastrophic congenital and acquired abnormalities or diseases, including Down Syndrome, to the multiple body systems, category of impairments, in Part B of the Listing of Impairments to provide for evaluation of these claims according to the impairment criteria for the major system affected. The Listing of Impairments describes, for each of the major body systems, a level of severity which is considered sufficient to find a person disabled or blind under the disability program. Part B contains additional medical criteria that apply only to the evaluation of impairments of persons under age 18.

Abstract: We are proposing to revise our rules on reducing the Social Security spouse's benefits of a person who is also receiving a Government pension based on noncovered employment. The Omnibus Budget Reconciliation Act of 1987 (PL 100-203, sec 9007) requires that a Federal Government employee who elects to be covered under Social Security after December 31, 1987 must work for at least 60 months after that date in order to avoid the reduction after he or she becomes entitled to Social Security spouse's benefits. That requirement is extended to the foreign service pension system by the Technical and Miscellaneous Revenue Act of 1988 (PL 100-647), which also provides that under certain circumstances the reduction does not apply to any individual who retires before his or her coverage election becomes effective.

Legal Deadline: None

Abstract: This final rule reflects section 8103 of PL 100-647 (Technical Corrections Act of 1988). It adds to Subparts K and L of the Supplemental Security Income (SSI) regulations income and resource exclusions for certain housing assistance payments that were previously excluded under various Federal laws and now are excluded under the Social Security Act for purposes of determining eligibility or payment amount under the SSI program. These exclusions (with the exception of section 202(h) of the Housing Act of 1959) are presently listed in the Appendix to Subpart K, entitled "Lists of Types of Income Excluded Under the SSI Program as Provided by Federal Laws Other than the Social Security Act." The statutes containing the housing assistance exclusions are as follows: (a) The United States Housing Act of 1937; (b) The National Housing Act; (c) Section 101 of the Housing and Urban Development Act of 1965; (d) Title V of the Housing Act of 1949; and (e) Section 202(h) of the Housing Act of 1959. Abstract: This regulation reflects sections of PL 100-647 that provide for a modified computation of an individual's Social Security benefit where he or she also receives a pension that is based on noncovered employment. The phase-out provisions of the modified computation are extended to include persons with more than 20, but less than 30, years of coverage and at the same time the percentages for each applicable year are increased. The month used in determining the appropriate pension amount in the modified computation is changed from the first month of concurrent eligibility to the first month the individual is concurrently entitled to both Social Security and the monthly pension.

Significance: Regulatory Program

Legal Authority: PL 100-690

CFR Citation: 45 CFR 96

Legal Deadline: None

Abstract: Section 2027 of Public Law 100-690 amends Section 1916 of the PHS Act to set a floor on the amount States must spend each year beginning in FY 1991 from Alcohol and Drug Abuse and Mental Health Services Block Grant funds for new mental health services and programs. However, the Secretary may grant any State that he determines to be in a financial crisis a waiver lowering that floor by up to a certain amount. The Act requires that such determinations be based on standards published in regulations. Issues to be resolved in regulations include: (a) how to determine when a State is in a financial crisis; (b) what information States must provide to assure that a waiver is needed to avoid disruption to existing and planned high priority services; (c) how to determine the extent of relief to be granted for approved waivers; and (d) imposing requirements that are cost effective.

Abstract: The proposed rule addresses three major problems of the current regulation by (1) substantially upgrading laboratory performance tests for certifying respirators; (2) adding quantitative face seal performance tests; and (3) replacing current certification tests that are design- or application-specific with tests that are performance-based. The first NPRM for revising 42 CFR Part 84 was published in the Federal Register on August 27, 1987 (52 FR 32402). In response to the many comments on the first proposal, NIOSH is in the process of developing a second NPRM.

Abstract: The revised regulation will clarify the requirements for packaging and shipping material containing etiologic agents. Some users have had difficulty applying the current regulation, particularly with respect to the definition of material covered. The revised regulation is not expected to have a major impact on the cost of shipping these materials and is expected to result in increased conformance so that those handling such packages will have an even lower probability of exposure to potentially infectious material.

856. DRUG EXPORTS

Legal Authority: PL 99-660 Drug Export Amendments Act of 1986

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Drug Export Amendments Act of 1986 authorizes the export for commercial marketing abroad of veterinary and human drugs not approved for marketing in the United States. Under previous law, the export of new human and animal drugs for marketing was confined to drugs that were approved by FDA for domestic use. The law establishes three separate pathways for the export of unapproved products. Under each pathway, FDA approval is required before export is permitted. As a prerulemaking activity, FDA is developing guidance material for manufacturers instructing them as to what information must be submitted to the agency to obtain approval for the export of unapproved products. The guidance material will also identify FDA sources of information on agency practices and policies concerning the implementation of the Drug Export Amendments Act of 1986. The agency will then decide what, if any, regulations are necessary for the efficient implementation of the amendments, and establish timeframes for the development of those regulations.

Abstract: In 1980, FDA published a regulation (21 CFR 102.33) to require the declaration of the percent of juice contained in all diluted juice beverages. This regulation was published to extend the percent juice declaration required for diluted orange juice beverages (21 CFR 102.32) to all other diluted juice beverages. These two regulations were developed to provide consumers with information as to the various amounts of juice in the diluted juice beverages offered for sale. The regulation regarding percentage juice declaration for diluted orange juice beverages had been in effect for several years and functioning well before the regulation addressing all other diluted juice beverages was published. With publication of 21 CFR 102.33, a controversy developed over the applicability of the regulation to diluted cranberry juice beverages. The controversy centered around the fact that cranberry juice is a high acid juice and is not normally consumed as a single strength juice. Due to this unresolved controversy, 21 CFR 102.33 has not been made effective. In the Federal Register of July 16, 1987 (52 FR 26690), the agency proposed to revoke the common or usual (cont)

This proposed action also withdraws the proposed rule published in the Federal Register of June 1, 1984 (49 FR 22831), which, among other things, exempted cranberry juice products from percentage ingredient labeling requirements. 858. COMPUTER PRODUCTS; POLICY GUIDANCE

Significance: Regulatory Program

Legal Authority: 21 USC 321(h)

CFR Citation: 21 CFR 800

Legal Deadline: None

Abstract: As a prerulemaking activity, FDA is developing guidance for manufacturers respecting how FDA would apply existing statutory requirements to the regulation of computer products (i.e., both hardware and software) when such products meet the definition of a medical device under the act.

On September 25, 1987, FDA made available a draft policy guidance intended to clarify how FDA would apply existing statutory requirements to the regulation of such products to provide opportunity for public participation in this activity.

Upon analysis of the public comments on the complex issues pertaining to the regulation of computer products, the agency will decide whether any additional steps are necessary to clarify which computer products meet the definition of a medical device and what level of regulation, if any, is appropriate under the act.

Abstract: FDA is responsible for issuing regulatory standards for blood and blood components to ensure the continued safety, purity, and potency of such products. Since 1975, CGMP regulations have been in effect that provide standards for facilities, personnel, and manufacturing procedures for blood and blood components. In accordance with the Regulatory Flexibility Act, FDA has conducted a retrospective review of its CGMP regulations for blood and blood components, to determine how the regulations may be revised to relieve regulatory burdens and increase flexibility without adversely affecting the public health. Part of the retrospective review of the CGMP will be completed through FDA's implementation of an efficacy review of blood and blood derivatives which responds to recommendations of a Committee of scientific experts--the Panel on Review of Blood and Blood Derivatives. To complete the remainder of the retrospective review program regarding the CGMP, FDA will issue a proposed rule to revise the CGMP regulations.

Abstract: Based upon an evaluation of an action issues report, the agency has concluded that it will recommend that the Secretary propose revision of the existing regulations in a manner consistent with the current procedural regulations for human drugs where appropriate. The New Animal Drug Application (NADA) revisions would articulate general requirements in regulations containing performance standards and would complement them through detailed guidelines on, among other matters, appropriate ways of meeting requirements for submission of chemistry, pharmacology, and statistical data that would better address the intricate scientific issues involved. Although the guidelines would not establish regulatory requirements, persons would be able to rely on them with confidence that action taken under a guideline would be acceptable to the agency.

Abstract: This regulatory action is being taken to improve the safety of marketed drug products by a reporting scheme that will require serious adverse reactions associated with licensed biological products to be reported to the Food and Drug Administration (FDA).

The purpose of the regulatory action is to require prompt reporting to the agency of serious adverse experiences for all licensed biological products.

The regulatory action being considered by FDA would be consistent with the agency's requirements regarding adverse reactions reporting for approved new drugs under 21 CFR 314.80 (see February 22, 1985; 50 FR 7452). These biologic regulations would require that all "serious and unexpected" adverse experiences and any "significant increase in frequency" of a serious expected event be reported to the agency within 15 working days. Known and nonserious adverse biological product experiences would be required to be reported to the agency at quarterly or annual intervals, depending on the length of marketing experience with the product. 863. PROPOSED RULE TO IMPLEMENT THE ORPHAN DRUG AMENDMENTS TO THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

Significance: Regulatory Program

Legal Authority: PL 97-414 Orphan Drug Act; PL 100-290

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Orphan Drug Act is intended to provide incentives for drug companies to invest in the development of drugs for rare diseases or conditions. Certain incentives are necessary because "orphan drugs" are unlikely to be profitable. The agency is required to carry out provisions of the Orphan Drug Act, e.g., by designating a drug as an orphan drug, by providing protocol assistance, and by granting seven years of exclusive approval status. The proposed rule would establish procedures whereby drug sponsors can take advantage of the incentives to encourage development of orphan drugs. Several provisions of the Orphan Drug Act call for promulgation of regulations to provide the framework and guidance for implementing a program of incentives to drug sponsors and manufacturers.

864. ABBREVIATED NEW DRUG APPLICATION REGULATIONS (TITLE I OF THE "DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984")

Significance: Agency Priority

Legal Authority: PL 98-417, (Title I)

CFR Citation: 21 CFR 10; 21 CFR 310; 21 CFR 314; 21 CFR 320

Legal Deadline: None

Abstract: Until the passage of Title I of the "Drug Price Competition and Patent Term Restoration Act of 1984," abbreviated new drug application (ANDA) procedures were only available for generic products equivalent to pioneer drugs approved before 1962. Title I opened up the ANDA policy to generic copies of products approved after 1962. On July 10, 1989 (54 FR 28872), FDA proposed regulations to implement Title I. The proposal provides for the submission of abbreviated new drug applications for generic versions of drug products first approved after 1962. These new provisions will benefit consumers by making generic drug products available more quickly.

865. FOOD LABELING; HEALTH MESSAGES AND LABEL STATEMENTS

Significance: Regulatory Program

Legal Authority: 15 USC 1453 Fair Packaging and Labeling Act; 15 USC 1455 Fair Packaging and Labeling Act; 21 USC 321 Federal Food, Drug, and Cosmetic Act; 21 USC 343 Federal Food, Drug, and Cosmetic Act; 21 USC 348 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 101

Legal Deadline: None

Abstract: In the FEDERAL REGISTER of February 13, 1990, the Food and Drug Administration (FDA) reproposed to amend the food labeling regulations to provide for the use of health messages on food labeling. The purpose of this reproposal would be to establish procedures for permitting valid and reliable consumer information on food labels about the value that ingestion (or reduced ingestion) of a dietary component, as part of a total dietary pattern, may have in either lowering the risk, or forestalling the premature onset, of a particular chronic disease condition. In light of this reproposal, FDA withdrew the August 4, 1987 (52 FR 28843) proposal on health messages on food labels. FDA also outlined how it is likely to enforce its regulations that bear on health messages during the period that it is receiving and considering comments on the reproposal. The agency also provided information on the proposed functions and responsibilities of the Public Health Service Committee on Health Messages; on the agency's proposed plan to utilize health messages as a consumer education tool; (cont)

866. LOOK-BACK REQUIREMENTS FOR BLOOD RECIPIENTS WHO ARE AT INCREASED RISK OF HIV INFECTION

Legal Authority: 21 USC 351 to 360k; 21 USC 374; 42 USC 262 to 264

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The agency currently requires that all blood and blood components intended for the manufacture of any product be tested for antibody to human immunodeficiency virus (HIV). In instances when the blood of a donor is found to contain antibodies to HIV, some blood centers have initiated a program of voluntary "look-back" in which recipients of blood and blood components obtained from the donor's prior donations are traced and tested. A well-conducted look-back program can provide an effective mechanism for identifying, testing, and counseling transfusion recipients who are at increased risk of HIV infection--those who receive blood from a donor later found to be infected with HIV. The agency is considering a proposal to establish a mandatory look-back program. The proposal would require that blood collection facilities notify the appropriate transfusion facilities as

soon as an infected donor is identified and implement a system of followup to ensure that either recipients are notified or that the physician of record determined that notification was inappropriate or was not possible.

Significance: Regulatory Program

Legal Authority: 21 USC 201; 21 USC 401; 21 USC 402; 21 USC 403; 21 USC 409; 21 USC 701

CFR Citation: 21 CFR 101

Legal Deadline: None

Abstract: The agency issued an advance notice of proposed rulemaking on August 8, 1989, requesting public comment on possible changes in the labeling of food products regulated by FDA. The agency sought public comment on five areas: 1) whether to revise the requirements for nutrition labeling; 2) whether to change the nutrition label format on food packages; 3) whether to revise the requirements for ingredient labeling; (4) whether to formally define commonly used food descriptions and/or reconsider the use of standards of identity for foods; and (5) how to reasonably permit the use of messages on food labels that link food components to the prevention of disease. The agency also held four public hearings (see September 20, 1989; 54 FR 38806) to gather first-hand the views of consumers, industry, health professionals, and State and local government officials about labeling revisions. The agency is developing several proposed rules to implement labeling revisions.

Abstract: Acceptable evidence and information exists to show that a subgroup of asthmatics is at moderate to severe risk for a severe reaction upon exposure to sulfites. The agency's primary tool for handling a situation where population subgroups may be at increased risk from a food ingredient that is safe for most people is to use labeling to inform those persons who need or want to avoid the ingredient. The agency issued a final rule, effective January 7, 1987, that requires that when a sulfiting agent is present in a finished food at 10 parts per million or greater, the sulfiting agent must be declared on the label. In addition, FDA issued a final rule, effective August 8, 1986, prohibiting the use of sulfiting agents on raw fruits and vegetables intended to be served or sold raw to consumers (e.g., in salad bars). On December 10, 1987, FDA announced its tentative conclusion that there is no longer a basis to find that the use of sulfiting agents on "fresh" potatoes served or sold unpackaged to consumers is GRAS. On December 19, 1988, FDA proposed to affirm, with specific limitations, that certain other uses of sulfiting agents are GRAS. On the same date, the agency (cont)

On March 15, 1990 (55 FR 9826), FDA issued a final rule prohibiting the use of sulfiting agents on "fresh" potatoes that are intended to be served or sold unpackaged and unlabeled to the consumer because this use is not generally recognized as safe (GRAS). On this same date, the agency published a notice in the FEDERAL REGISTER (55 FR 9834) requesting data and information concerning the use of sulfiting agents on frozen potato products; this information will aid the agency in evaluating the GRAS status of this use of sulfiting agents.

Abstract: In the FEDERAL REGISTER of November 25, 1986, the agency published a proposed rule that would

provide a mechanism to allow relevant, truthful, and nonmisleading claims about cholesterol and fatty acid on product labeling for consumers. This proposed rule resulted from the medical and consumer interest in the association between dietary fat and cholesterol and the occurrence of coronary heart disease, the leading cause of death and disability in the United States today. The proposed rule would allow industry voluntarily to provide consumers with cholesterol and fatty acid information currently prohibited by regulations by permitting the use of meaningful descriptors of the cholesterol content of foods as established by regulation (e.g., "cholesterol free," "low cholesterol," and "reduced cholesterol"). Additionally, the proposal would allow the use of comparative claims (e.g., 50 percent less cholesterol than our original product), provided quantitative cholesterol content information is supplied.

Abstract: In the Federal Register of June 3, 1986 (51 FR 20204), the Office of Science and Technology Policy (OSTP) issued for public comment a proposed Model Federal Policy for the Protection of Human Research Subjects. This Model Policy is to enhance uniformity in the implementation of a common core of regulations governing research with human subjects. FDA has concurred in the proposed Model Policy to the extent permitted by law. FDA has proposed (53 FR 45678) to amend its regulations to eliminate certain inconsistencies with the proposed Model Policy.

876. ACTION LEVELS FOR ADDED POISONOUS OR DELETERIOUS SUBSTANCES IN FOOD (INCLUDING ANIMAL FEED)

Significance: Agency Priority

Legal Authority: 21 USC 342(a)(1)

CFR Citation: 21 CFR 109; 21 CFR 509

Legal Deadline: None

Abstract: On April 21, 1989 (54 FR 16128), FDA proposed to (1) amend its regulations creating and describing action levels for added poisonous or deleterious substances in food (including animal feed) to make clear that action levels constitute prosecutorial guidance rather than substantive rules, and (2) revoke the provisions for exceptions to action levels in 21 CFR Part 109 (human food) and 21 CFR Part 509 (animal feed) because of a court decision that relied on those regulations in determining that the action levels were substantive rules. Under the proposal, an action level would define a level of contamination at which the agency may regard a food as adulterated. The proposed amendments are intended to make it clear that action levels constitute prosecutorial guidance rather than substantive rules.

Significance: Agency Priority

Legal Authority: PL 100-293

CFR Citation: 21 CFR 399

Legal Deadline: Final, Statutory, October 20, 1988.
Statutory date applies only to issuing guidelines for State licensing of wholesale drug distributors.

Abstract: The Prescription Drug Marketing Act of 1987 (the new law) amends the Federal Food, Drug, and Cosmetic Act to: (1) require State licensing of wholesale distributors of prescription human drugs under Federal guidelines including minimum standards for storage, handling, and recordkeeping; (2) ban the reimportation of prescription human drugs produced in the United States, except when reimported by the manufacturer or for emergency use; (3) ban the sale, trade, or purchase of drug samples; (4) ban trafficking in or counterfeiting of drug coupons; (5) mandate storage, handling, and recordkeeping requirements for drug samples; (6) require practitioners to request drug samples in writing; (7) prohibit, with certain exceptions, the resale of prescription human drugs purchased by hospitals or health care facilities; and (8) set forth criminal and civil penalties for violations of these provisions. The new law requires that the guidelines under (1) above be promulgated as a regulation, through notice and comment rulemaking. It also provides that the prohibition against distribution of prescription drugs by unlicensed wholesalers becomes effective two years (cont)

CFR Citation: 21 CFR 109

Legal Deadline: None

Abstract: On June 1, 1989 (54 FR 23485), FDA proposed to establish a regulatory limit for ceramic food-service pitchers, excluding creamers, that would limit the leaching of lead from the glazes and decorations on the food-contact surface of these pitchers to no more than 0.1 microgram per milliliter (ug/mL) of test solution. FDA also proposed to provide that decorative ceramicware that appears to be suitable for food use will be deemed to be for food use unless it bears a conspicuous, permanent label statement molded or fired onto the ceramic piece that states that the piece is not for food use, or a hole is bored through the possible food-contact surface of the piece. FDA proposed this provision to ensure that decorative pieces are not confused with food-contact ceramicware. Finally, by means of the notice, FDA solicited comments and information on several other matters, including the need to decrease leachable lead from other ceramicware (flatware, cookware, and large and small hollowware other than pitchers) and appropriate measures for achieving any needed decrease.

Abstract: The agency has proposed to amend the regulations concerning blood products to require that each establishment or laboratory, responsible for performing FDA-required tests for hepatitis B surface antigen (HBsAg) and evidence of human immunodeficiency virus (HIV), participate in an approved program to demonstrate proficiency in performing these tests. The proposal is part of an FDA program to provide increased assurance of the quality of laboratory performance.

Abstract: The Food and Drug Administration and the National Institute on Drug Abuse have proposed to revise the conditions for the use of methadone in the maintenance treatment of narcotic addicts. The proposal would allow programs to provide minimum service (interim) maintenance treatment to patients awaiting placement in comprehensive maintenance treatment and require programs to provide counseling on avoidance of human immunodeficiency virus (HIV) transmission. These requirements are being considered in response to the HIV epidemic and are intended to allow more narcotic addicts into treatment more quickly, thereby decreasing the incidence of intravenous drug abuse and the transmission of HIV. Comments on the proposal revealed a large number of differing opinions on both the desirability of adopting interim maintenance standards and on a number of related issues. The agencies believe that is is necessary to improve the current administrative record before a decision regarding any final action based on the proposal. Therefore, FDA and NIDA held a public hearing on February 28, 1990, to solicit additional information.

Abstract: In the Federal Register of October 21, 1988 (53 FR 41561), FDA issued an interim rule effective upon date of publication, with opportunity for public comment, that set forth procedures designed to speed the availability of new therapies to desperately ill patients, while preserving appropriate guarantees for safety and effectiveness. These procedures are intended to facilitate the development, evaluation, and marketing of such products, especially where no satisfactory alternative therapies exist. These procedures reflect the recognition that physicians and patients are generally willing to accept greater risks or side effects from products that treat life-threatening and severely-debilitating illness. These procedures also reflect the recognition that the benefits of the drug need to be evaluated in light of the severity of the disease being treated. The procedures apply to life-threatening or severely-debilitating illnesses. The agency is reviewing the public comments submitted in response to the interim rule and preparing a Federal Register document that will respond to these comments.

887. GRANTS FOR COMMUNITY HEALTH CENTERS

Legal Authority: PL 100-386; PL 95-626; PL 99-280

CFR Citation: 42 CFR 51c

Legal Deadline: None

Abstract: This regulation will amend the existing regulations at 42 CFR 51c, Subpart A-E, to bring them into conformance with amendments to Section 330 of the Public Health Service Act which were enacted in 1986 and 1988. These include extension of the program authorization, addition of capital construction authority, and changes regarding program income and services. PL 99-280 requires that the Secretary consult with the Chief Executive Officer and local officials of a State in publishing Medically Underserved Population designation criteria and in designating or de-designating Medically Underserved Populations. The amendment also requires the Secretary to consult with State organizations representing a majority of Community Health Centers in the State.

Significance: Regulatory Program

Legal Authority: 42 USC 216; 42 USC 294 to 294-1

CFR Citation: 42 CFR 60

Legal Deadline: None

Abstract: This proposed rule would amend existing regulations governing the HEAL program to establish performance standards against which school, lender, and holder default rates would be measured. These standards would provide schools, lenders, and holders a greater incentive to work to maintain low HEAL default rates and, thus, improve the long-term solvency of the Student Loan Insurance Fund.

Legal Authority: 42 USC 216; 42 USC 295g-7

CFR Citation: 42 CFR 57, Subpart S

Legal Deadline: None

Abstract: This proposed rule would amend existing regulations governing section 787 of the PHS Act, by adding statutory changes made by Title VI of Pub. L. 100-607, including: 1) that 10 percent of the amount of funds appropriated during any fiscal year be set aside for community-based programs; 2) that schools not having large enrollments of students from disadvantaged backgrounds increase their enrollments of such students during a period of 3 years by 20 percent over the base year of 1987; and 3) that the amount of grant funds obligated to institutions of higher education be changed from 80 percent to 70 percent. It would also require that an individual complete at least the junior year of high school (or its equivalent) in order to receive educational assistance.

Abstract: The Public Health Service Amendments of 1987, PL 100-177 amends the Public Health Service Act adding a new section at 338B of the Act authorizing the Secretary to establish the NHSC Loan Repayment Program. PL 100-177 also amends the PHS Act by adding a new section 338H authorizing the Secretary to establish a program of matching grants to support state loan repayment programs similar to the Federal Loan Repayment Program. PL 100-177 also establishes a new program which is not part of the PHS Act which provides a time limited opportunity for persons in default of their scholarship obligation as of November 1, 1987 to repay these obligations through service or through a combination of service and monetary payment. The publication of the regulations beyond the statutory date will not have any impact on the funding or implementation of the programs affected by these regulations.

911. REVISION OF INDIAN SELF-DETERMINATION REGULATIONS

Significance: Regulatory Program

Legal Authority: 25 USC 450; PL 100-202; PL 100-446; PL 100-472; PL 100-581

CFR Citation: 42 CFR 36; 48 CFR 380.4; 48 CFR 352.280-4

Legal Deadline: NPRM, Statutory, May 5, 1989. Final, Statutory, August 5, 1989.

Abstract: Public Law 93-638 passed in 1975, requires the IHS to turn over administrative responsibility to tribes so requesting, using the mechanism of contracting. Public Law 93-638 also authorizes the IHS to make grants to tribe(s) for the planning, development, and/or operations of health programs. Public Law 100-472, enacted October 5, 1988, significantly expands the scope of programs covered beyond those administered by IHS. This Act further provided that all contracting requirements be contained in regulations promulgated in final within ten months of enactment. The Law provides for tribal consultation and participation in the development of the regulations.

Additional Information: This is a procurement-related action for which there is a statutory requirement. There is a paperwork burden associated with this action.

l. The Act (P.L. 100-472) provides that except for construction contracts, the Office of Federal Procurement Policy Act and Federal Acquisition Regulations shall not apply to self-determination contracts. Therefore, implementing regulations for the Indian Self-Determination Act amendments will include a subpart on construction contracts, which, unlike other self-determination awards will be made subject to certain procurement rules (e. g., FARS, HSARS, FSARS). 2. There is a statutory requirement to implement P.L. 93-638 regulations. 3. There is a paperwork burden associated with the

action. It will be included with the overall clearance package.

914. ● EXPANSION OF SILETZ CONTRACT HEALTH SERVICE DELIVERY AREA

Legal Authority: 42 USC 2003; 42 USC 13; 42 USC 2001

CFR Citation: 42 CFR 36

Legal Deadline: None

Abstract: 42 CFR Part 36.22 describes the procedure for the establishment of Indian Health Service Contract Health Service Delivery Areas (CHSDAs). This regulation proposes to expand the Siletz Tribe's CHSDA by adding 3 counties, Washington, Multmomah and Clackamas. These three counties would be added to the current eight. After a 60-day comment period, the expanded service area would be effective with the publication of final rules. No additional costs beyond those currently being expended are anticipated.

915. CONTRACT HEALTH SERVICES

Significance: Agency Priority

Legal Authority: 25 USC 13

CFR Citation: 42 CFR 36

Legal Deadline: None

Abstract: While the courts have upheld the IHS alternate resource regulation as consistent with congressional intent and the Federal trust responsibility, the courts have nevertheless allowed State and local governments to adopt their own residuality requirements defeating the purpose of the Federal regulations. We are proposing a clarification to the regulations governing receipt of contract health services from the IHS. Under this proposal, IHS would be specifically designated as payor of last resort for persons defined as eligible for IHS contract health services notwithstanding any State or local law to the contrary. Failure to address this problem could severely drain IHS resources as well as jeopardize the Indian's rights to equal protection and equal access to State and local programs.

Abstract: This proposed rule would implement section 9401 of Pub.L. 99-272, which provides that, under Medicare, a physician must request from the Peer Review Organization (PRO) preadmission review for certain surgical procedures. Under section 9401, if the PRO determines that the procedure is not appropriate and medically necessary, the PRO will deny payment under Medicare. If the PRO cannot determine whether a surgical procedure is medically necessary and appropriate, the beneficiary would obtain an opinion from a second physician, or where the opinion of the second physician differs from the first physician, the beneficiary may obtain an opinion from a third physician. In addition, as required by section 4096(b) of Pub. L.100-203, if an assigned claim by a physician or supplier or any claim by a provider is denied because the services furnished are not reasonable and necessary or constitute custodial care and the physician, suppler or provider, but not the beneficiary, knew, or reasonably could be expected to know, that the services were not covered by Medicare, (cont)

Abstract: This rule proposes to establish optional prospective payment rates for routine services furnished by certain skilled nursing facilities. The prospective rate would be on a per diem basis and would include payment for the cost of furnishing general inpatient routine services and associated capital-related costs. Ancillary services will be paid on the basis of reasonable cost. As specified in the Conference Committee Report accompanying PL 99-272, the rates paid to proprietary SNFs would include a component for the routine service portion of the return on equity capital. As specified in section 1861(v)(1)(B) of the Act, the return on equity component would only be included in the rate paid to proprietary SNFs. This rule would propose instructions for determining eligibility for payment under this system, and the methodology for calculating the prospective payment rates. Freestanding SNFs electing to be paid under this prospective payment system may file a simplified cost report.

Legal Authority: 42 USC 1395bb(a); 42 USC 1395hh; 42 USC 1302

CFR Citation: Not applicable

Legal Deadline: None

Abstract: Under this final notice, hospital-based home health agencies accredited by the Joint Commission on Accreditation for Healthcare Organizations' and home health agencies accredited by the National League for Nursing are considered or "deemed" to meet the Medicare conditions of participation. Thus, these agencies will not ordinarily be subject to an inspection by State survey agencies to determine their compliance with Federal requirements. As a result of the home health agency's deemed status, a State also can choose to permit the agency to participate as a provider under the Medicaid program.

Abstract: This proposed rule would amend the Medicaid regulations to incorporate changes relating to Medicaid eligibility groups and coverage of services made by the Medicare Catastrophic Coverage Act of 1988 (P.L. 100-360), the Omnibus Budget Reconciliation Acts of 1989, 1987, and 1986, (P.L. 101-239, P.L. 100-203 and P.L. 99-509), and the Homeless Eligibility Clarification Act of the Anti-Drug Abuse Act of 1986 (P.L. 99-570). This rule would add eligibility groups of pregnant women, infants and children, and aged and disabled individuals with incomes up to a specified percentage of the Federal poverty line; clarify eligibility of homeless individuals; and add provisions for the presumptive eligibility period for pregnant women who, based on preliminary information, appear to meet income requirements under Medicaid.

Legal Authority: 42 USC 1302; 42 USC 1396p(c)

CFR Citation: 42 CFR 435; 42 CFR 436

Abstract: These regulations would conform the Medicaid regulations to the new section 1917(c) of the Social Security Act, which was entirely revised by section 303(b) of the Medicare Catastrophic Coverage Act of 1988 (P.L. 100-360) as amended by section 608(d)(16)(B) of the Family Support Act (P.L. 100-485) and section 6411(e)(1) of OBRA '89. Section 1917(c) now requires that State Medicaid agencies provide individuals who are

receiving nursing facility services or receiving home and community based services with a period of ineligibility for Medicaid coverage of those services for up to 30 months if these individuals or their spouses made transfers of assets for less than fair market value during a prohibited period. The period of ineligibility applies if the individual or spouse made a transfer of assets for less than fair market value at any time during or after the 30 month period immediately before (1) the date the individual became institutionalized, if he or she was entitled to Medicaid on that date, or (2) if not entitled to Medicaid on that date, the date he or she applied for Medicaid while (cont)

Abstract: This proposed rule would clarify the circumstances under which Medicare carriers are to apply the comparable services limitation in making their determination of a reasonable charge for Medicare Part B services. Under section 1842(b)(3)(B) of the Act, carriers are prohibited from making a determination of a reasonable charge that would be higher than the charge upon which they would base payment to their own policyholders for a comparable service under comparable

circumstances. Currently, there is a great deal of confusion among the carriers as to what constitutes comparable services and comparable circumstances, the result of which is that very few carriers are applying the comparable services limitation in their reasonable charge determination. We would revise the regulations to more clearly state how the comparable services limitation should be implemented by the carriers.

953. SNF/NF ENFORCEMENT OF PROVISIONS: MEDICARE AND MEDICAID

Significance: Agency Priority

Legal Authority: 42 USC 1395aa; 42 USC 1395i-3; PL 100-203, Sec 4202; 42 USC 1396r; PL 100-203, Sec 4212; 42 USC 1395hh; 42 USC 1302

CFR Citation: 42 CFR 488

Legal Deadline: None

Abstract: This proposed rule would implement provisions of the Omnibus Budget Reconciliation Act of 1987 (OBRA '87), Pub. L. 100-203, which govern the process used by HCFA to survey long-term care facilities, and certify that the facilities meet the conditions of participation for the Medicare and Medicaid programs.

Legal Deadline: None

Abstract: Under current rules, individuals who do not pay their Part B premiums will have their coverage terminated after a grace period that allows several months lateness. The grace period for individuals eligible for monthly social security cash payments is different from that of uninsured individuals. This proposed rule would allow a uniform 3-month grace period to treat all individuals identically.

Legal Deadline: None

Abstract: These proposed regulations would interpret section 303(a) of the Medicare Catastrophic Coverage Act of 1988, as amended by section 608(d)(16)(A) of the Family Support Act (P.L. 100-485) and section 6411(e)(3) of OBRA '89. Section 303(a) allocates incomes and resources between a spouse who is institutionalized and the spouse remaining in the community. It also provides special post-eligibility rules for institutionalized individuals who have spouses in the community. The revision would provide the community spouse with more adequate income for meeting living expenses.

Abstract: This is a technical revision to Medicare regulations that will simplify and improve our system for evaluating the performance of fiscal intermediaries and carriers in the administration of the Medicare program. Currently, we evaluate intermediaries using performance criteria and standards issued through an annual notice in the Federal Register. We are clarifying the methodology for establishing these criteria and standards. We are also issuing requirements for the evaluation for carrier performance.

960. PHYSICIAN CERTIFICATION AND PLAN OF CARE REQUIREMENTS AND INSPECTION OF CARE REVIEWS

Legal Authority: 42 USC 1302; 42 USC 1396b(g); 42 USC 1396(a)(30); 42 USC 1396(a)(44)

CFR Citation: 42 CFR 400; 42 CFR 440; 42 CFR 441; 42 CFR 456; 42 CFR 483

Legal Deadline: None

Abstract: This proposed rule would make the requirements for physician certification and development of a plan of care general State plan requirements. States would no longer be required to make quarterly showings that they had determined compliance with those requirements or with utilization review. A quarterly demonstration to the Secretary of an effective program of medical review as demonstrated by a satisfactory utilization control program would be limited to Inspections of Care (IOCs) in participating ICFs/MR and mental hospitals. The IOC team would be required, as part of its review, to ensure compliance with State plan requirements regarding certifications, recertifications, plans of care, and utilization reviews. The team would also be required to ensure compliance with admission review requirements. This rule establishes review criteria specifically for ICFs/MR and mental hospitals that ensure essential client protections and focus on the provision of active treatment.

Abstract: This proposed regulation would set forth the circumstances under which the resources of an organization which owns or controls a health maintenance organization (HMO) would be considered for purposes of determining whether the HMO meets the fiscal soundness and insolvency protection requirements for federal qualification under title XIII of the Public Health Service Act. It also authorizes HMOs, with certain limitations, to fix their rates for specific groups based on the HMO's revenue requirements for providing services to the group.

Abstract: This rule would establish the requirements and options for Medicaid payments to hospitals that serve a disproportionate number of low-income patients with special needs. The Medicaid agency would be required to make payment adjustments to these hospitals when such hospitals have met specified conditions. The rule would also simplify and clarify the rules that apply to these hospitals under the Medicare program, some of which are incorporated by reference in the Medicaid rules.

CFR Citation: 42 CFR 433.123

Legal Deadline: None

Abstract: This proposal would eliminate the requirement that HCFA publish in the Federal Register a proposed notice with opportunity for public comment and then a final notice for any changes in MMIS requirements, performance standards and other conditions for approval and reapproval. Instead we would use well established communication arrangements under which States provide input during the development of revisions, and we would issue revised manual instructions well in advance of implementation changes. This change will increase the efficiency of the administrative process by eliminating lengthy time frames associated with a formal notice and comment procedure thus allowing an expeditious means of developing and communicating changes.

Legal Deadline: None

Abstract: These rules would propose to require States to include in their State plans payment of Medicare cost-sharing for low income Medicare beneficiaries, Qualified Medicare Beneficiaries (QMB). The territories have the option to do the same. We would define cost-sharing, specify criteria for determining QMB status, propose requirements and options for payment amounts and limitations, and provide for Federal financial participation in State payments for Medicare cost-sharing on behalf of QMBs. The changes would implement provisions of the Medicare Catastrophic Coverage Act of 1988 as modified by the Family Support Act of 1988 and the Technical and Miscellaneous Revenue Act of 1988. Abstract: This rule proposes that States establish training and competency evaluation programs that meet Federal requirements for nurse aides employed by Medicare and Medicaid participating nursing facilities, and also have a nurse aide registry. The purpose of these provisions is to ensure that nurse aides have the education, practical knowledge, and skills needed to care for residents of nursing facilities.

Abstract: This rule proposes coverage criteria and payment methodology for the drug Epoetin Alta (EPO). The FDA approved EPO on June 1, 1989. Medicare covers EPO for the treatment of anemia for patients with end-state renal disease (ESRD) or chronic renal failure who are not on dialysis. EPO stimulates the bone marrow to make new red blood cells and prevents the need for blood transfusions.

Abstract: Sections 4201(b)(3) and 4211(b)(3) of the Omnibus Budget Reconciliation Act of 1987 (Pub. L. 100-203) require that in order for an institution to qualify to participate as a skilled nursing facility in the Medicare program, and, before October 1, 1990, as a skilled nursing facility or as an intermediate care facility in the Medicaid program, and effective October 1, 1990, as a nursing facility in the Medicaid program, it must conduct a comprehensive, standardized assessment of each resident's capability to perform daily life functions. The assessment must also describe

significant impairments in the resident's functional capacity and be based on a uniform minimum data set specified by the Secretary. Sections 4201(f)(6)(A) and 4211 (f)(6)(A) of Pub. L. 100-203 require the Secretary to specify a minimum data set of core elements and common definitions for use by nursing facilities in conducting the assessments. Abstract: On October 31, 1988, Pub. L. 100-578 amended section 353 of the Public Health Service Act. The amendments (the Clinical Laboratories Improvement Act of 1988), in section 353(e) of the Public Health Service Act, provided laboratories with the option of meeting Federal certification requirements through accreditations by an approved accrediting body. Laboratories in States that have standards equal to or more stringent that those of section 353 of the Public Health Service Act would also be exempt from Federal standards. A laboratory accredited under an approved laboratory accreditation program or licensed in an approved State licensures program would be deemed to meet Federal certification requirements.

Abstract: This proposed rule would conform existing regulations to sections 5(b), 6(a), and 7 of the Health Maintenance Organization (HMO) Amendments of 1988 (Pub. L. 100-517). Abstract: On October 31, 1989, HCFA Ruling 89-2 announced that 42 CFR 417.532(a)(3) is inconsistent with the interpretation adopted by the Federal courts with respect to HCFA's underlying statutory authority to impose cost limits. Consequently, we are not applying the absolute cost limit contained in the regulation to cost reports submitted by HMOs or CMPs under section 1876(h) of the Social Security Act. This proposed rule would establish cost limit criteria applicable to HMOs and CMPs that would assure

HHS—HCFA **Proposed Rule Stage**

Abstract: These regulations will implement provisions of section 948 of P.L. 96-499 and section 2307 of P.L. 98-369. This legislation deals with certain problems that have arisen in the Medicare program with respect to payment for physicians in the teaching setting. Specifically addressed by Congress is the problem of distinguishing between the services a physician furnishes to individual patients as a teaching physician and services furnished to the provider, as well as the method of payment for these services. This rule sets forth the conditions under which physicians in teaching settings will be paid on a reasonable cost basis or, alternatively, on a reasonable charge basis. It also describes the methods used to determine the customary charges for the services of those physicians. This rule will also clarify related issues of physician payment.

Abstract: This final rule revises the regulations governing the Medicaid eligibility quality control (MEQC) program to include more specified program requirements and to establish new time frames for completing and reporting MEQC case findings to HCFA. The final rule also establishes a performance-based threshold for States to meet before HCFA will consider good faith waiver requests of disallowance of Federal financial participation in erroneous Medicaid payments and provides more definitive criteria for evaluating States' good faith efforts to meet the national standard error rate. In addition, the rule makes several technical changes and specifies that States may rebut their quarterly projected error rates when they can present evidence that the projected rates were based on erroneous data. The revisions will strengthen the MEQC program and provide flexibility and incentives to States to produce more accurate Medicaid eligibility determinations.

Abstract: Currently, hospital-based and independent laboratories are subject to varying State Licensure requirements and to Medicare regulations that vary from requirements of private accreditation entities and from regulations governing laboratories performing tests under interstate commerce. One consequence is that the quality of laboratories' services is adjudged using different standards. Inconsistent standards not only create confusion regarding necessary performance levels, but may permit laboratories with substandard performance to continue furnishing covered services. This rule will amend the requirements to improve the quality of laboratory services. It will provide recognition of new technologies in laboratory quality assurance, and refine outcome measures of performance. Also, this rule will provide consistent criteria for an effective proficiency testing program for Medicare, Medicaid, and CLIA laboratories.

Abstract: This final rule will require Medicare participating hospitals with emergency departments to provide upon request medical examinations and treatments for individuals with emergency medical conditions and women in active labor. Further, a participating hospital that has specialized capabilities or facilities (such as burn, shock trauma, or neonatal intensive care units) must accept appropriate transfer if they have the capacity to treat the individual. Hospitals failing to meet those requirements may have their Medicare provider agreements terminated. In addition, the hospital and the responsible physician may each be subject to a civil money penalty for each such violation. Under section 9122, Medicare participating hospitals are required to accept CHAMPUS and CHAMPVA payment as payment in full for services provided to CHAMPUS and CHAMPVA beneficiaries. These regulations will also implement section 233 of PL 99-576, which requires Medicare hospitals to give patients a notice of their discharge rights.

Abstract: This final rule amends the Medicaid regulations to specify for Medicaid, mandatory categorically needy eligibility for individuals who, although severely impaired, work and demonstrate ability to perform substantial gainful activity and who are considered to be Supplemental Security Income (SSI) beneficiaries by virtue of Section 1619 of the Social Security Act. It also specifies how States electing the option under Section 1902(f) of the Social Security Act to provide Medicaid under criteria more restrictive than SSI, will treat the "1619" individuals. It also specifies how SSI payments made to certain institutionalized individuals are to be disregarded as income under Medicaid for up to two months. The amendments conform the regulations to provisions of the Omnibus Budget Reconciliation Act of 1986 and the Employment Opportunities for Disabled Americans Act.

Abstract: The purpose of this final rule is to implement section 9403 of PL 99-272, 9353(c) of PL 99-509,and section 4096(a)(1)(A) of PL 100-203. Under section 9403 of PL 99-272, Peer Review Organizations (PROs) are authorized to deny Medicare payment to a physician or hospital for services furnished that are of substandard quality. The PRO determinations to deny Medicare payment for these services will be made on the basis of criteria that are consistent with guidelines established by the Secretary. Under section 9353(c) of PL 99-509, PROs will conduct an appropriate review of all written complaints from beneficiaries or their representatives about the quality of services not meeting professionally recognized standards of health care. Under PL 100-203 beneficiaries are protected from liability for the cost of physician services where payment is denied because services were of substandard quality.

Abstract: This rule will amend the Medicaid regulations to incorporate numerous eligibility groups for Medicaid coverage: pregnant women; children in adoption and foster care; certain disabled widows and widowers; certain disabled children being cared for at home; and qualified children. The rule will also provide for extended care for pregnant women after termination of pregnancy and add a condition of eligibility relating to third party liability. The amendments will conform the regulations to provisions of the Omnibus Budget Reconciliation Act of 1987, the Consolidated Omnibus Budget Reconciliation Act of 1985, and the Tax Equity and Fiscal Responsibility Act of 1982. States have been informed that these provisions of the statute are self-implementing. Manual instructions containing procedures for States to implement the requirements have been issued.

Legal Deadline: None

Abstract: Section 9320 of Pub. L. 99-509 provides for payment on a fee schedule basis for services of certified registered nurse anesthetists (CRNAs) furnished to Medicare beneficiaries on or after January 1, 1989. The payment amount will be equal to the least of 80 percent of a fee schedule established by the Secretary (and adjusted annually by the change in the Medicare economic index), 80 percent of the prevailing charge for an anesthesiologist; or 80 percent of the actual charge. CRNAs will be required to accept assignment for all Medicare services and civil monetary penalties could be imposed for violations of this requirement. Alternatively, the hospital or physician could bill for and receive payment for services of CRNAs where an

employment relationship or contract so stipulates. The hospital or physician could not bill more for CRNA services than the amount the CRNA could bill directly.

Abstract: The final rule will describe the conditions under which a Health Insuring Organization (HIO) is subject to certain Medicaid Health Maintenance Organization (HMO) regulations. It would require that an HIO which becomes operational on or after January 1, 1986 and arranges for the delivery of services to recipients be subject to HMO requirements. The regulations would specify that exemptions from certain HMO requirements are permitted for HIOs which began operations on or after January 1, 1986 if the HIOs obtained a section 1915(b) waiver prior to that date, or if an HIO is otherwise identified in the law. The exemptions which are based on section 1915(b) waivers last only until the expiration of the waiver.

Abstract: This rule, issued jointly by HCFA and OIG, will prohibit Medicare payment for nonphysician services furnished to a hospital outpatient by a provider or supplier other than the hospital, unless the services are furnished under an arrangement with the hospital. The hospital will be obligated by its provider agreement to furnish the services directly or under an arrangement. These regulations also authorize OIG to impose a civil money penalty, not to exceed $2,000, against any individual who knowingly and willfully presents, or causes to be presented, a bill or request for payment for a hospital outpatient service under Part B of Medicare in violation of an arrangement. These regulations will implement sections 9343(c)(1), (c)(2), and (c)(3), of the Omnibus Budget Reconciliation Act of 1986.

Regulation must be promulgated containing methodology. Section 1915(d)(5)(B)(iii)

Abstract: This regulation will implement section 1915(d) of the Act. These rules would allow a State to provide skilled nursing facility (SNF), intermediate care facility (ICF), and home and community-based services to individuals 65 years of age and older, in exchange for a "cap" on the amount of money for which Medicaid Federal financial participation would be available. The program would be administered by means of waivers which a State could request. As currently constructed, the statute allows for waivers of statewideness, comparability, and income deeming. Home and community-based services could be made available to individuals age 65 or older who are shown by an evaluation to be likely to require the level of care provided in an SNF or ICF, the cost for which could be paid by Medicaid. For States electing this option, the waiver would replace the home and community-based services waivers available under section 1915(c) of the Act, for individuals in this age category.

Legal Deadline: NPRM, Statutory, August 1, 1988.

Abstract: As a result of provisions included in section 4049 of PL 100-203, we are setting forth a fee schedule for radiology services furnished by a board-certified or board eligible radiologist or by a physician whose charges for radiology services account for 50 percent or more of his or her total Medicare charges. These physicians will be paid at 80 percent of the lower of the actual charges or the appropriate fee schedule amount. The fee schedule amount for a nonparticipating physician will be 95 percent of the amount applicable to a participating physician. In addition, a nonparticipating physician's charges to beneficiaries will be capped. The proposed fee schedule will result in overall payment to physicians for radiology of 3 percent less than would have occurred without a fee schedule. The fee schedule will be updated annually in accordance with the annual increase in the Medicare Economic Index.

Under section 4048(b) of PL 100-203 the relative value guide is to be used for physician anesthesia services furnished on or after 01/01/89.

Abstract: This final rule will establish a relative value guide for use in all carrier localities in making payment for anesthesia services furnished by physicians under Medicare Part B. This rule will implement section 4048(b) of PL 100-203. The proposed relative value guide is designed to ensure that payments using the guide do not exceed the amount that would have been made under the current payment system. Although the statute requires that the uniform relative value guide be effective for services furnished on or after January 1, 1989, we are delaying the effective date until March 1, 1989.

Final Rule Stage

Abstract: This final rule with comment period implements section 6203(b) of the Omnibus Budget Reconciliation Act of 1989 (Pub. L.101- 239), which limits the Medicare payment for home dialysis equipment and supplies furnished under method II (the method by which patients deal directly with a supplier). It requires that, for Medicare payments to be made to a supplier of home dialysis supplies and equipment when the patient's self-care home dialysis is not under the direct supervision of a Medicare approved renal dialysis facility, the patient must certify that the supplier is the sole supplier of his or her dialysis supplies and equipment. In addition, the supplier must agree to receive payment on an assignment basis only and must certify that it has entered into a written agreement with an approved dialysis facility under which the facility agrees to furnish the patient with all home dialysis services and all other necessary dialysis supplies and services.

Abstract: This notice proposes to revise Medicare operating guidelines on "prosthetic devices" to delete from the listing of covered services, corrective eyeglasses for ophakic patients with intraocular or contact lenses, and contact lenses used in lieu of eyeglasses in combination with intraocular lenses. Available evidence shows that corrective eyeglasses and lenses provide the same retroactive benefit for aphakic individuals who have prosthetic intraocular lenses or contact lenses as they do for monapahakic individuals for whom corrective eyeglasses are not covered under Medicare. We are proposing to provide a uniform Medicare policy concerning the exclusion of eyeglasses from coverage.

CFR Citation: 42 CFR 413

Legal Deadline: None

Abstract: This rule implements those portions of Pub. L. 101-239 that take effect on April 1, 1990 and concern eligibility and payment methodology for sole community hospitals, adjustments for disproportionate share hospitals, payments to Medicare- dependent rural hospitals, application of the wage index for rural counties whose hospitals are deemed urban and the target rate adjustments for excluded hospitals and units. In addition, this rule establishes reasonable cost payments for administering blood clotting factors to hemophiliacs who are hospital inpatients effective on or after June 19, 1990. This rule also includes changes concerning outlier thresholds and adjustments to the target rates which were in effect during 1989 as added by Pub. L. 100-360 and eliminated by Pub. L. 101-234.

Abstract: This NPRM rule, which implements section 20 of the Child Support Enforcement Amendments of 1984 (Pub. L. 98-378) specifies that in any case where the collection or increased collection of support under title IV-D of the Social Security Act contributes wholly or partly to a family's ineligibility for AFDC, the family is deemed, but only for the purpose of Medicaid eligibility, to be receiving AFDC for a period of four calendar months after the last month of AFDC eligibility. This applies only to families who receive AFDC in three of the six months immediately preceding the month of ineligibility. "Received" includes those individuals denied an AFDC payment solely because the payment amount is under $10, the recoupment of overpayment, or because the payment is determined to be zero as a result of rounding.

1094. EXCLUSION OF INDIAN TRUST FUNDS AND ALASKA NATIVE CLAIMS SETTLEMENT ACT DISTRIBUTIONS

Significance: Regulatory Program

Legal Authority: PL 97-458, Sec 4; PL 98-64, Sec 2; PL 100-241, Sec 15

CFR Citation: 45 CFR 233.20(a)(4)(ii)(n); 45 CFR 233.20(a)(4)(ii)(o); 45 CFR 233.20(a)(4)(ii)(e); 45 CFR 233.20(a)(4)(ii)(k)

Legal Deadline: None

Abstract: Would update current regulations by adding statutory exclusions for certain per capita distributions of Indian judgment funds and other funds held in trust by the Department of Interior, and initial purchases made with such funds. Additionally, would exclude the following types of distributions received from a Native Corporation pursuant to the Alaska Native Claims Settlement Act. (1) Cash to the extent that it does not in the aggregate, exceed $2,000 per individual per annum; (2) Stocks; (3) A partnership interest; (4) Land or an interest in land; and (5) An interest in a settlement trust. Regulations would reflect the statutes; therefore, no alternatives are being considered. We estimate that the Federal share of the cost of the trust funds exclusions required under PL 97-458 and PL 98-64 would be $696,960 per year, the Federal share of the cost of the Alaska Native Claims Settlement Act exclusions required under PL 100-241 would be $1,878,108 per year. Therefore, the annual result would be a cost of $2,575,068.

Abstract: These rules make revisions to the regulations designed to incorporate changes made by Section 9101 of PL 99-509, which amended Section 1137 of the Social Security Act to allow States flexibility in targeting uses of data through the Income and Eligibility Verification System. States will not be required to verify and act on all data. This changes earlier regulations which required 100% verification and allows the States the option to target their uses to those identified in the State Plan as most likely to be productive.

Docket No. N-90-3023; FR-2787

Semiannual Agenda of Regulations

AGENCY: Department of Housing and Urban Development.

ACTION: Semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, of regulations expected to be issued and under review.

SUMMARY: In accordance with section 5 of Executive Order 12291 "Federal Regulation," the Department is publishing its agenda of proposed regulations already issued or expected to be issued and of currently effective rules that are under review. Also, under section 602 of the Regulatory Flexibility Act, the Department has prepared a regulatory flexibility agenda of regulations expected to be proposed or promulgated, which are likely to have a significant economic impact on a substantial number of small entities. As permitted by Executive Order 12291 and the Regulatory Flexibility Act, the two agendas are combined for publication.

FOR FURTHER INFORMATION CONTACT: Grady J. Norris, Assistant General Counsel for Regulations, Department of Housing and Urban Development, Room 10276, 451 Seventh Street SW., Washington, DC 20410, (202) 755-7055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation," issued on February 17, 1981 (46 FR 13193), requires each agency to publish semiannually an agenda of regulations that the agency has issued or expects to issue and of currently effective regulations that are under agency review.

The Regulatory Flexibility Act, 5 U.S.C. 601-612, requires each agency to publish semiannually a regulatory flexibility agenda of rules expected to be proposed or promulgated, which are likely to have a significant economic impact on a substantial number of "small entities," meaning small businesses, small organizations, or small governmental jurisdictions.

Executive Order 12291 and section 605 of the Regulatory Flexibility Act each permit incorporation of the agenda it requires with any other prescribed agenda. Accordingly, the agenda set out below combines the information required by the Executive order and by the Regulatory Flexibility Act. In addition, the agenda contains certain information not required by either the Executive order or by the Act, which the Department considers useful, both better to inform the public and to enhance the Department's own inventory control over its body of regulations.

For purposes of Executive Order 12291, "regulation" or "rule" is defined as "an agency statement of general applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the procedure or practice requirements of an agency," subject to certain exceptions. The agenda published below concentrates upon regulatory material contained or expected to be contained in the Code of Federal Regulations (CFR) (or incorporated therein by reference) following publication in the **Federal Register**. As appropriate, however, issuances in the nature of general statements of policy may be published in the **Federal Register** but not for codification in the CFR.

The Department also is subject to certain requirements involving congressional review of rulemaking actions, including publication of an agenda. Section 7(o) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)) requires that the Secretary transmit to the congressional committees having jurisdictional oversight (the Senate Committee on Banking, Housing and Urban Affairs and the House Committee on Banking, Housing and Urban Affairs) a semiannual agenda of all rules or regulations which are under development or review by the Department. A rule appearing on the agenda cannot be published for comment before or during the first 15 calendar days after transmittal of the agenda. If, within that period, either committee notifies the Secretary that it intends to review any rule or regulation which appears on the agenda, the Secretary must submit to both committees a copy of the rule or regulation, in the form it is intended to be proposed, at least 15 calendar days before it is published for comment. The semiannual agenda published today is the agenda transmitted to the committees in compliance with the foregoing requirement.

The agenda items are divided first by program office. Within each program office, the agenda items are divided into four groups: (i) Prerulemaking actions, (ii) publication or other implementations of notices of proposed rulemaking, (iii) publications or other implementations of final rules, and (iv) completed actions. Within each grouping, rules are listed in chronological order by the part number of the CFR affected. Where a rule affects multiple parts of the CFR, the rule is listed by the first affected part number. Priority rules include all regulations designated for priority development by the Department.

Items listed in this agenda are from the following Offices within the Department: Office of the Secretary; Office of Housing; Office of Public and Indian Housing; Office of Community Planning and Development; Office of Fair Housing and Equal Opportunity; and Office of Administration.

Dated: February 20, 1990.

Frank Keating,

General Counsel.

Legal Authority: 42 USC 11411

CFR Citation: 00 CFR 000

Legal Deadline: None

Abstract: This regulation would describe the criteria HUD uses to determine whether unutilized or underutilized Federal properties, described by other agencies in HUD-conducted surveys, are suitable for facilities to assist the homeless. This determination is the responsibility of HUD under the procedures in Section 501 of the McKinney Act for the identification and use of unutilized and underutilized Federal property for facilities to assist the homeless. The regulation will be incorporated in an interagency rule, which will include all procedures under Section 501 for HUD, HHS, and GSA.

Significance: Regulatory Program

Legal Authority: Not yet determined

CFR Citation: 00 CFR 000

Legal Deadline: None

Abstract: This rule would require any person making an expenditure to influence a departmental decision with respect to the award of any financial assistance or management action that changes the terms and conditions or status of the financial assistance to keep records of, and in some cases report, such expenditures. It would also require each person receiving payment or consideration to influence a departmental decision to register with the Secretary. The rule would provide for civil money penalties.

Significance: Regulatory Program

Legal Authority: Not yet determined

CFR Citation: 00 CFR 000

Legal Deadline: None

Abstract: This rule would require the Secretary to publish in the FEDERAL REGISTER a notice of the availability of any assistance under any HUD program or discretionary fund. It also would require HUD to publish at least quarterly all of its funding decisions, and at least annually the "fair share" formula allocations under section 213(d)(1) of the Housing and Community Development Act of 1974. The rule also requires disclosure of certain information with respect to an application for assistance for a project submitted to HUD or to a State or unit of general local government by any applicant that has received, or can reasonably be expected to receive, assistance in excess of $200,000 (or a lower amount which may be set in this rule in any fiscal year).

CFR Citation: 24 CFR 56; 24 CFR 207; 24 CFR 232; 24 CFR 234; 24 CFR 238; 24 CFR 241; 24 CFR 242; 24 CFR 244; 24 CFR 250; 24 CFR 511; 24 CFR 570; 24 CFR 884; 24 CFR 904; 24 CFR 905

Legal Deadline: None

Abstract: This rule would implement HUD's responsibilities under the Flood Disaster Protection Act of 1973. It would add a new Part 56 to specify HUD's responsibilities to require that flood insurance be obtained for eligible properties. This part would then be cross-referenced in the rules governing programs involving insurance, loans and grants. This rule would do the following: (1) authorize certain exemptions for the first time; (2) clarify the statutory limitation on the conduct of HUD programs; (3) describe implementation actions to be taken by the approving official and the affected property owner; and (4) correct or remove from Title 24 outdated or inadequate references pertaining to this statutory responsibility.

Significance: Regulatory Program

Legal Authority: Not yet determined

CFR Citation: 24 CFR 90

Legal Deadline: None

Abstract: The Department published a final rule on November 3, 1989 (54 FR 46566) for the CHAP program as required by the McKinney Act of 1988. This follow-up proposed rule would refine and expand the information required to be provided in the Comprehensive Homeless Assistance Plans, in an effort to eliminate homelessness.

Significance: Regulatory Program

Legal Authority: 42 USC 1439

CFR Citation: 24 CFR 791

Legal Deadline: None

Abstract: The rule updates and revises HUD's regulations for the allocation of housing assistance funds to reflect statutory changes by the Housing and Urban-Rural Recovery Act of 1983 and the Department of Housing and Urban Development Reform Act of 1989. It contains an explicit description of the allocation formula, including the factors making up the allocation formula and consolidates local government submission requirements and HUD criteria for review of applications for housing. The rule tightens procedures and generally limits headquarters funding. The rule makes clear that HUD housing assistance programs are subject to formula allocations with funding competitions pursuant to published competitive selection criteria.

Legal Deadline: None

Abstract: This rule will implement section 214 of the Housing and Community Development Act of 1980, as amended in 1981, 1986, and 1988. That Act prohibits the Secretary from providing financial assistance to substantially all illegal aliens as well as to most classes of aliens admitted for temporary purposes. The restriction applies to the Public and Indian Housing programs, the Section 8 Housing Assistance Payments programs, the Rent Supplement program, the Section 236 program, and the Section 235 homeownership assistance program.

This rule will replace the rule published on April 1, 1986, which was not made

effective, but has been withdrawn. This new rule will provide that alien status must be verified with the Immigration and Naturalization Service by the entity responsible for tenant selection (or for approval of a Section 235 mortgage application).

Abstract: This rule will complete the action necessary to implement section 201(a) of the Immigration Reform and Control Act (IRCA) of 1986 (100 Stat. 3394, 3401) for HUD programs. That Act authorized the Attorney General to identify the programs of Federal financial assistance to which the temporary disqualification of certain newly legalized aliens applies. The Attorney General issued a proposed rule in 1987 (52 FR 31784) listing numerous HUD programs. The Attorney General's revised rule on this subject was published on July 12, 1989 (54 FR 29434), eliminating a few of the HUD programs previously listed--including all of the assisted housing programs covered by another pending HUD rule (FR-2383).

Legal Deadline: Other, Statutory, September 30, 1989.
Section 904 statutorily takes effect on September 30, 1989 (although there is an early implementation option in the statute).

Abstract: The regulation implementing section 904 of the McKinney Amendments would require applicants and participants in certain HUD programs to sign consent forms permitting (1) HUD, PHA or owners responsible for determining eligibility for or level of benefits to verify employee income information with previous or current employers, and (2) HUD or the PHA to request wage and claim information from a State unemployment agency. Signing the consent from would be a condition of eligibility or continuing eligibility for the covered program. The rule would provide limitations on the collection, maintenance, use, and dissemination of wage and claim information obtained from a State unemployment agency. Criminal and civil penalties are also specified.

Legal Authority: 12 USC 1710

CFR Citation: 00 CFR 000

Legal Deadline: None

Abstract: Section 1064 of the Stewart N. McKinney Homeless Assistance Amendments Act of 1988 authorizes HUD to add pre-foreclosure sales to its roster of servicing options, as a means of saving the Department money and of assisting qualified mortgagors to avoid foreclosure of their FHA-insured mortgages. The Department may now pay a claim to a mortgagee to "bridge the gap" between the proceeds of a sale of the property to a third party buyer at current fair market value, and the original owner's indebtedness under the note. Until the Department received the authorization to pay these claims, such pre-foreclosure sales (or "short sales," as they are also known) were

impracticable. At this time, implementing regulations are being planned to introduce the pre-foreclosure sale option throughout the Department.

1141. REVISED UNDERWRITING AND LOAN ORIGINATION REQUIREMENTS FOR TITLE I LOANS (H-5-89; FR-2623)

Legal Authority: 12 USC 1703

CFR Citation: 24 CFR 201

Legal Deadline: None

Abstract: This rule would amend the Title I regulations to require that: (1) the lender shall conduct a personal or telephone interview with the borrower to ascertain the accuracy and completeness of the credit application; (2) all manufactured homes insured under Title I shall comply with federally prescribed site installation requirements; (3) the lender or its agent shall conduct a post- disbursement site inspection of the manufactured home to

detect any program fraud or misrepresentation by the dealer or the borrower; (4) the use of manufactured home loan proceeds to finance the purchase of wheels and axles and extended warranty coverage is eliminated; and (5) the lender shall give the borrower written notice of the actions HUD may take to recover the debt if a claim is paid, including the assessment of administrative costs for servicing the loan. In addition, this rule would revise the present procedures for the annual adjustment of each lender's insurance reserve account.

1142. DEADLINE FOR FILING SINGLE FAMILY SUPPLEMENTAL CLAIMS (H-26-88; FR-2487)

Legal Authority: 12 USC 1710

CFR Citation: 24 CFR 203.400

Legal Deadline: None

Abstract: At present, there is no regulatory control over the time period during which mortgagees can submit applications for supplemental insurance benefits. The Department has instructed lenders to file these supplemental claims within one year of the date of the original insurance settlement. This information has so far been contained in the Instructions for Single Family Application for Insurance Benefits, Form HUD-27011. This rule will formalize the requirement that lenders follow this one-year filing period for supplemental claims.

1148. LIMITATION ON PREPAYMENT OF MORTGAGES ON MULTIFAMILY RENTAL HOUSING (H-54-84; FR-1952)

Significance: Regulatory Program

Legal Authority: 12 USC 1715z-15; PL 100-242, Sec 261

Legal Deadline: None

Abstract: This rule would codify HUD policies for implementing section 250(a) and (b) of the National Housing Act, as added by section 433 of the Housing and Urban-Rural Recovery Act of 1983 and amended by section 261 of the Housing and Community Development Act of 1987. This rule would restrict prepayment of multifamily project mortgages whenever Secretary has prepayment approval responsibilities. Prepayment will not be approved unless project is no longer needed for lower income housing, tenants have been given notice and opportunity to comment, and a relocation assistance plan has been put in place. Similar restrictions will apply to termination of insurance. Where the Secretary is not responsible for approving prepayment and therefore cannot restrict it, priority will be given for additional section 8 and troubled project assistance in order to discourage prepayment. Additional requirements imposed on the prepayment of multifamily project mortgages by Title II, Subtitle B of the Housing and Community Development Act of 1987 have been implemented by separate rulemaking (FR-2450; H-10-88; RIN: 2502-AE34).

Legal Authority: Not yet determined

CFR Citation: 24 CFR 210

Legal Deadline: None

Abstract: This proposed rule will modify the existing procedures governing the Form 2530 review process. The primary change involves expanding the ability of the Participation Review Committee to deny approval for principals who are experiencing financial default, assignments or foreclosure. The current procedures require that the Committee must obtain evidence that any defaults are attributable to mismanagement on the part of the principal. We are now proposing that the Committee have the ability to deny approval with or without such evidence. We are also proposing other changes to the procedures involving hearing rights and the types of principals which will require Form 2530 procedures.

Abstract: This proposed rule would amend HUD regulations to implement section 181 of the Housing and Community Development Act of 1987 and section 1010 of the Stewart B. McKinney Homeless Assistance Amendments of 1988. Section 181 expanded the scope of section 203 of the Housing and Community Development Amendments of 1978 to include projects that are subject to a HUD-held mortgage and are delinquent, under a workout agreement, or being foreclosed upon by HUD. HUD, when it is owner or mortgagee-in-possession, and the owner in other situations now covered by section 203 must, to the greatest extent possible, maintain all such occupied projects in decent, safe, and sanitary condition and maintain full occupancy and must also maintain all such projects for purposes of providing rental or cooperative housing for the longest feasible time. The statute directs HUD to provide not less than one of several specified forms of financial assistance to a purchaser other than HUD at foreclosure, or after sale by the Secretary. Section 1010

further amended section 203 to clarify which units in HUD-held unsubsidized projects (cont)

Significance: Regulatory Program

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 888

Legal Deadline: Other, Statutory, June 13, 1990.
Sec. 801 requires HUD to issue regs in 180 days from date of enactment. HUD plans to publish a proposed rule in 3/90 and an interim rule by the stat. deadline, to allow more comment time.

Abstract: This rule will establish policy and procedure for conducting comparability studies where the Secretary has reason to believe that application of the Automatic Annual Adjustment Factor for an area would result in material differences between rents charged in HUD projects and in unassisted projects of similar quality and age in the same market area. Sec. 8(c)(2)(A) of the U.S. Housing Act of 1937 requires that assistance contracts for sec. 8 assisted housing provide for adjustments at least annually in maximum monthly rents to reflect changes in fair market rentals in an area, or on basis of a reasonable formula. Sec. 8(c)(2)(C) further provides that the adjustments not result in a material difference in rents charged for assisted or unassisted housing.

Legal Authority: PL 100-242, Sec 183

CFR Citation: 00 CFR 000

Legal Deadline: None

Abstract: This rule provides for the applicability of the tenant participation requirements of section 202 of the HCDA of 1978 to section 202 elderly and handicapped projects. The rule also removes the Secretary's authority not to provide for tenant participation in certain owner actions and authorizes the application of the tenant participation requirements in the Secretary's proposal to sell a multifamily housing project.

Significance: Agency Priority

Legal Authority: 42 USC 1437f

CFR Citation: 00 CFR 000

Legal Deadline: None

Abstract: Section 148 of the Housing and Community Development Act of 1987 amended section 8(d)(2) of the United States Housing Act of 1937 to require the Department to permit a PHA to attach not more than 15 percent of the section 8 Existing Housing Program assistance to existing structures if the owner agrees to rehabilitate the structure other than with assistance under the 1937 Act. Section 1005 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 requires the Department to permit PHA's to attach assistance, within the same 15 percent limit, to newly constructed units. This rule would implement these provisions by revising Subpart G to 24 CFR Part 882 for project-based certification.

Significance: Agency Priority

Legal Authority: 12 USC 1709, Sec 203, 211; 12 USC 1715b; 42 USC 3535(d)

CFR Citation: 24 CFR 203

Legal Deadline: None

Abstract: This rule revises the existing administrative criteria for acceptability of insured 10-year protection Plans (Plans). The Department began this proceeding by publishing a Notice informing the public that HUD intended to revise the criteria. This rule describes, among other things, criteria related to Plan acceptability, and Plan coverage.

HUD acceptance of these Plans is a prerequisite to reduced inspection requirements on a property accepted for mortgage insurance before the commencement of construction. It is also a prerequisite to high loan-to-value insured financing for existing one-to-four family dwellings that are less than one year old and that were not approved and inspected by HUD or the Veterans Administration before the start of construction.

Abstract: This rule would implement section 406 of the Housing & Community Development Act of 1987 as amended by section 143 of the Department of HUD Reform Act of 1989. Section 406 authorizes HUD (1) to insure single family mortgages under title II of the National Housing Act, or (2) to approve a substitute mortgagor for single family mortgages insured under title II, only if the mortgagor is to occupy the dwelling as a principal or secondary residence, as determined by HUD. The section exempts from the occupancy requirement, mortgagors under the Rehabilitation Loan program under section 203(k) of the National Housing Act, and certain public entity, nonprofit, serviceperson, and other mortgagors under certain National Housing Act sections.

Abstract: This rule proposes to implement section 407 of the Housing and Community Development Act of 1987. That section provides that where, as a result of an annual review, the Secretary finds a mortgagee with a higher than normal default and claim rate, the Secretary shall require the mortgagee to submit a report with a plan for corrective action. Failure to submit the report or complete the plan for corrective action within the timeframe required may be cause for suspension of the mortgagee from participation in FHA programs.

Legal Authority: 12 USC 1715b

CFR Citation: 24 CFR 203; 24 CFR 204

Legal Deadline: None

Abstract: This final rule removes from the Code of Federal Regulations language concerning the Temporary Mortgage Assistance Payments (TMAP) program that has never been made effective. Since the Code now contains two sets of provisions pertaining to assistance to homeowners in default on FHA-insured mortgages that bear overlapping section numbers, this rule is needed to remove the TMAP provisions and to make technical changes in the provisions governing under section 230(b) of the National Housing Act. Among the technical changes is a requirement that a mortgagee inform a mortgagor of the possible right to assignment before it accepts a deed in lieu of foreclosure from the mortgagor.

Abstract: This rule would require owners of certain multifamily subsidized projects to automate the information and transmission of HUD forms and worksheets for certification and recertification of compliance with HUD's tenant eligibility and rent procedures, and the computation of tenant rent/payment and the monthly subsidy billing forms, as applicable. This rule would apply to multifamily projects under the following program: section 236 rental assistance payments, section 8 housing assistance payments, section 221(d)(5), below market interest rate housing for low and moderate income mortgage insurance, and section 101 rent supplements.

Legal Deadline: None

Abstract: The regulation implements provisions of the Housing and Community Development Act of 1987 that provide that mortgages on "eligible low-income housing" may be prepaid only in accordance with a "plan of action" approved by the Secretary. The regulation establishes procedures for the submission and negotiation of such plans of action, lists incentives which may be part of the plan of action, and provides standards which the plans of action must meet. The regulation is designed to preserve needed low income housing in cases where the project owner might otherwise prepay its mortgage and convert the project to higher-income use.

The final rule implements applicable amendments to Title II made by the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 and the Department of HUD Reform Act of 1989. Any amendments to Title II made by the HUD Reform Act of 1989 that necessitate public comment before implementation through rulemaking will be implemented through a new proposed or interim rule.

Abstract: This revision would implement amendments to the State administered CDBG program made in the Housing and Urban-Rural Recovery Act (Pub. L. 98-181) approved November 30, 1983, and the Housing and Community Development Act of 1987 (Pub. L. 100-242) approved February 5, 1988. The rule includes definitions of low and moderate income person levels, requirements for meeting the three national objectives, the 60% test for low and moderate income benefit, added local and state public participation, coverage of program income, performance reporting and record keeping, and consequences of States' dropping program administration after FY 85 as well as other program policy requirements.

1199. MISCELLANEOUS REVISIONS OF PART 570 - 1987 HCD ACT (CPD-5-88; FR-2496)

Legal Authority: PL 100-242

HUD—CPD **Proposed Rule Stage**

CFR Citation: 24 CFR 570

Legal Deadline: None

Abstract: The proposed rule would revise the Community Development Block Grant Program rules (24 CFR Part 570) for the entitlement and HUD-administered small cities programs, as necessary to implement certain changes in the Housing and Community Development Act of 1987 (Pub. L. 100-242, approved Feb. 5, 1988), and the Department of Housing and Urban Development - Independent Agencies Appropriations Act, 1989 (Pub. L. 100-404, approved Aug. 19, 1988). The requirements for States will be covered in the State proposed rules.

The proposed rule would address:

1. The new requirements for a citizens participation plan;

2. The circumstances under which a grant recipient may newly construct, or substantially reconstruct, housing where it is clear that such work is needed before the CDBG activity commences; (cont)

Significance: Agency Priority

Legal Authority: Not yet determined

CFR Citation: 24 CFR 570

Legal Deadline: None

Abstract: Section 702 of the Department of Housing and Urban Development Reform Act of 1989 moves the CDBG funding of Indian Tribes from the Secretary's Discretionary Fund to a set aside of up to one percent from amounts appropriated for the CDBG Entitlement of a competitive process for the distribution of funds for Tribes, and requires the Secretary to administrator grants to Indian Tribes through the Office of Indian and Alaska Native Programs. This rule would make the regulatory revisions necessary to implement sec. 702.

The 1987 Amendments to the Uniform Act become effective April 2, 1989.

Abstract: The 1987 Amendments to the Uniform Relocation Act (P.L. 100-17) make numerous changes to the Uniform Act. Among the changes is the expansion of coverage to displacement resulting from rehabilitation, demolition or privately undertaken acquisition carried out for a federally assisted project or program. For HUD-assisted community development and housing programs, the expanded coverage will apply to displacements occurring on or after April 2, 1989. The amendments will contain the necessary conforming changes to HUD programs consistent with the final governmentwide rule implementing the 1987 Amendments to the Uniform Act. Abstract: Amendment to the existing regulation on public housing operating subsidy (PFS regulation) to provide greater incentive for PHAs to achieve and maintain full occupancies of their public housing units, in accordance with their existing obligations under their Annual Contributions Contracts. Effective in 1991, the rule would substitute 98 percent for the present 97 percent full occupancy level (The actual occupancy rate required for full subsidy eligibility). Payment of operating subsidy for excess vacant units (in excess of the 2 percent vacancy rate allowed under 98 percent full occupancy level) would be eliminated, beginning with one-half of the excess vacant units in 1991, and increasing to three-quarters of the excess vacant units in 1992 and 100 per cent of the excess vacant units in 1993. This change would eliminate the present vacancy policy of the existing regulations.

Significance: Regulatory Program

Legal Authority: Not yet determined

CFR Citation: 00 CFR 000

Legal Deadline: None

Abstract: This proposed rule would codify HUD's homeownership program authorized under section 21 of U.S. Housing Act of 1937. It would provide regulatory guidance to resident management corporation on the necessary steps to be taken to purchase, hold, and later sell to tenants, units in project to be maintained for individual homeownership.

Abstract: This rule would establish procedures for the approval and funding of replacement housing for public housing units that have been demolished or disposed of. In addition, this rule would require that HUD may approve an application for demolition if the project is obsolete, making it unusable for housing purposes and if no reasonable program modifications are feasible to return the project to a useful life. The rule would also require HUD, in allocating assistance for public housing acquisition or development or for Section 8 moderate rehabilitation, to give consideration to housing that replaces demolished public housing units in accordance with an approved replacement plan. PHAs would be prohibited from taking any action to demolish or dispose of public housing projects without obtaining HUD's approval and satisfying pertinent statutory requirements.

Abstract: This rule would implement section 118(a) and 118(d) of the Housing and Community Development Act of 1987. Section 118(a) requires HUD to amend the Performance Funding System, among other things, to provide for a formal review process for PHAs to obtain a change in allowable expense level to correct inequities in the original base year expense level, to correct for changes in operating circumstances and to reflect the level of economic distress of the locality. Section 118(d) also provides for sharing of savings between a PHA and HUD for energy conservation improvements, and for preservation of subsidy when several units are rehabilitated and combined into fewer units. In addition, the rule would specify what requirements an insurance company or other risk protection provider must satisfy in order for the coverage to comply with ACC insurance requirements.

Semiannual Agenda of Rules Scheduled for Review or Development

AGENCY: Office of the Secretary, Interior.

ACTION: Semiannual agenda of rules scheduled for review or development.

SUMMARY: This notice provides the semiannual agenda of rules scheduled for review or development between April and October 1990. An agenda is required by the Regulatory Flexibility Act and Executive Order 12291.

ADDRESS: Unless otherwise indicated, all agency contacts are located at the Department of the Interior, 18th and C Streets NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: All comments and inquiries with regard to these rules should be directed to the appropriate agency contact. General comments relating to the agenda should be directed to the Division of Directives and Regulatory Management, Office of Management Improvement, Department of the Interior, at the address above or on 202-343-6191.

SUPPLEMENTARY INFORMATION: With this publication, the Department satisfies the requirement of Executive Order 12291 that the Department publish in April and October of each year an agenda of rules that have been issued or are expected to be issued and currently effective rules that are scheduled for review.

Simultaneously, the Department meets the requirement of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that an agenda be published in April and October of each year identifying rules which will have significant economic effects on a substantial number of small entities; those rules which will have such effects are specifically identified in the agenda.

This agenda also identifies rules determined to be "significant" under Executive Order 12498 and which are included in this Department's 1990 regulatory program. A more comprehensive discussion of this program and the rules are contained in the Regulatory Program of the United States Government, which is published by the Office of Management and Budget.

Dated: February 28, 1990.

Charles E. Kay,

Principal Deputy Assistant Secretary of the Interior.

1243. NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c) CERCLA

CFR Citation: 43 CFR 11

Legal Deadline: Other, Statutory. 42 USC 9651(c)(3) requires biennial review and revision, as appropriate, of the regulations.

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(B) calls for the promulgation of a set of alternative protocols for the testing, sampling, and determining compensation for natural resource damages, referred to as the type B procedures. Final rules for the assessment of damages were promulgated by the Department consistent with those requirements. In a review of those rules, the U.S. Circuit Court of Appeals for the District of Columbia held that restoration or replacement costs are the basic measure of natural resource damages under CERCLA, and all reliably calculated lost use values of injured natural resources should also be recoverable, with no required hierarchy of methodologies for conducting those valuations. The Department is beginning the revision of the rules to conform with the court ruling. The biennial review of the type B rule will await this revision.

CFR Citation: 43 CFR 11

42 USC 9651(c)(3) requires biennial review and revision as appropriate of the regulations.

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c) (2) (A) calls for the promulgation of simplified assessment procedures. The Department has begun the development of a type A procedure for use in the Great Lakes environment. After a review of the natural resource damage assessment rule, the U.S. Circuit Court of Appeals for the District of Columbia remanded certain parts of that rule to the Department for revision. The court upheld the use of an interactive computer model, but stated that such a model should incorporate restoration or replacement costs and all reliably calculated lost use values in the damage calculations. The Department will revise its development of a type A procedure for Great Lakes environments to comply with the court's ruling.

1246. NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c) CERCLA

CFR Citation: 43 CFR 11

Legal Deadline: None

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(A)) calls for the promulgation of simplified assessment procedures. The first type A procedure for coastal and marine environments uses a computer model known as the natural resource damage assessment model for coastal and marine environments (NRDAM/CME). The U.S. Circuit Court of Appeals for the District of Columbia upheld the use of an interactive computer model, but stated that such a model should incorporate restoration or replacement costs and all reliably calculated lost use values in the damage calculations. The Department will revise the type A procedure for coastal and marine environments to comply with the court's ruling and will incorporate changes in response to the first biennial review of the type A procedure at the same time.

1247. DEPARTMENT OF THE INTERIOR, NONPROCUREMENT DEBARMENT AND SUSPENSION REGULATION

Legal Authority: EO 12549; 5 USC 301

CFR Citation: 43 CFR 12

Legal Deadline: None

Abstract: This action proposes a revision to the Department's regulation establishing a uniform system of nonprocurement debarment and suspension. This proposed rule would implement the requirements of paragraph (a)(1) of section 12.110, Coverage, of common final rule on Governmentwide Debarment and Suspension (Nonprocurement).

1248. ● DEPARTMENT OF THE INTERIOR ACQUISITION REGULATION; PATENT RIGHTS UNDER GOVERNMENT CONTRACTS AND SUBCONTRACTS FOR EXPERIMENTAL, DEVELOPMENTAL OR RESEARCH WORK

Legal Authority: 35 USC 18

CFR Citation: 48 CFR 1400; 48 CFR 1427; 48 CFR 1452

Legal Deadline: None

Abstract: PL 98-620 amended 35 USC 18 dealing with patent rights in inventions made with Federal funding. On June 12, 1989, Federal Acquisition Regulation implementation of PL 98-620 was issued through FAC 84-48. Patent rights under Government contracts are covered in FAR Subpart 27.3. FAR 27.304-5(b) requires agencies to establish and publish their respective appeals, administrative due process, and fact-finding procedures related to patent rights. The proposed DIAR coverage establishes Department of the Interior policy with regard to title rights, exception determinations, appeals, greater rights determinations, retention of rights by inventors, assignment of rights, exercise of march-in rights and licensing to third parties. It also identifies key Departmental points of contact in matters concerning patent rights. The proposed coverage supplements FAC 84-48 and amends sections 14227 and 1452, as parts of 48 CFR, Chapter 14.

Legal Authority: 43 USC 1653(c); 33 USC 1321(p)(1),(2)

CFR Citation: 43 CFR 29.3(b)(1)

Legal Deadline: None

Abstract: The amendment to 43 CFR 29.3(b)(1) would provide that at least one of the Secretary of the Interior's appointees to the TAPS Fund's Board of Trustees would be employed by the Department of the Interior. It would provide further that the appointee(s) would participate in activities of the Board of Trustees, but would not vote. The appointee(s) would not have a vote because of the possibility that a vote could be inconsistent with the interests of the United States.The amendment would recognize that the Secretary's Federal employee appointee(s) are required to represent the interests of the United States in their Board of Trustees activities. The Assistant Secretary-Policy, Budget and Administration, who is the current Federal employee member, has found himself in situations where the Board is voting on matters on which the United States has not developed a policy, and has abstained. There has also been at least one situation where the interests of the United States and the TAPS Fund were in opposition. The amendment therefore makes it clear that the interests of the United States are paramount for the Federal employee appointee(s) and that they will not have a vote.

CFR Citation: 43 CFR 17, Subpart D

Legal Deadline: None

Abstract: The Title IX regulation is intended to address the problem of discrimination on the basis of sex in any education program or activity receiving or benefiting from Federal financial assistance administered by the Department of the Interior (DOI).

No alternative for addressing problems of discrimination in DOI's education programs can be considered due to the fact that Title IX requires each Federal agency which extends Federal financial assistance to any educational program or activity, to issue rules and regulations implementing Title IX.

DOI's recipients are anticipated to incur expenses in two (2) areas: (1) Data collection and recordkeeping; (2) rectifying areas of noncompliance with Title IX. With respect to DOI, expenses will be incurred in three (3) areas: (1) Development and publication of the Title IX rule; (2) Provision of technical assistance; and (3) Accomplishing compliance reviews and enforcement activities.

CFR Citation: 43 CFR 17, Subpart B

Legal Deadline: None

Abstract: This rulemaking will amend the regulation issued by DOI at 43 CFR 17, Subpart B, for enforcement of section 504 of the Rehabilitation Act of 1973, as amended, in federally assisted programs or activities to include a cross-reference to the Uniform Federal Accessibility Standards (UFAS). The regulatory amendment is intended to encourage DOI's recipients to follow UFAS for new construction and alteration projects. No alternative exists to issuing this regulation. This amendment was found to be appropriate and necessary, and is being issued by DOI pursuant to directions received from the Civil Rights Division of the Department of Justice under the authority of Executive Order 12250. It has been determined that this rule is nonmajor and that it has no major cost effect. This amendment will promote governmentwide consistency and minimize public confusion by referencing new architectural standards that are presently in use by the Department of Justice and fourteen other Federal agencies.

Abstract: The procedures for administrative review of Office of Surface Mining Reclamation and Enforcement decisions on (1) applications for new permits, (2) applications for permit revisions, permit renewals, and the transfer, assignment, or sale of rights granted under permit, (3) permit revisions ordered by the Office, and (4) applications for coal exploration permits vary. The Office of Hearings and Appeals proposes to remove the rules containing procedures for administrative review for (2), (3), and (4) (43 CFR 4.1370-4.1379 and 4.1380-4.1388) and to revise the rules in 43 CFR 4.1360-4.1369 so they will include review of decisions presently provided for in 43 CFR 4.1370-4.1379 and 4.1380-4.1388. The Office also proposes to amend 43 CFR 4.1351 and 4.1391(b) to provide for notice of OSMRE's decisions by certified mail or by overnight delivery service rather than by publication in a local newspaper. The proposed amendments will unify administrative review procedures and make them more expedited.

Significance: Agency Priority

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Services proposes to amend the special regulation allowing a maximum of 5,000 nuisance Utah prairie dog (Cynomys parvidens) to be taken annually between June 1 and December 31 in parts of the Cedar and Parowan Valleys in Utah under permits issued by the Utah Division of Wildlife Resources. The amended regulation would expand the area of take to include all private land throughout the range of the Utah prairie dog. Also, the quarterly reporting requirement would be replaced by a requirement to make the State's records on permitted take available to the Service, on request.

Abstract: The Service will develop. regulations to implement provisions contained in the 1981 and 1988 amendments to the Marine Mammal Protection Act that amend Section 109(h) of the Act to: (1) allow the taking of marine mammals by Federal, in addition to the State, or local, government officials under certain conditions; and (2) allow importation of marine mammals into the United States in order to render medical treatment that is not otherwise available.

Additional Information: The proposed rulemaking published April 12, 1988 (53 FR 12043) addressed two issues: (1) the provisions of Section 101(a)(4) of the Marine Mammal Protection Act (Act), as amended in 1981 authorizing incidental take of non-depleted marine mammals during commercial fishing operations; and (2) the taking of marine mammals by Federal, State, or local government officials under certain conditions. The 1988 amendments to the Act created an interim 5-year incidental take exemption for the commercial fisheries, thus essentially negating the 1981 amendments to Sec. 101 of the Act. Development of regulations for commercial fisheries is not necessary, and will not be done at this time.

1284. PROPOSED DETERMINATION OF EXPERIMENTAL POPULATION STATUS FOR AN INTRODUCED POPULATION OF COLORADO SQUAWFISH

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to introduce Colorado squawfish (Ptychocheilus lucius) into the lower Colorado River in Arizona and to determine the population to be "nonessential experimental" population according to Section 10(j) of the Endangered Species Act. The Service will propose a special rule to allow take in accordance with State law. In the past, Colorado squawfish were more widespread in the State of Arizona, occurring in several river drainages. This action is being taken in an effort to establish an additional population within the species' historic range.

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: NPRM, Statutory. Final, Statutory.
In accordance with 16 USC 1533, the Service must take action (list, withdraw, or extend the rulemaking for 6 months) on a proposed listing no later than 6 months after such proposal.

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, the northern spotted owl, and if prudent, identify critical habitat. Such action will be taken upon determination that the species is endangered, threatened, or neither, and will be based solely on the biological information available to the Department.

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: NPRM, Statutory. Final, Statutory.
In accordance with 16 USC 1533, the Service must take action (list, withdraw, or extend the rulemaking for six months) on a proposed listing no later than 1 year after such proposal.

Abstract: The Service proposes to list the desert tortoise (Gopherus agassizii) population north and west of the Colorado River as endangered. A fatal disease, currently referred to as Desert Tortoise Respiratory Disease Syndrome, has been identified and has caused significant declines to certain tortoise populations and threatens epidemic conditions to populations already stressed as a result of habitat degradation, predation, and other factors.

Additional Information: The Service exercised its emergency authority to determine the Mojave population of the desert tortoise to be an endangered species pursuant to the Endangered Species Act of 1973, as amended. An emergency situation, in the form of a recently documented outbreak of a virulent desert tortoise upper respiratory disease syndrome (Respiratory Disease Syndrome), has been identified and has caused significant declines to certain tortoise subpopulations and threatens to become pandemic in subpopulations already stressed as a result degradation, predation, and other factors.

Abstract: The Service would amend the requirements for marking and labeling containers or packages containing fish or wildlife in a joint rulemaking with the Department of Commerce. The Lacey Act Amendments of 1981 make it unlawful to import, export, or transport in interstate commerce any containers or packages containing fish or wildlife that are not marked or labeled in accordance with regulations jointly issued by the Secretaries of the Interior and of Commerce. Such regulations will be in accordance with existing commercial practices.

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to introduce captive-bred Guam rails (Rallus owstoni) onto the island of Rota in the Commonwealth of the Northern Mariana Islands over a 5-year period. The Rota population will be designated a nonessential experimental population according to section 10(j) of the Endangered Species Act of 1973, as amended. The species is currently protected at 13 different captive propagation facilities and nonessential status would provide the flexibility in managing the Rota population.

Abstract: The Service will modify two existing depredation orders (50 CFR 21.43 and 21.44) to prohibit killing of the

tricolored blackbird throughout its range and seven species of western meadowlarks, American, Lesser and Lawrence's goldfinches, acorn woodpeckers, Lewis' woodpeckers, and northern flickers. This action is necessary because these species are no longer serious agricultural pests, and some have been declining in numbers such that their continued existence may be in jeopardy without additional protection.

Abstract: This proposed rule designates routes and frozen water surfaces for use by snowmobiles at Apostle Islands National Lakeshore. The general regulations at 36 CFR 2.18 prohibit such use unless routes and water surfaces are specifically identified and promulgated as special regulations. The intended effect of this regulation is to remove that prohibition and allow the use of snowmobiles to conduct legislatively authorized fishing activities.

Significance: Agency Priority

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7.13

Legal Deadline: None

Abstract: The proposed regulation will exempt the section of U.S. 191 within Yellowstone National Park from the prohibition on the use of National Park Service roads by commercial vehicles when such use has in no way a connection with operation of the park; delete the special regulations establishing the speed limit on U.S. 191 within Yellowstone National Park; and restrict the amount and type of hazardous materials which may be transported on U.S. 191 within Yellowstone National Park. The special regulation establishing the present fee schedule for commercial traffic within Yellowstone will be eliminated and the Superintendent provided the discretion to establish and adjust fees for such use on an annual basis.

These actions will clearly define the management and regulation of commercial traffic on U.S. 191 through Yellowstone and assure a certain measure of protection against hazardous waste spills.

1312. MINERALS MANAGEMENT - NON-FEDERAL OIL AND GAS

Significance: Agency Priority

Legal Authority: 16 USC 1 et seq; 16 USC 410g; 16 USC 4101; 16 USC 459d-3; 16 USC 459h-3; 16 USC 698c; 16 USC 698i; 16 USC 460-2(i); 16 USC 450kk; 16 USC 230a; PL 100-301, Sec 8; PL 100-301, Sec 8; 31 USC 9701

CFR Citation: 36 CFR 9, Subpart B

Legal Deadline: Final, Statutory, January 29, 1989.
Section 8 of the Big Cypress National Preserve Addition Act directs the Secretary of the Interior to promulgate regulations governing nonfederal oil and gas development by 1/29/89.

Abstract: Several sections of 36 CFR Part 9, Subpart B contain ambiguous language which has caused confusion in interpreting the existing regulations. The NPS wants to make technical revisions to clarify requirements for both applicants and the Service. Also, the existing regulations exempt two classes of operators from compliance. Because of these exemptions, the regulations apply to only 35% of the existing operations resulting in avoidable impacts to park resources and visitor values from unregulated operations. Finally, the Service intends to propose revisions to the existing regulations to incorporate congressionally mandated requirements and timetables governing nonfederal oil and gas development in the Big Cypress National Preserve Addition. Examples of such revisions include: making the regulations applicable to all oil and gas operations within all units of the National Park System; updating terms for consistency with existing policies, practices, and laws; and removing the monetary ceiling and floor on bonds and security deposits so that bonds may be calculated and posted commensurate with reclamation costs.

1314. MINERALS MANAGEMENT: NONFEDERAL MINERALS OTHER THAN OIL AND GAS

Significance: Agency Priority

Legal Authority: 16 USC 1 et seq; 31 USC 9701; 5 USC 301

CFR Citation: 36 CFR 9, Subpart C

Legal Deadline: None

Abstract: Extensive nonfederal mineral rights exist within units of the National Park System. The Service presently regulates only nonfederal oil and gas activities occurring in those units. Mineral activities, other than those associated with nonfederal oil and gas, are occurring in approximately 13 units of the System. There are also 7 additional units in which nonfederal mineral development is currently proposed or has recently been proposed. The Service is charged by Congress to ensure that the development of nonfederal mineral rights within park boundaries is consistent with the purposes for which the units were established. The proposed regulation would establish procedures and standards governing nonfederal mineral development, other than nonfederal oil and gas, in a manner that protects affected park units.

1315. SEQUOIA AND KINGS CANYON NATIONAL PARKS: FISHING REGULATIONS

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7.8

Legal Deadline: None

Abstract: The proposed rulemaking would revise the Parks' fishing regulation. The changes would simplify existing fishing regulation, maintain the existing variety of recreational fishing opportunities, help restore the natural distribution and abundance of native species, help retard expansion of introduced species, and open most streams to fishing which are currently closed. Anglers would have to be able to identify fish they kept, and in some areas they would be required to use single barbless hooks.

1316. OZARK NATIONAL SCENIC RIVERWAYS: POWER BOAT OPERATION

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7.83

Abstract: This proposed rulemaking will amend the current regulation by adding a section which will designate zones of motorboat operation and place horsepower limitations on motorboats. This addition is necessary in order to resolve user conflicts, protect the quality of the river and the recreational experiences, as well as address visitor safety concerns. The effects will be to increase safety, reduce conflicts, and provide maximum recreational benefits to all river users.

Legal Deadline: None

Abstract: The existing regulations at 36 CFR Part 9, Subpart A, promulgated in January of 1977, contain a provision regarding the use of water in connection with mining claims within National Park System units that creates a "catch 22" for miners seeking to use water in connection with their claims. In order to use water in a park, a miner must have perfected water right. However, to obtain a perfected water right, a miner must use water. Herein lies the "catch 22." The National Park Service (NPS) would like to rectify this dilemma through a rule change that would eliminate the perfected water right language while at the same time preserve the Service's ability to protect water quality and quantity.

Abstract: The National Park Service is proposing rules what will prohibit the hunting of certain wildlife species in the National Preserve areas in Alaska on the same day in which a hunter is airborne. Hunting will continue to be allowed pursuant to State and Federal regulations. Access to those areas by aircraft for sport hunting and other purposes is also allowed. While the State of Alaska has a similar regulation in place, commonly referred to as the "same-day-airborne" regulation, recent changes to their regulation have allowed exceptions for some species in certain State of Alaska game management units including the National Preserve areas. This exception will allow "land-and-shoot" hunting of wolves in the National Preserves. The proposed National Park Service regulation will prohibit "land-and-shoot" hunting for big game including the following species: All species of Bears, Bison, Caribou, Elk, Mountain Goat, Moose, Musk Oxen, Dall Sheep, Wolf, Wolverine, Coyote, Arctic and Red Fox, and Lynx.

Significance: Agency Priority

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 4.15

Legal Deadline: NPRM, Statutory, October 31, 1988.

Abstract: This rulemaking would establish an NPS mandatory seatbelt regulation to apply in park areas that are located within States that do not have a seatbelt law in effect. This regulation would affect 100 park areas in 18 States. The regulation would apply to all of a vehicle's front seat occupants except those that are occupying a seat that was not originally equipped by the manufacturer with a seatbelt and those with a medical condition that prevents restraint by a seatbelt.

The National Park Service is required to issue the proposed rule by a provision in the Department's 1989 FY Appropriations Act.

Abstract: The Bureau is amending existing Financial Assistance and Social Services Program regulations to further define the adult care services provided to Indian people. These proposed regulations define the extent of the program, establish eligibility requirements, and establish adult care services as a social services program separate and distinct from the general assistance program. The revision is needed to specifically define the Bureau's role in the provision of institutional and in-home care to Indian adults who are mentally or physically handicapped or otherwise disabled. The Bureau is also amending miscellaneous assistance provisions to conform with the congressional directive in Public Law 98-473. Miscellaneous assistance will be revised and defined as burial assistance. Emergency assistance previously provided under miscellaneous assistance was transferred to general assistance by revision of 25 CFR Part 20(c) on September 30, 1985.

Abstract: This rulemaking action is to add a new Part 70 to govern the issuance of Certificates of Degree of Indian Blood (CDIB's). There has been a sharp increase in the number of requests for CDIB's over the past few years. More and more programs are requiring individuals to submit CDIB's to document possession of Indian blood. This rulemaking action is

intended to clarify the circumstances under which the Bureau will issue CDIB's; the documents and records on which the Bureau will base the issuance of CDIB's; and the procedures that individuals will need to follow, including any documentation requirements, to obtain CDIB's.

Legal Deadline: NPRM, Statutory, August 5, 1989. Final, Statutory, October 5, 1989.

Abstract: The primary purpose of the amendments to 93 USC 638 is to permit an orderly transition from Federal domination of programs for and services to Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services while maintaining the Federal Government's unique and continuing relationship with and responsibility to individual Indian tribes and to the Indian people as a whole. In addition to extensive consultation with the tribes and Native American groups, the Bureau of Indian Affairs is examining all of its planning administrative procedures from the perspective of maximizing tribal participation. Due to the broad scope of the review, an estimate of the potential cost and potential benefit is premature. The changes are one of process rather than increases or decreases in budget or program funding. The major potential cost is to the Federal Government in order to meet the insurance requirement of the law. The amount is undetermined to date.

1365. ● INDIAN ELECTRIC POWER UTILITIES

Legal Authority: 5 USC 301

CFR Citation: 25 CFR 175; 25 CFR 176; 25 CFR 177

Legal Deadline: None

Abstract: This proposed rule consolidates and revises former CFR parts 175, 176, and 177 to promote consistent and effective administration of utilities and to provide for public hearing and review of the rate setting process in a timely manner. Indian electric power utilities are required to maintain budgets that do not reflect deficiencies due to operating, maintenance, and replacement costs. The former rules normally require one to two years to implement rate adjustments, and the resulting delays have caused revenue shortages. The revised rules will enable power rate adjustments to be made in a timely manner by the Area Director after public notice, comment, and hearing period. The rule revision also allows for appeals to be heard by the Interior Board of Indian Appeals. Under the revised rule all rate adjustments are made after a public notice, comment, and hearing period. Rate adjustments are predominately the result of the cost of labor, materials, equipment, power, and services. Increases or decreases in the cost of electric service will affect all customers served by the utility.

Significance: Regulatory Program

Legal Authority: 20 USC 3385; 25 USC 2003

CFR Citation: 25 CFR 35

Legal Deadline: None

Abstract: Publication of this proposed rule is necessary so that tribes, tribal organizations, and consortia of tribes who have combined memberships of 500 members or more may provide the necessary services to parents and children under six years old whose needs are not being met by existing programs. National studies show that for every dollar spent on early childhood development programs there is a return of six dollars. The benefits include increasing the literacy rate, the graduation rate, and the rate of enrollment in higher education. High quality early childhood programs can also decrease the rate of cognitive learning and emotional handicaps; teenage pregnancy; welfare dependency and the incidence of arrest and juvenile delinquency.

1367. ● BOND GUARANTY

Significance: Regulatory Program

Legal Authority: 25 USC 1498

CFR Citation: 25 CFR 103; 25 CFR 104

Legal Deadline: None

Abstract: The BIA has no existing rules to support program changes as specified in the 1988 amendments to the Indian Financing Act of 1974 (25 USC 1498). Requirements for eligibility and procedures for participating in these new programs must be announced to the public. To enable public participation in these new programs the BIA must inform the public of provisions for new guaranty authority contained in the 1988 Amendments. The Congressional Budget Office has estimated that guaranteeing bonds issued to finance economic development projects will result in an annual federal outlay of $5 million to $10 million over the first five years of the program. The estimate was based on bond guarantees of $30 million to $50 million per year. The positive effect of these rules will be that bond proceeds from private investors will finance businesses which will produce goods. The negative effect will be about $5.10 million in Federal outlays annually due to losses on defaulted bonds.

Significance: Regulatory Program

Legal Authority: 25 USC 1498

CFR Citation: 25 CFR 103; 25 CFR 105

Legal Deadline: None

Abstract: To enable full public participation in the new programs established by the 1988 amendments to the Indian Financing Act of 1974 (25 USC 1498), requirements for eligibility and procedures for participation in these programs must be announced. The supplemental surety bond guaranty program will enable Indian contractors who obtain surety bond guarantees from the Small Business Administration to obtain a supplemental guarantee to cover bids on and performance of contracts that could not be obtained without such guarantees. The annual cost to the federal government will be about $0.5 million on $50 million in surety bond guarantees.

Legal Authority: 34 Stat. 543 Sec. 3; Act of June 28, 1906, Ch. 3572, Sec. 3; 34 Stat. 539; 34 Stat. 543

CFR Citation: 25 CFR 214

Legal Deadline: None

Abstract: The BIA is proposing to revise the regulations at 25 CFR 214 governing management of non-oil and gas minerals on Osage Reservation Lands in Oklahoma. The proposed revisions eliminate specific royalties for minerals not found within the Osage Mineral estate and give authority to the Osage Tribal Council, with the approval of the Superintendent of the Osage Agency, to to set applicable royalty rates. This revision also replaces outmoded methods of exchange with modern methods, and correctly designates those officials responsible for the management of non-oil and gas minerals within the Osage Mineral estate. The proposed revisions are intended to enhance the management ability of the Department over the production of these minerals, and to eliminate various inaccuracies in the current regulations.

Legal Authority: 41 Stat. 1225; 41 Stat. 1248; 50 Stat. 68

CFR Citation: 25 CFR 215

Legal Deadline: None

Abstract: BIA proposes to amend 25 CFR 215 to update the operations and procedures for leasing, discovery, testing, processing, developing, mining and processing lead and zinc minerals on lands under the jurisdiction of the Bureau's Miami Agency in Ottawa County, Oklahoma. Current regulations governing such leases were developed over 30 years ago and no longer reflect current practices or standards in the mining industry. The proposed revisions will assist affected Indians with the efficient development of their lead and zinc deposits without waste, avoidable loss or damage to their natural resources, the environment, or other resources. The Bureau also proposes to retitle 25 CFR 215 as "Lead and Zinc Mining Operations and Leases, Miami Agency."

CFR Citation: 25 CFR 50

Legal Deadline: None

Abstract: This proposed rule establishes a new part containing requirements for determining whether plant conditions at Bureau-funded schools are an immediate hazard to health and safety. The Bureau is required to develop rules for a safety and health inspection program by PL 100-297, which states that schools may be closed or consolidated, or programs substantially curtailed, for plant conditions constituting an immediate hazard to health or safety only if a Bureau health and safety officer determines that such conditions exist. There will be no effect on the economy or cost or price effects, since this rule is administrative in nature and outlines the responsibilities of the Division of Safety Management for conducting safety and health inspections.

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9; 43 USC 1457

Abstract: This proposed rule describes standards by which per capita payments out of tribal trust revenue may be made by either the Secretary of the Interior or by tribal governments. This revision is a result of the repeal of laws which restricted distributions made by Federal officials designated by the Secretary. The former laws were repealed because most Indian tribes now have the capability to manage their own receipts and disbursements. There will be no increase in costs or prices for consumers, regions, or governments as a result of this revision.

Significance: Agency Priority

Legal Authority: 25 USC 1524

CFR Citation: 25 CFR 286

Abstract: This proposed revision is to revise section 286.17(b) of proposed rule 25 CFR 286, "Indian Business Development Program," which says that a grant may be made only to an applicant who is able to obtain at least 60 percent of the necessary financing from other sources. The Bureau of Indian Affairs (BIA) has required applicants to provide at least 75 percent of necessary financing since appropriations for IBDP (Indian Business Development Program) were reauthorized in 1984. From 1983 to 1985 the BIA administered a similar business development grant program called Special Grants for Economic Development (25 CFR 278) under authority of the Snyder Act. The IBDP supplants that program. Part 273 required 75 percent of project costs from non-Federal sources. Since 1983, we have been requiring 75 percent matching funds and this revision is to reflect this requirement. Since this policy has been in practice there will be no significant change as far as potential cost or benefit due to this revision.

Significance: Agency Priority

Legal Authority: 25 USC 2; 25 USC 9; 25 USC 13

CFR Citation: 25 CFR 11

Legal Deadline: None

Abstract: The present regulations contain a very incomplete criminal code that does not cover many areas of the law that are usually in the laws of the State where the reservation is located. The current regulations also contain very sketchy provisions on criminal and civil procedure. It is proposed to update the sections on criminal offenses, and essentially create new sections on criminal procedures, domestic relations, probate proceedings, appellate proceedings and juvenile proceedings. This will provide the Courts of Indian Offenses with more complete and up to date procedures and rules. Courts will have a six month period from the date of publication of the final rule to the effective date in which to revise their court codes. It is not anticipated that this revision will have any effect on the annual case load for these courts or require additional staffing. Therefore, the initiation of these rules should not result in additional costs.

Significance: Agency Priority

Legal Authority: 5 USC 301; 25 USC 476; 25 USC 13; 25 USC 2; 25 USC 9

CFR Citation: 25 CFR 89.40 to 89.46

Abstract: The Bureau of Indian Affairs proposes to revise the rule concerning the circumstances under which the Bureau of Indian Affairs, in the performance of the Federal Government's trust responsibility to Indian tribes, may, in its discretion, provide Departmental funds to an Indian tribe or other Indian organization for the payment of a private attorney's legal services. The proposed revisions would not change the underlying policy of the current rule which is to pay for private counsel to represent Indian tribes only in exceptional circumstances. The principal changes involve representation in child custody proceedings, services of tribal court personnel, and non-litigation services. The proposed revision would also provide that when trust resources are involved, tribes and individual Indian allottees are eligible to apply for and receive federally appropriated funds under 25 CFR 89.

Abstract: The rules are being amended to strengthen the management of the Osage mineral estates and relieve the Osage oil lessees from basing the payment of royalties to the Osage Tribe on the offered or posted price of a major purchaser in the Kansas-Oklahoma area. These regulations will improve the management of the Osage mineral estate and will alleviate the economic hardship placed on the oil lessees.

1388. PREPARATION OF ROLLS OF INDIANS

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9; PL 100-139

CFR Citation: 25 CFR 61

Legal Deadline: Final, Statutory, October 26, 1988.
One year from date of enactment for completion of the tribal membership roll.

Abstract: This rulemaking action is being taken to amend the regulations contained in 25 CFR Part 61. Part 61 contains general enrollment procedures which can be made specifically applicable in the preparation of a particular roll by the Secretary by amending section 61.4 to include the qualifications for enrollment for that particular roll. Under the Cow Creek Band of Umpqua Tribe of Indians Distribution of Judgment Funds Act of 1987, the Secretary has been directed to prepare certain rolls of Cow Creek Indians to be used in the implementation of the Act. The proposed amendment is, therefore, to make the procedures contained in Part 61 applicable to the preparation of the Cow Creek rolls by adding in section 61.4 the qualifications for enrollment for each of the rolls to be prepared.

Abstract: This interim rule will give the Bureau authority to bill and collect for services currently provided to non-Federal users. These rules must be promulgated before fees are charged by the Bureau for services and goods to non-Federal users under the Independent Offices Appropriations Act. Billing and collecting for the goods and services will not increase or decrease the current appropriated funding level. This rule is only to clarify the legality of the process that is already in effect. Abstract: The Bureau of Indian Affairs intends to amend several sections of its

rights-of-way regulations which impose a variety of specific requirements on grantees of rights-of-way over Indian lands. These requirements were intended to implement public laws enacted around the turn of the century which authorized the Secretary of the Interior to issue rights-of-way for various specific purposes. In 1948 Congress gave the Department comprehensive authority to grant rights-of-way for any purpose or any term of years without the antiquated restrictions of the older statutes. The regulations continue to reflect the old requirements and the result has been inconsistent application of the 1948 Act. The removal or revisions of these sections would end that practice.

Legal Authority: 92 Stat. 1660

CFR Citation: 25 CFR 18

Abstract: This rulemaking action would permit the Field Solicitor, Pawhuska, Oklahoma, to determine the heirs, devisees and/or legatees of estates under the jurisdiction of the Osage Agency, consisting of Osage headright interest, real estate on which restrictions against alienation have not been removed, and/or funds on deposit at the Osage Agency, all of which do not exceed a valuation of $10,000 on the date of death of a decedent, when requested in writing by one or more of the heirs, devisees and/or legatees; provided, that a court of competent jurisdiction has not proceeded to administer or probate the estate. The administration of such estates by the Field Solicitor would alleviate the necessity of the employment of an attorney by the beneficiaries, approval of the will pursuant to 25 CFR Part 17, and the filing of administration or probate proceedings in State Court. Because of the size of these estates, it is financially impractical for the beneficiaries to employ attorneys for that purpose.

Legal Authority: 43 USC 1334(a)(8)

CFR Citation: 30 CFR 250.47

Legal Deadline: None

Abstract: Pursuant to the Outer Continental Shelf Lands Act (OCSLA), the Secretary of the Interior is required to regulate air emissions from OCS oil and gas operations when they significantly affect the air quality of a State. To this end, MMS is developing regulations (RIN 1010-AA61), which will establish general, more stringent air emissions standards for OCS operations off the coast of California. However, there are significant technical and climatic barriers to attainment of good air quality in the area. To develop more effective protection of each air basin in California, MMS proposes to develop a separate mitigation fee program (e.g., local offsets) for each basin to be administered locally, and governed by "rules of particular application" that would be developed through separate rulemakings subsequent to adoption of the general rule. Each rule of particular application would address the following aspects of the proposed mitigation programs: administration, setting of fees, responsibilities of various governmental entities, coordination with the State Implementation Plan, selection of projects to be funded, performance audits, and modification processes.

1397. AIR QUALITY - OFFSHORE CALIFORNIA

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.47

Legal Deadline: None

Abstract: Amendments to the DOI Air Quality regulation for oil and gas operations will be proposed for Outer Continental Shelf areas adjacent to California. The changes would provide additional safeguards for those pollutants which could be critical to air quality in the region. The costs have been determined to have a net present value of approximately $25M to the regulated industry; the net benefits have not been quantified but would be a reduction in any effect of emissions from OCS operations on the ozone levels in adjacent onshore areas. This may be expected to yield cost reductions in health services and other related areas. The DOI conducted a conflict assessment to determine the likelihood of the interested and affected parties being able to reach an agreement on an air quality regulatory program. However, the effort at a negotiated rulemaking was inconclusive. Therefore, DOI proposed a rule through the standard process. Subsequently, based on careful consideration of comments, DOI determined to repropose a more stringent rule.

Significance: Regulatory Program

Legal Authority: 43 USC 1339

CFR Citation: 30 CFR 230

Abstract: This rulemaking is needed to add new regulations covering recoupment and refunds of excess payments made under Federal offshore mineral leases which are subject to section 10 of the Outer Continental Shelf Lands Act of 1953 (OCSLA), 43 USC 1339. This rule would establish requirements and guidelines for crediting (recouping) excess payments of royalties, rentals, bonuses, or other amounts against a current or future payment obligation or refunding such excess payment to any person lawfully entitled to receive a refund or credit for an overpayment made under an offshore lease. The new regulation is intended to lessen confusion on the part of payors, operators, and the Minerals Management Service.

CFR Citation: 30 CFR 243

Legal Deadline: None

Abstract: The MMS regulations at 30 CFR 243.2 address the effectiveness of its Royalty Management Program decisions and orders pending administrative appeal. At the time the rule was issued in 1984, it was MMS's interpretation that most decisions and orders would not be suspended pending appeal. However, in 1986, the Interior Board of Land Appeals (IBLA) determined that unless there were special circumstances, the Director, MMS, was required to stay effectiveness of decisions and orders pending appeal provided the appellant posted adequate surety (Marathon Oil Company, 90 IBLA 236 (1986)). In view of the IBLA decision, an amendment is needed to MMS regulations at 30 CFR 243.2 to reflect clearly that MMS decisions and orders are stayed pending administrative appeal, the types of sureties which would be acceptable to MMS, and related issues.

Abstract: The existing regulations provide for the valuation of unprocessed gas, residue gas, or any gas plant product which is not sold pursuant to an arm's-length contract to be determined in accordance with a benchmark method. In the final regulations, MMS adopted as the first benchmark the lessee's gross proceeds received under its non-arm's-length transaction if they were equivalent to the gross proceeds received under comparable arm's-length contracts for like-quality production in the same field or area. The criteria to be considered in defining comparable contracts were also outlined. However, since the adoption of the revised regulations, numerous questions have been raised as to the interpretation of the first benchmark. These questions have identified the need to further clarify MMS's intention in this regard.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.52

Legal Deadline: None

Abstract: The Minerals Management Service proposes to amend 30 CFR 250.52 to add requirements designed to increase personnel safety and minimize property damage by avoiding or preventing the occurrence of accidental fires caused by hot slag from welding or burning activities falling into flammable material floating on the ocean surface beneath Outer Continental Shelf (OCS) facilities. The proposed amendment was prompted by the recommendations of an investigation of a January 6, 1984, accidental fire believed to have been caused by hot welding slag igniting a layer of hydrocarbons floating on the surface of the ocean water beneath an OCS facility. Three men died and nine were burned as a consequence of that fire. The alternative considered was to send lessees advisory notices alerting them of the potential danger of welding slag; however, the alternative was considered less effective because it lacked enforcement. The proposed amendment would not result in increases in cost to lessees or consumers.

Abstract: The MMS Auditing and Financial System (AFS) matches and applies each payment received to its corresponding report or bill. If a payment cannot be automatically matched and applied by the AFS because of inadequate or erroneous information, it must be manually matched and applied by MMS personnel. The manual matching of payments to reports and bills results in MMS incurring substantial costs so that the AFS can operate properly to account for and distribute royalties. This situation also delays the payment application process and can result in delay in distribution of royalties and related information to States and Indian Tribes and allottees. To recover the costs, MMS is proposing to amend its regulations to add a new assessment amount not to exceed $250 per incident. The new assessment would encourage payors to submit their payment, when required, together with the applicable report or copy of the bill and for the same amount as the report or bill. The new assessment would also encourage payors to adequately identify payments to the report or bill to be paid.

Legal Deadline: None

Abstract: The regulations at 30 CFR 228, implementing section 202 of the Federal Oil and Gas Royalty Management Act of 1982, 30 USC 1719, provide that the Federal share of funding of certain cooperative agreement activities with any State or Indian Tribe will be limited to not more than 50 percent of the cost of eligible activities as established under the terms of the cooperative agreement. However, Congress recently passed "The Indian Self-Determination and Education Assistance Act Amendment of 1988," October 5, 1988, PL 100-472, which included amendments to PL 93-638 to require all Bureaus within the Department of the Interior to enter into PL 93-638 contracts with Indian Tribes. Consequently, the cooperative agreements that MMS may enter into in the future with Indian Tribes will be considered PL 93-638 self-determination contracts. Because PL 93-638 entitles an Indian Tribe to Federal reimbursement of 100 percent of the costs of an approved self- determination contract, MMS is proposing to amend its regulations to remove the 50-percent Federal funding limitation.

Abstract: This rule proposes to amend the regulations governing offshore oil and gas operations to correct a number of errors and minor inconsistencies contained in the comprehensive revision of those regulations promulgated in 1988. The MMS proposes to correct these typographical errors and inconsistencies by revising text of the related sections in 30 CFR Part 250. Most of these revisions are minor and involve the clarification of sections by modifying, removing, or adding a word or phrase; however, two substantive revisions concerning crane operations and drainage protection are included. The costs to lessees to implement these amendments are not expected to significantly increase over the costs of complying with the current program. This action is required to correct the errors referred to above; there are no alternatives.

Abstract: On January 13, 1989, MMS issued revised coal product valuation regulations in the Federal Register (54 FR 1492) establishing the value of coal production for royalty purposes from all Federal and Indian leases. The adopted regulations, effective March 1, 1989, resulted in considerable controversy on the part of States, Indians, and Congress relative to the exclusion of Federal Black Lung excise taxes, Abandoned Mine Land Fees, and State and local severance taxes from the value of coal production, for royalty computation purposes, on Federal leases. In view of the controversy, the Secretary of the Interior directed that a review and study of the issues be performed. As a result of that study, MMS is proposing to amend its coal regulations to remove the exclusion of the taxes and fees from the value of Federal coal production.

1406. ● ALLOWANCE FOR EXTRAORDINARY COSTS AND THRESHOLDS FOR TRANSPORTATION AND PROCESSING ALLOCATIONS

Significance: Regulatory Program

Legal Authority: 25 USC 396 et seq; 25 USC 396a et seq; 25 USC 2101 et seq; 30 USC 181 et seq; 30 USC 351 et seq; 30 USC 1001 et seq; 30 USC 1701 et seq; 31 USC 9701; 43 USC 1301 et seq; 43 USC 1331 et seq; 43 USC 1801 et seq

CFR Citation: 30 CFR 206

Legal Deadline: None

Abstract: Sections 206.104, 206.157, 206.158, and 206.159 of Minerals Management Service's Oil and Gas Valuation regulations, which were effective March 1, 1988, allow deductions for transportation and processing costs, limited to "reasonable actual costs," with an MMS approval threshold(s). Paragraph 206.158(d)(2) authorizes an additional allowance if the lessee incurs extraordinary costs for processing gas production and can demonstrate that the costs are "extraordinary, unusual, or

unconventional." Amendments are needed to MMS's regulations to establish the criteria that must be met before any extraordinary gas processing cost allowance would be granted and to revise the MMS approval thresholds for transportation and processing allowances, if needed, based on actual experience since the effective date of the regulations. Amendments may also be needed to establish criteria for any extraordinary cost allowances that may be granted for other minerals such as oil, coal, and geothermal.

Abstract: The Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) requires that the Secretary of the Interior establish a comprehensive inspection and auditing system to provide the capability to accurately determine royalties, interest, fines, penalties, fees, deposits, and other payments owed on Federal or Indian oil and gas leases. This responsibility has been delegated to MMS. However, performance of the required audits may be delegated to States or Indian tribes pursuant to sections 202 and 205 of FOGRMA or to independent certified public accountants under contract. The FOGRMA also requires the promulgation of regulations to establish audit standards and procedures, payor requirements and responsibilities, and authorities and responsibilities which may be delegated by MMS to a State, Indian tribe, or an independent certified public accountant. The purpose of this rulemaking action is to establish the regulations required by FOGRMA.

CFR Citation: 30 CFR 218

Legal Deadline: None

Abstract: Responsibilities of Minerals Management Service include the collection of royalties, bonuses, rentals, and related revenues from Federal and Indian mineral leases. These monies are, for the most part, collected from the current designated payor on the lease. However, if MMS is unable to collect from the current payor, it must pursue collections from a prior payor(s), the lessee, or an assignee of the lease. Existing regulations are unclear as to the responsibilities and liabilities of the parties involved. Therefore, MMS is proposing to amend its regulations to clarify payor, lessee, and assignee requirements and responsibilities.

Abstract: There is a conflict in MMS regulations at 30 CFR 220.030 with the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) as to the time period that an offshore net profit share (NPSL) lessee must maintain records and all other documentation pertaining to the NPSL capital account. Therefore, MMS is proposing to amend 30 CFR 250.030 to extend the time period to 6 years, from 36 months, consistent with the statutory requirement of FOGRMA. The MMS is also proposing to remove 30 CFR 220.033 which includes language that conflicts with the recordkeeping requirements of FOGRMA and MMS regulations at 30 CFR 212.50 and 212.51.

Abstract: This rule would modify the regulations governing drilling, well-completion, and well-workover operations under an oil and gas lease in the Outer Continental Shelf to identify with greater specificity the information that must be recorded by the lessee to describe testing of the lessee's blowout preventer (BOP) and auxiliary equipment and to add a provision allowing MMS to request information concerning pressure conditions during testing of BOP's and auxiliary equipment. The change is necessary to allow MMS personnel to verify the adequacy of lessee-conducted tests that are needed to assure that BOP's and auxiliary well-control equipment, if needed, will operate effectively. This change will enable MMS personnel to better assess the effectiveness of a BOP system during their review of the documentation of the method and procedures used by a lessee to conduct BOP tests and the results obtained.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.67

Legal Deadline: None

Abstract: The rules for Hydrogen Sulfide are being amended to revise the requirements for visual and audible warning systems, personnel protection, hydrogen sulfide (H2S) and sulphur dioxide (SO2) detection and monitoring, and the criteria for the activation of visual and audible warning systems. These amendments are necessary to be consistent with the new personnel exposure limits for H2S and SO2 established by the Occupational Safety and Health Administration. Amending the rule would reduce personnel exposure limits, thereby decreasing the risks associated with hazardous environments. The costs to lessees to implement these amendments are not expected to significantly increase over the costs of complying with the current program under 30 CFR 250.67.

CFR Citation: 30 CFR 206

Legal Deadline: None

Abstract: The Minerals Management Service (MMS) published final revised regulations governing the valuation of gas from Federal leases onshore and on

the Outer Continental Shelf and from Indian Tribal and allotted leases in the Federal Register on January 15, 1988 (53 FR 1230). The proposed gas valuation provisions of section 206.153, in part, govern the determination of value in situations where the lessee's contract for the sale of gas prior to processing provides for the value to be determined based upon a percentage of the purchases proceeds resulting from processing the gas. However, the inclusion of these percentages-of-proceeds contracts under section 206.153 has created unreasonable burdens on lessees. Consequently, MMS is proposing to amend its regulations to provide for the valuation of gas under percentage-of-proceeds contracts to be under the unprocessed gas valuation standards of section 206.152, rather than section 206.153.

Legal Deadline: None

Abstract: The rules at 30 CFR Part 250 which govern oil and gas and sulphur operations in the OCS will be revised to address in greater specificity training requirements for personnel engaged in oil, gas, and sulphur drilling, development, and production operations in the OCS. Training requirements were addressed in a proposed rule to consolidate into one document the rules governing oil and gas and sulphur operations in the OCS which was published on March 18, 1986 (51 FR 9316). The training provisions of that proposed rule have been revised, updated, and consolidated under a new Subpart O, Training. Other alternatives considered were not revising the regulations and revising only those regulations identified by industry. Promulgation of the regulation is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices.

Abstract: Existing regulations governing the valuation of geothermal resources provide insufficient guidance for the valuation of geothermal resources utilized to generate electricity in a lessee-owned power plant. Consequently, the Minerals Management Service has issued a report entitled "Valuation of Federal Geothermal Resources--Electrical Generation" which describes a "geothermal netback procedure" to value these "no sales" resources. An amendment is needed to the existing regulations to provide regulatory guidance after receipt and consideration of comments from the public to the existing geothermal netback procedure.

Abstract: The rules at 30 CFR 250 which govern oil and gas and sulphur operations in the Outer Continental Shelf (OCS) will be revised to address sulphur exploration, development, and production operations with more specificity. Sulphur operations are currently addressed through rules applicable to oil, gas, and sulphur and through OCS Order No. 10, Sulphur Drilling Procedures, issued by the Gulf of Mexico OCS Region. Comments received as the result of the publication on March 18, 1986 (51 FR 9316), of a proposed rule to consolidate rules governing oil, gas, and sulphur operations in the OCS included recommendations for the development of regulations which treat sulphur operations in the OCS with greater specificity. Other alternatives considered were not revising the regulations. Promulgation of the regulation is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices.

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250.18

Legal Deadline: None

Abstract: Amendments to the regulations providing for the discretionary release of postlease proprietary data and information will be proposed. The amendments would limit the discretion of the MMS Director to release such data and information by defining more precisely the circumstances under which such releases may be authorized and to whom the data and information may be shown. The alternative to the proposed amendment is the case-by-case determination of whether to release such proprietary data and information based on the existing less specific discretionary authority of the Director. This alternative leaves some degree of uncertainty to the lessee concerning the circumstances under which releases will be authorized, and possible changes in policy.

CFR Citation: 30 CFR 218

Legal Deadline: None

Abstract: Existing regulations at 30 CFR 218.54, 218.55, and 218.103 govern the rate of interest to be charged on underpayments or late payments of royalty by lessees and other royalty payors, and the rate of interest to be paid on late disbursements of an Indian Tribe's or Allottee's royalty or a State's share of royalty revenues. These regulations reference section 6621 of the Internal Revenue Code of 1954 for the applicable interest rate in each situation. However, section 6621 was amended by the Tax Reform Act of 1986 to provide for a different interest rate for overpayments and for underpayments. A rule amendment is required to clarify an ambiguity in the existing regulations, created by the amendment to section 6621, as to which of two different rates would apply.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.18

Legal Deadline: None

Abstract: This proposed rule is intended to remove apparent inconsistency in current regulations concerning the release of data and information submitted to MMS on certain MMS forms. Section 250.18 specifies periods of time that certain geological and geophysical data will be protected from disclosure to the public when submitted on specific forms, but release dates for similar data and information on other forms are not mentioned in the regulations. The alternatives of providing guidance through an OCS Order and through a Notice to Lessees and Operators on a region-to-region basis does not ensure that information is uniformly available to the public. This rulemaking does not involve any significant additional costs. Its benefits are the removal of ambiguity in the current regulations and the availability of data and information to the public on a uniform basis in all OCS Regions.

Abstract: The MMS does not currently have regulations which delineate how service of official correspondence, including orders, decisions, demands for payment and notices of noncompliance issued by its Royalty Management Program is effectuated. In the absence of MMS regulations, the Interior Board of Land Appeals (IBLA) (IBLA-87-349) reversed a decision by the Director, MMS that an appeal had not been timely filed and therefore would not be considered. A rule is required that would: 1) establish an "address of record" to which official correspondence will be sent, and 2) define the "date of service" whether the document was physically or constructively delivered. The date of service established in accordance with this rule also would be the beginning date of the 30-day period in 30 CFR Part 290 for the filing of an appeal relative to an order or decision.

Legal Authority: 43 USC 1335

CFR Citation: 30 CFR 256

Abstract: This rulemaking would amend current regulations requiring lessee surety bonds. The monetary value of surety bonds designated in current regulations was established over a decade ago and is seriously inadequate to protect the government from loss due to lessee failure to meet the terms of the OCS lease for royalty payments, proper abandonment of wells, site cleanup, and ongoing lease operations. Bond requirements may be increased on a case-by-case basis, as an alternative to rule change. This might result in inconsistent requirements. The potential costs are whatever increase is incurred in obtaining a higher value bond. Benefits would be a reduced potential for government loss and a greater protection of the public interest.

Abstract: Because royalty payments are a major source of income to many Indian allottees, and the only source in some instances, it has been a longstanding Department of the Interior policy that overpayments made by lessees and other royalty payors to Indians cannot be recovered by refund. This policy was established to prevent an undue financial burden on Indian allottees who may have limited financial means to refund the overpayment. However, the adopted policy permits lessees and payors to recoup overpayments as a credit against future rental or royalty accruals due to Indian tribes or allottees. Lessees and operators were instructed to follow this recoupment policy in "Notice to Lessees and Operators of Indian Oil and Gas Leases No. 1A" (NTL-1A), issued by the Conservation Division of U.S. Geological Survey in 1977. The MMS published revised final oil and gas product valuation regulations at 30 CFR Part 206 on January 15, 1988 (53 FR 1184 and 53 FR 1230), effective March 1, 1988. Section 206.150(e)(2) of the revised regulations terminated NTL-1A. Although the Indian lease overpayment recoupment policy has been the same for many years, MMS believes that its (cont)

Abstract: The rules at 30 CFR 250.126 on the manufacture of safety and pollution-prevention equipment (i.e., surface and subsurface safety valves) are being amended. The amendment would update the American National Standards Institute/American Society of Mechanical Engineers (ANSI/ASME) SPPE-1 standard from the 1985 edition to the 1988 edition and allow compliance with either the updated version of the ANSI/ASME SPPE-1 quality assurance (QA) program (1988 edition) or the proposed American Petroleum Institute (API) QA program (API Spec Q1 in combination with API Specs 14A and 14b). Other alternatives considered were not to amend the rule and to continue using ANSI/ASME SPPE-1 as the only type of certification for the QA program. The costs to lessees under the API program or the updated ANSI/ASME SPPE-1 program are not expected to be significantly different than the costs under the current program. If there is any cost difference, it is expected to be a reduction in cost since the use of the API program is an option to the use of the ANSI/ASME SPPE-1 program. Lessees would not be expected to choose the use of the more expensive of the approved QA programs.

1424. AMENDMENT OF DUAL ACCOUNTING REQUIREMENT IN GAS VALUATION REGULATIONS

Significance: Regulatory Program

Legal Authority: 25 USC 396 et seq; 25 USC 396a et seq; 25 USC 2101 et seq; 30 USC 181 et seq; 30 USC 351 et seq; 30 USC 1001 et seq; 30 USC 1701 et seq; 31 USC 9701; 43 USC 1301 et seq; 43 USC 1331 et seq; 43 USC 1801 et seq

CFR Citation: 30 CFR 206

Legal Deadline: None

Abstract: The existing regulations require that the value of certain processed gas that is not sold pursuant to an arm's-length contract shall be the greater of value determined by two different methods. The comparison of the two values is commonly referred to as "dual accounting." The dual accounting requirement results in the inconsistent valuation of gas depending on whether it is sold in an arm's-length or a non-arm's length situation. Regulation amendments are being developed which would eliminate the accounting for comparison requirement except where required by lease terms.

Legal Authority: 43 USC 1334; 30 USC 1751

CFR Citation: 30 CFR 290

Legal Deadline: None

Abstract: The final rule provides a grace period for filing of appeals of orders and decisions of Minerals Management Service officials. Existing rules required receipt of an appeal within 30 days of receipt of an order or decision. The final rule establishes a grace period whereby appeals are timely if received within 10 days after the end of the initial 30 days and there is evidence of transmittal within the 30 days. The rule allows more appeals to be considered and decided on their merits.

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 700.11; 30 CFR 870.11

Legal Deadline: None

Abstract: Section 528(2) of the Surface Mining Control and Reclamation Act of 1977, exempted from the requirements of the Act "the extraction of coal for commercial purposes where the surface mining operation affects two acres or less." On May 7, 1987, the President signed PL 100-34 which repealed the exemption. The rule action would remove the exemption provision from the regulations at 30 CFR 700 and 30 CFR 870.

Abstract: This rule will clarify that a permittee must obtain approval from the regulatory authority before ceasing coal mining operations on a permit that results in the delay of contemporaneous reclamation on areas which are incidental to, or necessary to facilitate, continued mining of the remaining coal reserves. The rule will state that an application to temporarily cease mining operations may be approved if the regulatory authority finds that recoverable coal reserves remain, that the bond is adequate, and that based on pre-approval inspection, the site is in compliance with all applicable requirements, including contemporaneous reclamation, drainage control, and structure certifications. Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

Legal Deadline: NPRM, Judicial. NPRM due 180 days from effective date of settlement agreed to in "Save Our Cumberland Mountains, Inc., et al., and Manuel Lujan, Jr., Secretary, US Department of the Interior, et al."

Abstract: The proposed rule will establish standards for review and rebuttal of presumptions regarding ownership and control relationships between permit applicants and violators as well as between permittees and violators. The rule will also specify requirements for verifying whether the ownership and control information specified on a permit application is complete, require use of OSM's applicant violator computer system and other available data by regulatory authorities when conducting violation

reviews and establish procedures for regulatory authorities to use in determining the status of outstanding violations. The rule will prescribe sanctions in cases where a permit applicant intentionally fails to provide complete or accurate ownership and control information. The rule will also require regulatory authorities to conduct an annual verification of certain ownership and control information for all permittees. In addition, the rule will specify measures for OSM to take should a state regulatory authority fail to implement these new requirements. Abstract: The rule will address the problem of contemporaneous reclamation of multiple seam mining, mountaintop removal sites. In multiple seam mining, contemporaneous reclamation is often delayed because coal from the last permitted seam is not removed in a timely manner. Abstract: The Surface Mining Act exempts mining operations that extract other minerals where coal does not exceed 16 2/3 percent of tonnage of minerals removed for sale. Evidence of abuse of this exemption has been identified. Proposed regulations would establish procedures to administer the exemption. The costs of compliance for these operations are undetermined. Benefits would be to the public in terms of protection of health, safety, and environment from detrimental effects of mining. Legitimate noncoal operators would be able to compete fairly with those operations now using the exemption to undersell their legitimate competitors.

Abstract: This proposed rule establishes guidelines for mining in certain military installations under the Mining Law of 1872, as amended, and for assuring the safe, uninterrupted, and unimpeded use of the lands for military purposes. The Military Lands Withdrawal Act of 1986 specifically provided for certain military lands previously withdrawn from mining to be considered for opening to the operation of the Mining Law of 1872, as amended, with certain special restrictions. Military Lands identified as suitable for mining through the Bureau of Land Management's planning system are proposed to be opened on the effective date of an opening order that will be published in the Federal Register.

1504. NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 42 USC 6103

CFR Citation: 28 CFR 42, Subpart I (New)

Legal Deadline: None

Abstract: This regulation will implement the Age Discrimination Act of 1975, as amended, in programs or activities assisted by the Department of Justice (DOJ). The statute, 42 USC 6103(a)(4), requires that Federal agencies providing Federal financial assistance promulgate implementing regulations consistent with the general regulations issued by the Secretary of Health and Human Services (HHS), and the statute provides that such agency regulations shall not be effective until approved by HHS. In 1980 the proposed rule was published for comment, modified, approved by the DOJ Office of Legal Counsel, and on November 10, 1980 a draft final rule was forwarded to HHS for approval. On July 13, 1984 HHS conditionally approved the draft regulation. On August 12, 1987 DOJ submitted to HHS a draft final regulation.

Legal Deadline: None

Abstract: This notice announces the intent of the Immigration and Naturalization Service ("the Service") to set forth, in regulatory form, the special requirements for admission, extension and maintenance of status of nonimmigrant alien visitors for business and visitors for pleasure. Much of the Service's written policy relating to this subject is now contained in the Service's Operations Instructions at O.I. 214.2(b). Because it is more appropriate for interpretations and rules to be set forth in regulatory form, this information will become part of 8 CFR 214. In addition, the proposed rulemaking will clarify the criteria for according B-1 classification to members of certain occupations (such as participants in religious programs and members of foreign film crews). By issuing this advance notice, the Service is providing an opportunity to the public to submit comments and make suggestions at an earlier stage of the process. This will result in a proposed rule which is more comprehensive in its scope and more understandable to the public.

Abstract: The Immigration Reform and Control Act of 1986 (IRCA) imposes sanctions against employers who hire aliens not authorized to work. Since many of the Nation's agricultural employers have become dependent upon such workers to meet production and harvesting needs, Congress created the Special Agricultural Workers (SAW) Program and the Replenishment Agricultural Workers (RAW) Program to provide permanent resident status to certain agricultural workers. To clarify the process through which employers can employ nonimmigrant seasonal and temporary agricultural workers, Congress moved agricultural employment from H-2 classification into a separate H-2A class, and

incorporated a labor certification process into the statute. This interim rule establishes special H-2A regulatory criteria. It supplements the Department of Labor's rules covering the temporary agricultural labor certification process. This rule amends Service regulations relating therefore to temporary alien workers seeking classification under section 101(a)(15)(H) of the Immigration and Nationality Act.

Abstract: The Immigration and Naturalization Service ("the Service") entertains numerous requests for verification of information from INS Service Records, via Form G-641. This form has been misused as a substitute document, while other INS documents are being prepared (i.e., I-94, I-551 or Certificate of Naturalization or Citizenship). Should an applicant need to have his or her status verified while waiting for one of these documents to be processed, and such verification can be satisfied by obtaining a copy of a document (certified if necessary), an FOIA/PA request can be made. If verification is needed to obtain a benefit and a copy will not suffice, the agency needing verification can make a direct request to the INS and it will be handled as appropriate.

CFR Citation: 8 CFR 103.7

Legal Deadline: None

Abstract: This rule proposes to amend the existing fee schedule of the Immigration and Naturalization Service and the Executive Office for Immigration Review (EOIR). These changes are necessary to place the financial burden of providing special services and benefits which do not accrue to the public at large on the recipients of these special services and benefits. Charges have been adjusted to more nearly reflect the current recovery cost of providing these special services and benefits, taking into account public policy and other pertinent facts.

CFR Citation: 8 CFR 103.1; 8 CFR 103.3; 8 CFR 103.4; 8 CFR 103.5

Legal Deadline: None

Abstract: The regulatory action deals with appeals, precedent decisions, certifications, and motions. It would have a beneficial impact on the public by increasing the time periods for submission of certain appeals and briefs and making requirements easier to understand. It would have a beneficial impact on the Service by increasing the number of complete appeals filed with any supporting briefs and streamlining the Service's review of certain decisions. It would also change the title of the Chief, Administrative Appeals Unit to Director, which would have a negligible impact.

Legal Authority: 8 USC 1101; 8 USC 1158; 8 USC 1253

CFR Citation: 8 CFR 208

Legal Deadline: None

Abstract: The provisions of 8 CFR 208.10 are amended to make certain grounds for the mandatory denial of asylum claims, such as an alien's conviction of a particularly serious crime in the United States, directly applicable and binding on applications for asylum that are filed during deportation or exclusion proceedings. The rule also clarifies the authority of immigration judges to deny an application for asylum or withholding of deportation for mandatory reasons without an unnecessary evidentiary hearing into other aspects of an alien's case.

Legal Authority: PL 99-603, sec 121; PL 100-503

CFR Citation: None

Legal Deadline: Other, Statutory. Notice must be published by 12/31/89.

Abstract: Agreements between INS and State agencies using an automated "computer-matching" process to access INS's SAVE data base to verify the immigration status of alien applicants for specified entitlement benefits pursuant to Section 121 of IRCA. The Computer Matching Act applies to certain computerized comparisons of information in a Federal agency's automated system of records with the automated records of another organization, and provides procedural requirements and safeguards for any information obtained through any type of information exchange which is defined as a "computer-matching" program under that law. A "matching agreement" between the organizations is also required. Six State agencies were determined to be using as of June 1, 1989, a type of automated access method in conducting SAVE-related verifications that subjects them to the provisions of the Computer Matching Act.

1574. ● BURDEN OF PROOF FOR APPLICANTS FOR REFUGEE STATUS

Legal Authority: 8 USC 1101; 8 USC 1103; 8 USC 1158; 8 USC 1182; 8 USC 1186a; 8 USC 1251; 8 USC 1252; 8 USC 1254; 8 USC 1362

CFR Citation: 8 CFR 208; 8 CFR 242

Legal Deadline: None

Abstract: This rule clarifies the burden of proof for applicants for refugee status, withholding of deportation and asylum by establishing that an alien fleeing coerced population control policies of forced abortions or sterilization may be considered to have a clear probability for withholding of deportation or well-founded fear of persecution (for asylum) on account of political opinion.

Abstract: Section 6486 of the Anti-Drug Abuse Act of 1988, Pub. L. 100-690, (hereinafter the Act) 21 U.S.C. 844(a), provides for civil penalties for the possession of small amounts of certain controlled substances. In order to implement this provision, this proposed rule sets forth the procedures to be followed in all matters brought before Administrative Law Judges when a complaint is filed seeking a civil penalty from a respondent who has violated this provision of the Act. The proposed rule will also provide notice to respondents and, where appropriate, their counsel, as to the rules of procedure that will be followed by Administrative Law Judges and United States Attorneys when their respective cases are heard.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual agenda of regulations selected for review or development.

SUMMARY: This document sets forth the Department's semiannual agenda of regulations, which has been selected for review or development during the coming 1-year period. The agenda complies with the requirements of both Executive Order 12291 and the Regulatory Flexibility Act.

DATES: The agenda includes all regulations which are expected to be under review or development between April 1990 and April 1991.

FOR FURTHER INFORMATION CONTACT: Roland G. Droitsch, Deputy Assistant Secretary for Policy, Office of the Assistant Secretary for Policy, Department of Labor, 200 Constitution Avenue NW., Room S-2312, Washington, DC 20210, (202) 523-9058.

Note: Information pertaining to a specific regulation can be obtained from the agency contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12291 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations.

Executive Order 12291 became effective February 17, 1981, and in substance, requires the Department of Labor to publish an agenda listing all the regulations it expects to have under active consideration for promulgation, proposal, or review during the coming one-year period. It also requires the Department to conduct a Regulatory Impact Analysis for all "major" regulations being developed.

The Regulatory Flexibility Act became effective on January 1, 1981. It applies only to regulations for which a notice of proposed rulemaking was issued on or after January 1, 1981, and requires the Department of Labor to publish an agenda listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602). For any regulation that will have this impact, the Department must conduct a Regulatory Flexibility Analysis to gauge the economic consequences of the rule and to analyze the availability of more flexible approaches for lightening the rule's regulatory burden on "small entities."

If a proposed regulation will not have a "significant economic impact on a substantial number of small entities," the Department of Labor must publish a certification to that effect at the time of the general notice of proposed rulemaking or at the time of the publication of the final rule. That certification must be accompanied by a succinct statement explaining the reasons for the agency's determinations.

As permitted by law, the Department of Labor is combining this publication of its agendas under the Regulatory Flexibility Act and Executive Order 12291.

The regulatory reform process, of which the Unified Agenda is a part, continues to be an extremely valuable aid in the development of better regulations by the Department. We believe that our regulatory reform program has resulted in improved regulatory management, more clearly written regulations, and significantly less burdensome regulations.

Further improvement is certainly needed, and we are constantly seeking new and innovative approaches in pursuit of this goal. All interested members of the public are invited and encouraged to let departmental officials know how our regulatory reform process can be further improved and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

The Department of Labor's next semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, will be published in October 1990.

Elizabeth Dole,

Secretary of Labor.

Legal Authority: 41 USC 35 et seq Walsh-Healey Act; 41 USC 351 et seq Service Contract Act; 29 USC 651 et seq Occupational Safety and Health Act; 30 USC 801 et seq Mine Safety and Health Act; 5 USC 553 Administrative Procedure Act; 20 USC 951 et seq

CFR Citation: 41 CFR 50 to 204; 29 CFR 1910 to 1919; 29 CFR 1924; 29 CFR 1925; 30 CFR 1 to 199

Legal Deadline: None

Abstract: Part 50-204 of 41 CFR contains safety and health standards for Federal supply contracts under the Walsh-Healey Act. These standards, which also apply to Federal contracts for services under the Service Contract Act, were adopted in 1969, and were last revised in 1971. Many of the standards in Part 50-204 are duplicative of standards found in other Department of Labor regulations, primarily those issued under the Occupational Safety and Health Act (OSHA) in 29 CFR Parts 1910-1919, and the Mine Safety and Health Act (MSHA) in 30 CFR. In addition, other OSHA and MSHA standards have been revised and updated considerably since 1971, and these changes are not reflected in Part 50-204. Because employers covered by the Walsh-Healey and Service Contracts Acts are also covered by OSHA and MSHA, and thus are already required to comply with the OSHA and MSHA standards, as applicable, the Department of Labor is considering whether or not the Walsh-Healey standards should be revised by deleting redundant provisions and by substituting appropriate references (cont)

This would clarify that the safety and health standards applied to employers under Federal supply and service contracts are the same standards which apply to them under OSHA and MSHA, and that revisions or updates of OSHA and MSHA standards also apply under the Walsh-Healey and Service Contract Acts.

1606. METHODOLOGY FOR DETERMINING THE SHORTAGE NUMBER UNDER SECTION 210A OF THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED BY THE IMMIGRATION REFORM AND CONTROL ACT OF 1986

Significance: Agency Priority

Legal Authority: 8 USC 1161

CFR Citation: 29 CFR 503

Legal Deadline: Final, Statutory, September 30, 1989.

Abstract: Section 210A of the Immigration and Nationality Act requires that the Secretaries of Agriculture and Labor determine the number (if any) of additional aliens who should be admitted to the U.S. or who should otherwise acquire the status of aliens lawfully admitted for temporary residence, to meet a shortage of workers to perform seasonal agricultural services. The "shortage number" so determined is the basis upon which the Immigration and Naturalization Service will admit such workers during fiscal years 1990 through 1993.

Significance: Regulatory Program

Legal Authority: 29 USC 203

CFR Citation: 29 CFR 570

Abstract: Section 3(1) of the Fair Labor Standards Act requires the Secretary of Labor to issue regulations with respect to minors between 14 and 16 years of age ensuring that the periods and conditions of their employment do not interfere with their schooling, health, or well-being. The Secretary also is directed to designate occupations that may be particularly hazardous for minors 16 and 17 years of age. Child Labor Regulation No. 3 sets forth the permissible industries and occupations in which 14 and 15 year olds may be employed. In addition, this regulation specifies the number of hours in a day and in a week, and time periods within a day that such minors may be employed. The nonagricultural hazardous occupations orders which prohibit the employment of minors in such occupations are also contained in 29 CFR 570. Changes in technology and job content over the years require a review of the regulations to ensure the safety and health of such minors and at the same time avoid unnecessary restrictions on their employment opportunities. The Department has established a Child (cont)

Additional Information: ABSTRACT CONT: Labor Advisory Committee to advise the Secretary on the effective administration of the child labor provisions of the FLSA. The recommendations of the committee will be given careful consideration in the review of these regulations. The committee convened on March 9-10, 1988, at which time subcommittees were established to review Hazardous Order (HO) No. 2 (Motor Vehicle Operations), HO No. 10 (Slaughtering and Meat Packing), and Child Labor Regulation No. 3. Since that time, two additional subcommittees were established to review HO No. 11 (Bakery Machines) and HO No. 12 (Paper Products Machines). The full committee met on May 11, 1989 to receive reports and make recommendations. The review of recommendations from the October 1988 and May 1989 meetings will be completed by early 1990. The Committee's charter was renewed until August 5, 1991, to enable it to continue its study of the regulations. (54 FR 35540)

Significance: Regulatory Program

Legal Authority: 29 USC 213(a)(1)

CFR Citation: 29 CFR 541

Legal Deadline: None

Abstract: These regulations set forth the criteria used in the determination of the application of the Fair Labor

Standards Act exemption for "executive," "administrative," "professional" and "outside sales employees" from the minimum wage and overtime requirements of the Act. The existing regulation was targeted for review by the President's Task Force on Regulatory Relief. A final rule increasing the salary test criteria was published on 01/13/81 (46 FR 3010) and was scheduled to become effective on 02/13/81. On 02/12/81 (46 FR 11972) an indefinite stay of the final rule was published. On 03/27/81 (46 FR 18998) a proposal to suspend the final rule indefinitely was published with comments due by 04/28/81. As a result of numerous comments and petitions received from industry groups regarding the duties and responsibilities tests as set forth in the regulations, as well as recent case law developments, the Department concluded that a more comprehensive review of these regulations was needed and decided to reopen the comment period and broaden the scope of the review to include all aspects of the regulations. An ANPRM was published on 11/19/85 and its comment period was (cont)

Abstract: This proposal would, among other things, incorporate 1978 and 1980 statutory amendments to definitions applicable to Section 503 of the Rehabilitation Act and to the Veterans' programs. However, since 1981 there have been additional amendments to the Rehabilitation Act and to the Vietnam Era Veterans' Readjustment Assistance Act affecting definitions applicable under the respective programs. All such statutorily required changes to the definitions would be incorporated into the proposed regulatory action contemplated under RIN - 1215-AA01.

Significance: Agency Priority

Legal Authority: 5 USC 8101 et seq

CFR Citation: 20 CFR 10.411

Legal Deadline: None

Abstract: The Office of Workers' Compensation Programs (OWCP) in 1986 implemented a fee schedule for charges made under the Federal Employees' Compensation Act (FECA) by physicians. The fee schedule specifically excluded hospitals, nursing homes and pharmacies from coverage. In the intervening years, it has been shown that some hospitals are performing many of the same services as those which, when performed by physicians are covered by the fee schedule. The result is that different amounts may be paid for exactly the same service. OWCP proposed to end this inequity by extending to hospitals the fee schedule for those services which are similar to those provided by physicians.

1612. EMPLOYMENT OF HOMEWORKERS IN CERTAIN INDUSTRIES

Significance: Regulatory Program

Legal Authority: 29 USC 211

CFR Citation: 29 CFR 530

Legal Deadline: None

Abstract: This regulation sets forth restrictions on industrial homework and governs the issuance of certificates authorizing the employment of homeworkers in certain industries, pursuant to Section 11(d) of the Fair Labor Standards Act (FLSA). As originally issued, these regulations restricted the employment of industrial homework in seven industries: knitted outerwear; women's apparel; jewelry; buttons and buckles; gloves and mittens; handkerchiefs; and embroideries. The ban was removed on homework in the knitted outerwear industry by the Department on 11/9/81, following extensive hearings and public comment. This action was subsequently upheld by the District Court for the District of Columbia. However, on appeal the ban was reimposed 2/29/84 by the U.S. Court of Appeals for the District of Columbia Circuit. On 3/27/84 the Department published a proposed rule rescinding the ban on homework in the knitted outerwear industry only. In addition to soliciting comments on the proposed rescission, the Department sought comments on various alternatives to such action (49 FR 11786). On 11/5/84, a final rules was published lifting the ban on homework for (cont)

Based on analysis of the results of its enforcement experience under the new certification procedure, and review of comments from a Notice of Proposed Rulemaking published on August 21, 1986 (51 FR 30036), a proposal was published on March 30, 1988 (53 FR 10342) which included enforcement mechanisms to enhance compliance among employers of homeworkers. The comment period was later extended to May 13, 1988 (53 FR 15063). The proposal also excluded the women's apparel industry and stated that this industry would be the subject of separate rulemaking. A final rule was published November 10, 1988 (53 FR 45706). An ANPRM concerning women's apparel homework was published December 30, 1988 (53 FR 53344). Public hearings on this issue were held in seven cities during March and April 1989. The public comment period on the ANPRM closed on May 5, 1989. Abstract: The 1989 Amendments to the Fair Labor Standards Act (FLSA) contain a provision which allows employers to employ workers for not more than 10 hours in a work week in excess of the 40-hour maximum standard without payment of overtime compensation, if during such period(s) the employees receive remedial education that: (1) is provided to employees who lack high school diplomas or educational attainment at the eighth grade level; (2) is designed to provide reading and other basic skills at an eighth grade level or below: and (3) does not include job-specific training. Minor revisions to existing regulations on overtime compensation and recordkeeping will be made to conform with this provision of the law. ESA will issue a notice of proposed rulemaking to correspond with the statutory changes in overtime compensation. Final regulations will be issued following review of the public comments received.

Abstract: This proposed rule would amend the Walsh-Healey Public Contracts Act regulations to provide an alternative regular dealer definition applicable to information systems integration businesses which bid on contracts to furnish the government fully operational information processing ("ADP") systems. The alternative definition would relieve potential contractors in this industry from having to physically maintain inventories from which sales are made, a custom that is inconsistent with this industry's practices. A proposed rule was published on June 22, 1989 inviting public review and comment. Two comments were received during the comment period which ended July 24, 1989 (54 FR 2612). In addition, in November 1989, the Subcommittee on Legislation and National Security of the Committee on Government Operations, U.S. House of Representatives, held a series of hearings on the Federal Government's purchase of ADP equipment which included a review of some procurements awarded to systems integrators. Based on information from these hearings, it was decided to reopen the comment period (cont)

Abstract: The Fair Labor Standards Amendments of 1989 were enacted on November 17, 1989. Among other provisions, the amendments provide that employers may pay employees under the age of 20, under certain conditions, a wage rate of at least 85 percent of the minimum wage, but not less that $3.35 per hour, for a period up to 90 days. An employee who has been paid at the training wage for 90 days can be employed by any other employer at the training wage an additional 90 days, but only if that employer provides on-the-job training in accordance with regulations required to be issued by the Department of Labor. The training wage provisions take effect April 1, 1990 and expire March 31, 1993. The statute provides that the Secretary of Labor shall issue regulations containing criteria for what qualifies as on-the-job training, and for defining what constitutes the requisite proof of previous periods of employment with other employers that is required to be provided by employees. Abstract: These regulations are being developed to implement the benefit provisions contained in Sec. 43 of the Airline Deregulation Act of 1978. The Act requires the Secretary of Labor to specify the percentage of prior salary which an "eligible protected employee" would receive as a benefit payment under the Act. An eligible protected employee is a person who has had at least 4 years of employment with a certificated air carrier as of October 24, 1978 and who loses his or her job during the ten years following such date in a bankruptcy or major employment contraction if and only if the Department of Transportation determines that the principal causes of such job loss was deregulation. On May 17, 1984 the U.S. District Court for the District of Columbia held that Section 43 of the Airline Deregulation Act was unconstitutional. On July 16, 1985, the U.S. Court of Appeals decided that the employee protection provisions of Section 43 were severable from the legislative veto provisions. Abstract: Since 1981, Congress has enacted major changes in the Federal Unemployment Tax Act (FUTA) and Social Security Act (SSA) with respect to advances to States for the payment of unemployment insurance and the repayment of such advances and interest thereon. Promulgation of comprehensive regulations is being undertaken in two phases. The proposed rule will replace instructions contained in several Unemployment Insurance Program Letters approved under OMB No. 1205-0199 expiring October 31, 1990. Abstract: Before the Department of State (DOS) and the Immigration and Naturalization Service (INS) may issue visas and admit certain immigrant aliens to work permanently in the United States, the Secretary of Labor pursuant to Section 212(a)(14) of the Immigration and Naturalization Act (INA) must certify to the Secretary of State and to the Attorney General that: (a) There are not sufficient United States workers who are able, willing, qualified and available at the time of the application for a visa and admission into the United States and at the place where the alien is to perform work; and (b) The employment of the alien will not adversely affect the wages and working conditions of similarly employed U.S. workers (8 USC 1182(a)(14)). The Department of Labor (DOL) has promulgated regulations at 20 CFR Part 656 pursuant to and to implement section 212(a)(14) of the INA (8 USC 1182(a)(14)). These regulations set forth the fact finding process designed to support the granting or denial of a permanent labor certification. Experience in (cont)

Significance: Regulatory Program

Legal Authority: 29 USC 50 The National Apprenticeship Act; 40 USC 276; 5 USC 3301

CFR Citation: 29 CFR 29 (Revision)

Legal Deadline: None

Abstract: ETA has undertaken a review of the Apprenticeship system to determine the role of apprenticeship in meeting America's future needs for a skilled work force. The Apprenticeship 2000 review, through research, review of existing materials and related programs, is considering alternative ways to strengthen and expand apprenticeship and related training programs. Existing regulations governing apprenticeship programs may be revised to: 1) improve the existing programs ability to produce skilled workers to meet demands in the industries where it is now prevalent; and 2) expand the apprenticeship concept of training to fill the needs for skilled workers in additional industries.

Significance: Agency Priority

Legal Authority: Not Yet Determined

CFR Citation: 20 CFR 601; 29 CFR 96; 29 CFR 97; 29 CFR 98

Legal Deadline: None

Abstract: This proposed rule would replace outdated administrative regulations for the unemployment insurance (UI) program grants to States with reference to more current common administrative requirements for State governments codified elsewhere by the Department of Labor (DOL). Because of certain unique needs of the UI program, this action would also cover UI program exceptions to these requirements and clarifications of Employment and Training Administration (ETA) policy in applying requirements to State grantees. As a result, the proposed rule is expected to aid States in understanding and complying with the requirements.

Abstract: Governors are responsible for resolving audits of their JTPA subgrantees and subcontractors. Current ETA policy requires federal review and approval of these resolutions only in cases of fraud, gross mismanagement and abuse. More routine audit resolutions are only reviewed on a sample basis during onsite compliance reviews. However, a recent legal opinion stated that the JTPA regulations as presently written could be construed as requiring federal review and approval of all Governors' audit resolutions. Significance: Regulatory Program

Legal Authority: 29 USC 1132

CFR Citation: 29 CFR 2570.80, Procedural; 29 CFR 2560.502(l)-l, Substantive

Legal Deadline: None

Abstract: Section 502(l) requires the Secretary of Labor to assess a civil penalty against a fiduciary who breaches or commits a violation of part 4 of Title I of ERISA, or any other person who knowingly participates in such breach or violation by any other person. In order to implement this statutory provision, the Department of Labor intends to promulgate two regulations. The first regulation is an interim rule setting for the procedures for the assessment of penalties under ERISA section 502(l) and for petitioning the Secretary to exercise his or her discretion to waive or reduce the mandated assessment. The second regulation is a proposed rule that defines the following pivotal terms contained in section 502(l): "applicable record amount", "breach of fiduciary

responsibility or violation", and "settlement agreement" or "court order."

Legal Authority: 29 USC 1021

CFR Citation: 29 CFR 2520.101

Legal Deadline: None

Abstract: Section 101(d) provides that when an employer maintaining a plan other than a multiemployer plan fails to make a required installment or other payment required to meet minimum funding standards under section 302 to a plan before the 60th day following the due date, the employer shall notify each participant and beneficiary of such failure. Section 101(d) also provides that the notice shall be made at such time and in such manner as the Secretary shall provide. Because OBRA 1989 added section 502(c)(3) of ERISA to permit the imposition of substantial penalties upon employers who fail to give the notice required by section 101(d), there will be an increased need for regulatory guidance by the Secretary as to the time and manner in which notice under 101(d) must be provided.

Significance: Agency Priority

Legal Authority: 29 USC 1135; 29 USC 1112

CFR Citation: 29 CFR 2580

Legal Deadline: None

Abstract: The proposed regulation is intended to provide an exemption from the bonding requirements of Section 412 (a) of ERISA for certain broker dealers and investment advisers who handle plan assets if the proposed regulation's alternative bonding requirements are met. If adopted, the regulation would permit broker-dealer and their investment adviser affiliates to substitute the fidelity bond required by the self-regulatory organizations of which they are members, subject to a minimum level of coverage, for the bond otherwise required by Section 412 of ERISA.

Abstract: The problem of hearing impairment among miners has become of increasing concern to MSHA. Many miners are consistently exposed to noise levels that are near maximum levels currently permitted by MSHA. As a result, miners may be suffering hearing impairments, notwithstanding existing MSHA noise standards. MSHA intends to use comments and information submitted in response to the December 1989 ANPRM to develop a proposed rule which would establish similar noise standards to apply to coal mining and metal/nonmetal mining.

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 16

Legal Deadline: None

Abstract: This standard would establish requirements for the MSHA testing, evaluation and approval of electric detonators for use in underground coal mines and certain metal and nonmetal gassy mines. At the present time there are no industry-wide standards to establish minimum performance requirements for detonators. Regulations governing the technical characteristics and performance of detonators would ensure compatibility for safe use with approved blasting units and approved explosives as required by underground coal mine standards. Some imported detonators that have entered the market during the past few years require an initiating current that exceeds the tested capacity of MSHA approved blasting units making them incompatible with approved blasting units. Other detonators tested by the Bureau of Mines showed reduced no-fire current levels which present a greater sensitivity to stray electrical current and could result in premature detonation.

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 48

Legal Deadline: None

Abstract: Construction workers and independent contractors are often present on the mine property as a result of contractual agreements with the mine operator. Because of hazards inherent to their work or caused by association with mining activities, these workers need appropriate training to avoid accidents and injuries. MSHA is reviewing reports of mine construction and independent contractor fatalities and injuries. This review will help the Agency determine what training requirements are needed for these workers. The Federal Mine Safety and Health Act requires the Secretary to

DOL—MSHA

promulgate standards for training mine construction workers.

The regulation will affect persons performing construction work on mine property including shaft and slope sinking. Because construction workers and independent constractors generally work at multiple mine sites and have other similarities in training needs it is anticipated that independent contractor training will be addressed in a new Subpart C of 30 CFR Part 48.

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 100

Legal Deadline: None

Abstract: Under sections 105(c) and 110 of the Federal Mine Safety and Health Act of 1977, MSHA is required to assess a civil penalty for all violations of the Act and mandatory safety and health standards. In May 1982, MSHA issued revised civil penalty regulations that included a provision for assessment of $20.00 single penalty for non-significant-and-substantial (non-S&S) violations that are timely abated. In November 1989, the United States Court of Appeals for the District of Columbia ordered MSHA to revise its civil penalty regulations and take immediate interim steps to correct the assessment system. The Court retained jurisdiction of the case to consider the issues after its remand. On December 29, 1989, pursuant to the Courts order, MSHA (1) temporarily revised its assessment policies to instruct is field personnel to review non-S&S violations involving high negligence and an excessive history of the same type of violation for possible special assessment under 30 CFR 100.5; and (2) temporarily suspended the sentence in 30 CFR 100.3(c) which excludes timely paid single penalty assessments from an operator's history of violations for regular assessment (cont)

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 18; 30 CFR 7

Abstract: Conveyor belts are the leading cause of fires in underground coal mines. These mines often use many miles of conveyor belts. The remote location of the belts can allow fires to start and spread to the coal before they are detected. MSHA has developed a new more stringent test to evaluate the flame-resistance of conveyor belts. Belts passing the revised test would be resistant to ignition and to flame propagation. 1674. ● WATERLINES IN BELT CONVEYOR ENTRIES

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 75.1100-2(b)

Legal Deadline: None

Abstract: Current regulations require waterlines be installed along all belt conveyors with nozzles installed at least every 300 feet. Potential firefighting problems exist, however, when air used to ventilate belt conveyor entries moves in an outby direction. Waterlines that are installed in belt entries where air is moving outby would be exposed to the fire outby the area where water is needed. Heat from the fire could melt or otherwise damage the waterline, necessitating the installation of a separater waterline around the fire delaying the firefighting effort. The National Fire Protection Association (NFPA) in its current committee proposal states that the operator can install waterlines in any entry and recommends that the water flowing through the lines be in the same direction as the ventilating air current. MSHA proposes to revise the current regulations pertaining to waterlines for underground belt conveyors to require installation similar to that proposed by the NFPA.

Abstract: The use of carbon monoxide monitoring systems in underground coal mines can be effective in monitoring mine atmospheres to detect fires in the early stages of development. If mine operators are dependent on these systems for early fire detection, minimum performance criteria are necessary to ensure proper performance. The Agency intends to propose approval requirements for these systems for use in underground coal mines.

1677. PATTERN OF VIOLATIONS

Significance: Regulatory Program

Legal Authority: 30 USC 814(e); 30 USC 957

CFR Citation: 30 CFR 104

Legal Deadline: None

Abstract: This rulemaking would implement section 104(e) of the Federal Mine Safety and Health Act of 1977 which addresses mines with a pattern of repeated, significant and substantial violations. The final rule will include both appropriate criteria and a meaningful procedure for identifying operators who are potential pattern violators. The costs of the regulations would primarily bear upon individual

mine operators receiving pattern notices. Any costs that the mine operator would incur to comply with other Federal standards would be attributed to those standards. The primary benefit of the pattern of violators provisions would accrue to workers at mines where the mine operator has shown a disregard for their safety and health by allowing the same work hazards to repeatedly occur without addressing the underlying problems. Hearings were held in November 1989.

Legal Deadline: None

Abstract: MSHA's proposal would substantially reorganize, clarify, and update existing electrical standards for underground coal mines. General incorporations by reference of the National Electric Code would be eliminated and replaced with specific standards applicable to underground coal mining operations. The proposal addresses a wide range of hazards related to the use of electric-powered equipment. In developing the proposal MSHA analyzed: (1) accident and injury data to determine the causes and rate of accidents involving electricity and the need to revise standards to prevent future accidents; (2) variances granted to determine whether alternative methods of compliance could be included in the standards; (3) nationally recognized consensus standards, including the National Electrical Code, for applicability to underground coal mines; and (4) litigation cases related to the Agency's enforcement efforts to determine where clarified standards could improve compliances, (5) public comments submitted on the Agency's 1986 ANPRM on underground electrical standards.

Abstract: The Agency published a proposed rule concerning ventilation in underground mines which included provisions for the introduction of new technology for systematic monitoring of explosive methane gas, as well as gases that may indicate a mine fire. Other important issues include ventilation of worked-out areas: timeframes for tests for methane. In August 1989, MSHA issued a report on belt conveyor entry ventilation and requested comments on the findings of the report as they related to the ventilation proposal. The existing escapeway standards contained in 30 CFR Part 75.1704 are incorporated into the proposal.

Abstract: On November 18, 1988, the Mine Safety and Health Administration (MSHA) published a final rule (53 FR 46768) to revise its safety standards for explosives and blasting in underground coal mines. Prior to the effective date, MSHA stayed 30 CFR 75.1325(b) which restricts blasting to only one face in a working place to allow further review of single versus multiple face blasting. MSHA's proposed rule would allow multiface blasting under limited conditions; recognize an alternative method of giving experience for blasting certification; and clarify a provision concerning precautions to be taken with electrical equipment in blasting areas.

Significance: Regulatory Program

Legal Authority: 30 USC 811; 30 USC 957

Abstract: MSHA has an established mining equipment approval program which includes evaluation criteria and corresponding safety standards requiring the use and maintenance of approved equipment. However, existing approval regulations do not generally apply to the diesel-powered equipment now being used in coal mines. In July 1988 an Advisory Committee convened by the Secretary of Labor made recommendations to the Secretary concerning standards for the use of diesel-powered equipment in underground coal mines. Based on those recommendations, MSHA has published a proposed rule that addresses the approval of components and standards for its use, including monitoring requirements for certain diesel emissions. The Advisory Committee also recommended that an approval program be established for equipment safety features beyond the basic engine and power package. These features could include such components

as the fuel system, exhaust gas dilution system, electrical system, braking system and fire suppression system. With the proposal, MSHA published an ANPRM requesting comment on what approach should be taken on the recommendations.

Abstract: MSHA is reviewing its radiation standards for underground metal and nonmetal mines and has identified certain issues with respect to regulatory action. The Agency published a proposal in December 1986 revising its existing ionizing radiation standards. Public hearings were held in August 1987. Extensive testimony was presented during the public hearings. The rulemaking also takes into account the receipt of the NIOSH criteria document in October 1987 and recently promulgated EPA regulations concerning underground emissions of radionuclides.

Abstract: Under the 1977 Mine Act, MSHA and the National Institute for Occupational Safety and Health (NIOSH) jointly approve respirators for use in hazardous atmospheres. New technology has been developed which would not be allowed by the existing regulations. NIOSH will have the lead role in approval of respirators. Abstract: MSHA's proposed rule incorporates permissible exposure limits which are applicable to the hazards encountered in metal and nonmetal mines and coal mines. The proposal solicits comments on updating permissible exposure limits and methods of controlling such limits. Permissible exposure limits and standards for use of respiratory protective equipment would replace outdated incorporations by reference. The proposal would also update asbestos standards. Other issues being considered are: requirements for exposure monitoring; precautions for handling restricted-use chemicals; notification to workers of overexposure; miner access to exposure monitoring records; medical surveillance and transfer of miners required to use respirators and miners using certain carcinogens.

Abstract: On August 25, 1988 the Mine Safety and Health Administration (MSHA) amended its standard addressing the use of berms and guardrails on elevated roadways at metal and nonmetal mines. However, MSHA stayed the provision which allows an alternative to the use of berms or guardrails on elevated roadways for infrequently traveled roadways used by service or maintenance vehicles. MSHA's proposed rule addressed safety requirements necessary for such limited use roadways when berms or guardrails are not used.

Abstract: These proposed rules would reduce the information collection burden imposed by MSHA on mine operators or other affected parties by revising reporting and recordkeeping requirements. In most cases, paperwork requirements would be replaced with certification provisions. This rulemaking would examine whether recordkeeping burdens could be reduced in 30 CFR 49.6(b) which requires records of monthly inspections and tests of mine operators and equipment operators and one year; in 30 CFR 75.1714-3 which requires records of quarterly inspections and tests of self-contained self-rescue devices; in 30 CFR 75.1101-23(c)(1) which requires records of the participation of coal miners in quarterly fire drills and in 30 CFR 75.1713-3 and 77.1703 which concern first-aid training courses for selected supervisory employees.

Abstract: On January 27, 1988, the Mine Safety and Health Administration published a final rule for safety standards for roof, face and rib support in underground mines. Three of the final standards were challenged by the United Mine Workers of America (UMWA), in the case of International Union, Petitioner, v. Secretary of Labor, 870 F 2d 662 (D.C. Cir., 1989). In an opinion issued on March 10, 1989, the Court upheld one of the new standards and invalidated two, 30 CFR 75.204(a) and (b) and 30 CFR 75.213. By subsequent order May 17, 1989 the court vacated the two standards effective February 15, 1990. The final rule addresses the Court's concerns on these standards which relate to roof bolts and roof support removal.

1694. ADMINISTRATIVE GRANTS AND COOPERATIVE AGREEMENTS TO GOVERNMENT AND NONPROFIT INSTITUTIONS

Significance: Agency Priority

Legal Authority: OMB Circular A-110

CFR Citation: 29 CFR 97

Legal Deadline: None

Abstract: On March 11, 1988 a common final rule was published which implemented OMB Circular A-102, Administrative Requirements for Grants and Cooperative Agreements with State and Local governments. OMB and DHHS have prepared a proposed common rule and revised Circular A-110 to conform the grants management requirements for non-governmental grantees with government grants. The common rule already published on governmental grantees will be amended to incorporate non-governmental grants.

Abstract: The Nation's number one injury problem is back injuries. These injuries account for one of five compensation claims and one of four dollars expended for compensation. The purpose of the proposed request for comments and information is to enable OSHA to determine a course of action--possibly either rulemaking or informal guidance-aimed at reducing the number of back-related injuries which result from improper manual lifting. The request will identify a number of approaches to improving manual lifting, and invite public comments and suggestions. Specific engineering and administrative controls should reduce the pain, suffering, and lost time of the workforce as well as reduce the associated economic costs.

Significance: Regulatory Program

Legal Authority: 29 USC 653; 29 USC 655; 29 USC 657

CFR Citation: 29 CFR 1990

Legal Deadline: None

Abstract: The Carcinogen Policy describes the criteria and procedures OSHA will use to identify, classify, and then regulate carcinogens. The Policy also establishes a process for screening chemicals and for setting priorities for potential rulemaking activities. The Carcinogen Policy explicitly recognizes that periodic revisions are necessary in order to incorporate the latest scientific advances and techniques into the regulatory process. Hence, it is time for OSHA to review and modernize the carcinogen policy. The original standard was issued in 1980 before the Supreme Court "benzene" decision on significant risk. Thereafter, a final rule deleting provisions of the Carcinogen Policy that were inconsistent with the benzene decision was published on 1/19/81 (46 FR 4889). A proposal was published on 1/23/81 (46 FR 7402) to permit alternatives to the risk analysis section of the carcinogen policy to be addressed. The proposal was withdrawn on 3/27/81 (46 FR 19000). An advance notice of proposed rulemaking was published on 1/5/82 (47 FR 187) with comments due by 4/5/82. That document (cont)

Abstract: On June 20, 1986, OSHA issued revised standards governing occupational exposure to asbestos, tremolite, anthophyllite, and actinolite in general industry and in the construction industry. These standards replaced OSHA's previous asbestos standard promulgated in 1972. Since the issuance of the revised standards, OSHA has received letters and petitions, from both rulemaking participants and nonparticipants, that contain additional comments, assertions and information that the rulemaking record may not fully reflect. These

letters and petitions concern the appropriateness of regulating nonasbestiform tremolite, anthophyllite and actinolite as presenting the same health risk as asbestos. OSHA has granted a temporary stay of the effective dates of the current standards as they apply to nonasbestiform varieties of tremolite, anthophyllite and actinolite. This action was taken, in part, to enable the Agency to review letters and memoranda from the National Institute for Occupational Safety and Health as well as submissions by the R.T. Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.270

Legal Deadline: None

Abstract: Employees in oil and gas well drilling and servicing are exposed to a variety of safety hazards which are not specifically covered by present OSHA safety standards. It has proved difficult to apply the existing general industry standards to control the unique nature of this industry. OSHA is considering a standard which will address the unique problems of oil and gas well drilling and servicing. OSHA is reevaluating its proposed rule based on the public record and intends to reissue a proposed rule as the next action. Currently, OSHA is reviewing recent fatality and injury data trends to evaluate the priority of this project.

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1000, (Table Z-2); 29 CFR 1910.1028

Legal Deadline: None

Abstract: OSHA has amended its standard for occupational exposure to benzene by reducing the permissible exposure limit from 10 parts benzene per million parts of air (10 ppm) to an eight-hour time-weighted average of 1 ppm and by adding appropriate industrial hygiene and medical surveillance provisions necessary for the protection of employee health. This action is based on OSHA's determination that the amendments are needed to reduce the risk of leukemia and other adverse health effects associated with occupational exposure to benzene. OSHA published its final amendment to the standard on September 11, 1987. Due to technical problems associated with the completion of a detailed study of feasibility in barge and tanker cleaning and repair operations, however, OSHA exempted these operations from certain provisions of the standard. OSHA intends to issue a proposal to amend the benzene standard which will address the factors specific to the barge and tanker cleaning and repair industry.

Legal Deadline: None

Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards of cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because much of the current standard is out of date, there are problems with compliance. These revised requirements will provide both employers and employees with a blueprint for effective and safe workpractices in the cargo handling industry. No alternative other than revision is contemplated. The annual cost of the revision is expected to be minimal -- less than five million dollars.

Legal Deadline: None

Abstract: The present occupational health standard for formaldehyde was published on December 4, 1987 (52 FR 46168). In this standard, the Occupational Safety and Health Administration (OSHA) required hazard warning labels to be placed on containers of all products composed of greater than 0.1 percent formaldehyde or capable of releasing formaldehyde into the air under any normal condition of use at concentrations reaching or exceeding 0.1 ppm. Material safety data sheets, prepared in accordance with paragraph (g) of the Hazard Communication Standard (29 CFR 1910.1200), were also required. On December 2, 1987, the Formaldehyde Institute filed an Application for Administrative Stay of the Formaldehyde Standard's cancer labeling requirement. On November 8, 1988, OSHA requested comments on whether to grant a petition for administrative stay of these provisions and whether to institute additional rulemaking. Based primarily on the comments received, OSHA stayed the provision at 29 CFR 1910.1048 (m)(l)(i) through (m)(4)(ii) for a period of (cont)

Abstract: On May 20, 1986, the Environmental Protection Agency (EPA) issued a report to OSHA, under Section 9(a) of the Toxic Substances Control Act, stating that EPA has reasonable basis to conclude that the risk of injury to worker health from exposure to four glycol ethers during their manufacture, processing and use is unreasonable, and that this risk may be prevented or reduced to a significant extent by OSHA regulatory action. EPA gave OSHA 180 days in which to respond to its report. OSHA published its response on December 11, 1986, stating that OSHA had preliminarily concluded that occupational exposures to the subject glycol ethers at the current OSHA permissible exposure limits may present significant risks to the health of workers. OSHA published an Advance Notice of Proposed rulemaking (ANPRM) on April 2, 1987, (52 FR 10586). Abstract: In July 1985, OSHA was petitioned by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) to issue a hazard alert; issue an emergency temporary standard; and to begin work on a new permanent standard for methylene chloride (DCM). This request was based on information obtained from the Environmental Protection Agency and the National Toxicology Program indicating that DCM is an animal carcinogen and may have the potential to cause cancer in humans. In November 1986, OSHA notified the UAW that its petition had been granted, in part, and denied, in part. Specifically, OSHA issued a set of guidelines for controlling occupational exposure to DCM and OSHA denied that portion of the petition requesting the issuance of an emergency temporary standard. 1712. MEDICAL SURVEILLANCE PROGRAMS FOR EMPLOYEES

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: On January 19, 1989, OSHA modified (54 FR 2332) the Z table permissible exposure limits of 29 CFR 1910.1000 in response to current scientific data. Section 6(b) of the Act requires where appropriate, provision for medical surveillance in each 6(b) rulemaking for a harmful substance. A generic standard for medical surveillance would satisfy the requirements of the Act thus enabling the Agency to deal directly with the narrower issues of the revision of the tables. OSHA published an Advance Notice of Proposed Rulemaking on September 27, 1988, (53 FR 37595) to acquire additional information. OSHA also intends to review its compliance experience with medical surveillance provisions and seek experienced medical opinion in the form of a symposium or other public discussion.

Abstract: On January 19, 1989, OSHA modified (54 FR 2332) the Z table

permissible exposure limits of 29 CFR 1910.1000 (General Industry) in response to current scientific data. Section 6(b)(7) of the Act requires provisions for exposure monitoring for each substance undergoing 6(b) rulemaking. A generic standard for exposure monitoring would satisfy the monitoring requirement of the Act thus enabling the Agency to deal directly with the narrower issues of the revision of the Z tables. OSHA published an Advance Notice of Proposed Rulemaking on September 27, 1988, (53 FR 37591). OSHA intends to review its compliance experience with exposure monitoring provisions to determine the appropriateness of generic exposure monitoring provisions.

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910, (Table Z-2)

Legal Deadline: None

Abstract: On June 18, 1986, the International Chemical Workers Union and the Public Citizen Health Research Group petitioned OSHA to issue an emergency temporary standard reducing the permissible exposure limit for cadmium to one microgram of cadmium per cubic meter of air. On June 25, 1987 the union and HRG filed a petition with the Court of Appeals requesting the Court to order OSHA to promulgate an ETS. In its July 1, 1987, response to the petitioners, OSHA stated that issuance of an emergency standard was not warranted, but that exposure to cadmium at levels permitted under the current standard represented a significant risk to worker health which would be addressed through section 6(b) rulemaking procedures. On September 26, 1988, OSHA published guidelines for controlling exposure to cadmium and recommended reduced exposure levels significantly below the permissible exposure limit.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910, (Subpart H)

Legal Deadline: None

Abstract: Standards in 29 CFR Part 1910, Subpart H, which address the storage, handling and use of hazardous materials, such as compressed gases, acetylene, hydrogen, oxygen, liquified petroleum gases, and flammable and combustible liquids, will be revised. This regulatory action will provide a new approach to the revision of Subpart H and will occur in three phases in an expanded timeframe. The three phases will be (1) Process Hazards Management, (2) Flammable and Compressed Gases, and, (3) Hazardous Liquids. The first phase of the proposed action is intended to better protect employees from unexpected releases of significant quantities of dangerous substances. The remaining phases are intended to simplify, clarify and consolidate standards on hazardous materials and assist employers and employees in general industry to better understand and better focus on the hazards inherent in the use, handling, and storage of such materials.

Abstract: This regulatory action will complete the consolidation and updating of Parts 1915 and 1910 by providing shipyard employees with coverage under one comprehensive OSHA standard. This revision will involve the promulgation of 16 maritime subparts and their 1910 counterparts. Its completion will relieve shipyard owners from the burden of having to comply with two sets of rules that are complex, prescriptive, confusing and, in some cases, conflicting. OSHA has established an Advisory Committee to assist the agency in reviewing and revising these subparts. Experts from government, industry, unions and the states will be asked to work with OSHA on this project. A previously identified project, Surface Preparation and Preservation (RIN: 1218-AA96), will be included in this project.

Significance: Regulatory Program

Legal Authority: Occupational Safety and Health Act, Section 8(c)(2) and 24(a)

CFR Citation: 29 CFR 1904.1 to .22

Legal Deadline: None

Abstract: The Occupational Safety and Health Act and 29 CFR 1904 require covered employers to record all work-related fatalities, illnesses and certain injuries; and report summary data if selected to participate in the BLS annual survey. Concerns about the reliability and utility of the data currently available have been raised by Congress, BLS, OSHA, NIOSH, the National Academy of Sciences, the GAO and representatives of business and labor. This regulatory requirement is a Federal statutory provision. It implements Sections 8(c)(2) and 24(a) of the OSH Act. For those States that operate their own safety and health plan under the OSHA, 29 CFR 1952.4 prescribes that they adopt recordkeeping and reporting regulations which are substantially identical to 29 CFR 1904. Thus, Federal regulation provides a comprehensive framework consistent with the statutory purposes. BLS and OSHA have tested several data collection vehicles and procedures and are revising the recordkeeping guidelines to improve the usefulness of the survey outputs.

Abstract: On June 20, 1986, OSHA published revised standards governing occupational exposure to asbestos, tremolite, anthophyllite and actinolite in general industry and construction. In these standards, OSHA reduced the 8-hour time weighted average (TWA) permissible exposure limit (PEL) to 0.2 f/cc, and established other protective provisions. This standard was legally challenged, and as a result, the Court of Appeals for the District of Columbia upheld the standard except that the court held that OSHA must reconsider several of the standard's provisions to determine if more protective regulatory provisions are available to reduce risk. One of the issues to be reconsidered was the need for a short-term limit for occupational exposure to asbestos in response to the Court's directive. This limit was established as 1 f/cc averaged over a 30-minute sampling period and a legal notification of this amendment was published on September 14, 1988, at 53 FR 35610. (cont)

1720. PEL UPDATE PROPOSAL FOR CONSTRUCTION, MARITIME AND AGRICULTURE

Significance: Regulatory Program

Legal Authority: Not Yet Determined

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The permissible exposure limits (PELS) promulgated by OSHA in 1971 do not reflect current knowledge of the health effects of many toxic substances. OSHA published a proposal on June 7, 1988 (53 FR 20960) to amend and expand the PELs for general industry. On January 19, 1989 OSHA set new PELs for the toxic substances originally covered in 1971 and covered new substances in a single rulemaking that applied to general industry. OSHA now plans to update the old PELs for construction, maritime, and agricultural sectors not covered by the general industry proceeding. The PELs for these sectors are outdated: the construction industry (29 CFR 1926) references the 1970 ACGIH TLVs; the maritime industry cites three different references--29 CFR 1918 (longshoring), "dangerous gaseous contaminants not immediately dangerous to life" and "heavy concentrations of dusts." In addition, in the agricultural section, OSHA will consider chemicals and pesticides that are currently regulated by EPA. As a result of this rulemaking, OSHA expects that a unified table of PELs for toxic substances will be adopted for all industries.

Abstract: Public Law 99-499 requires the Secretary of Labor to promulgate a final standard for Hazardous Waste Operations and Emergency Response. The final standard was issued on March 6, 1989. Section 126 of Public Law 99-499 was amended by Congress on December 22, 1987 to require the Secretary of Labor to include in the final rule a training course certification program at least as comprehensive as the EPA's model program for asbestos abatement in public buildings. This proposed revision would add criteria and requirements for training course certification of training for workers involved in hazardous waste operations.

Abstract: OSHA currently has no general regulation requiring that employers train their employees in the safe operation of motor vehicles on the job, including the required use of seat belts, although motor vehicle crashes are the single largest cause of occupational fatalities. On-the-job motor vehicle crashes, in both on-road and off-road vehicles, caused over 30 percent of traumatic work-related fatalities in 1987. In the manufacturing sector, which is the primary target of most OSHA regulations, more workers are killed by motor vehicles than by fixed machinery. The hazards faced by workers operating automobiles and trucks, both on public highways and at private facilities, could be greatly reduced by requiring employers to train their employees in safe driving techniques, including the required use of seat belts. OSHA plans to proceed with a single NPRM that would regulate all employers covered by the OSH Act. The approach will be to develop a generic, performance-oriented standard. Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910.1048

Abstract: On December 4, 1987, the Occupational Safety and Health Administration (OSHA) published a revised standard for occupational exposure to formaldehyde, 29 CFR 1910.1048. This standard contained permissible exposure limits of 1 part formaldehyde per million parts of air (ppm) as an 8-hour time-weighted average (TWA) and 2 ppm as a 15-minute short-term exposure limit (STEL), along with ancillary provisions. Several interested parties petitioned the courts to review this standard, and on June 9, 1989, the United States Court of Appeals for the District of Columbia Circuit issued a decision. The Court remanded the standard back to the Agency for reconsideration of two issues: the assessment of the risk of cancer at 1ppm, and the failure of the Agency to require medical removal protection (MRP). Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The proposed standard will fill a major gap in our current regulations which now depend for enforcement on the general duty clause, 5(a)(1). It will apply to those situations where the unexpected energization, start up or the release of stored energy could cause injury to employees. Providing comprehensive and uniform control procedures is also expected to reduce significantly the potential for injury and death of employees because the hazards targeted for control exist in virtually every workplace. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources or limiting the scope and application to those certain machines or equipment that are causing most of the injuries.

Abstract: Recent scientific studies have reported that ethylene dibromide causes cancer when administered orally, by inhalation and by skin application in laboratory animals. In addition, other studies have shown the chemical to be a mutagen, teratogen and testicular toxin in experimental animals. On the basis of these reports, OSHA has determined that its current permissible exposure limit of 20 ppm does not provide exposed workers adequate protection against cancer and other adverse health effects. A proposed standard for ethylene dibromide was published 10/07/83 (43 FR 45956). Public hearings were held in February 1984. OSHA is currently in the process of decisionmaking on the provisions to be included in the final standard.

Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be closely coordinated with revisions in the respiratory protection regulations (29 CFR 1910.134). This rulemaking does not address the assessment and reduction of any absolute existing risks, but rather addresses the possible change in risk abatement associated with the use of respirators instead of engineering controls.

Abstract: The existing standard has been proposed for revision because it is poorly formatted, contains unnecessary and restrictive provisions, and does not properly address the fall protection needs of certain areas and operations. The proposal raises several significant issues including (1) when fall protection systems must be installed, (2) whether work surface inspections are necessary to insure adequate structural integrity before commencing work, and (3) whether body belt systems or body harness systems are appropriate for use as fall protection. Abstract: Entry into confined spaces has been responsible for many employee deaths and injuries. However, current standards do not specifically address the hazards associated with entry into confined spaces. Therefore, OSHA is proposing certain criteria and precautions which are necessary to minimize the hazards associated with employees entering confined spaces.

1732. LOGGING OPERATIONS (PART 1910)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.266, (Revision)

Legal Deadline: None

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood logging is estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 29 CFR 1910

Legal Deadline: None

Abstract: 4,4'-Methylenedianiline (MDA) is a chemical used primarily to manufacture methylenediphenyl diisocyanate, which is used to make polyurethane foams and elastomers. Recent scientific data indicate that MDA is a carcinogen in animals and a potential carcinogen in humans. In 1983, OSHA and the Environmental Protection Agency participated in a joint effort to publish an advance notice of proposed rulemaking to solicit information on MDA production and use, estimates of environmental and occupational exposure, and studies of its toxic and carcinogenic effects. EPA evaluated the data received in response to the advance notice and concluded that the chemical presents an unreasonable risk of injury to the health of exposed workers. Under the provisions of section 9(a) of the Toxic Substances Control Act, EPA referred MDA to OSHA for action. OSHA responded to the EPA referral on 2/26/86. OSHA established a mediated rulemaking advisory committee composed of interested parties from labor, industry and government to assist the agency in developing a proposed standard. The Committee completed its work in June 1987 (cont)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.137; 29 CFR 1910.269

Legal Deadline: None

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. It is intended that the proposed standard fill this void by establishing minimum requirements for electrical safety work practices for qualified employees working on or near installations whose purpose is the generation and distribution of electricity.The proposal also revises the standards for electrical protective equipment, which is used routinely for electrical power work.

Abstract: OSHA promulgated a final rule on August 24, 1987, that extended the protections of its Hazard Communication Standard (HCS) from the manufacturing sector to all other workplaces where employees are exposed to hazardous chemicals. The HCS requires covered employers to establish hazard communication programs for their employees, including labels on containers, material safety data sheets, and training programs. On August 8, 1988, OSHA published a NPRM to modify the final rule, and provide an opportunity for public comment. Public comments have been received, hearings have been held, and OSHA will prepare a final rule based on the public record for this standard, including the record developed in earlier rulemakings.

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR Not yet determined

Abstract: Many health-care workers are exposed to blood and body fluids

from patients who have active bloodborne infections or are carriers of these infections. Such exposure presents a potential risk of disease for the health-care worker. One such disease, Hepatitis B, has been shown to present a substantially increased risk for health-care workers. Hepatitis B is a serious disease that may require hospitalization and, in a small percentage of cases, is fatal. Another bloodborne disease, Acquired Immune Deficiency Syndrome (AIDS) is also of great concern to health-care workers. Only a very small number of infections, however, have been documented to have resulted from occupational exposure to the virus that causes AIDS. About half of the nation's 6 million health-care workers are at increased risk from exposure to bloodborne infectious diseases. (cont)

Additional Information: ABSTRACT CONT: Some examples of health-care workers at highest risk are emergency room workers, dialysis unit workers, operating room personnel, intensive care unit workers, and blood bank employees. The Occupational Safety and Health Administration (OSHA) has no standard specifically regulating occupational exposure to bloodborne infectious diseases. In 1983, the Agency issued guidelines for reducing the occupational risk of Hepatitis B infection (OSHA Instruction CPL 2-2.36). These guidelines are voluntary, however. In September 1986, OSHA was petitioned by the American Federation of State, County and Municipal Employees and other unions for the issuance of an emergency temporary standard to protect workers from occupational exposure to bloodborne infectious diseases, such as hepatitis B and AIDS. On May 30, 1989, OSHA published its proposal in the Federal Register (54 FR 23042). Public comment on the proposed standard will assist OSHA in determining the appropriate scope and provisions of the final rule.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1450

Legal Deadline: None

Abstract: Existing OSHA standards are designed to protect employees who are engaged in work involving exposure to only a few toxic chemicals during relatively standardized, continuous or repetitive processes. In contrast, laboratory workers are exposed to a multitude of toxic substances under frequently changing or unpredictable conditions. During this rulemaking, OSHA will examine whether prudent work practices and protective equipment, chosen for the specific facility and task, are more effective, feasible and economical for laboratory work than adhering to OSHA's current substance-specific standards. Accordingly, OSHA has proposed a special performance-oriented work practices standard that, if promulgated, would apply to laboratory workers and would contain provisions specifically designed for laboratory conditions.

Abstract: A final rule for excavations was published in the Federal Register on October 31, 1989. This rule prescribes the minimum measures to be taken to protect employees from injury during excavation work. A revision of the existing rule was proposed because trench and excavation sidewall failures resulting in death and injury to workers continued to occur in significant numbers. Claims that the previous standards were ambiguous and too restrictive, especially with respect to the type of soil involved, have also been made.

Significance: Regulatory Program

Legal Authority: 38 USC Chapter 41; PL 100-323

CFR Citation: 20 CFR Chapter IX

Legal Deadline: None

Abstract: To revise new Chapter IX of Title 20, CFR, titled Office of the Assistant Secretary for Veterans' Employment and Training, to fully describe the authority and responsibilities for provision of services to veterans through administration of programs and activities carried out through the Veterans' Employment and Training Service (VETS). Revisions are to bring regulations into conformity with 38 U.S.C. Chapter 41,42, and 43, as amended by P.L. 100-323. Previous rulemaking will establish the new 20 CFR Chapter IX, Parts 1000-1099, which are hereby revised. According to PL 100-323, several major provisions must be added to the regulations as follows: a) expand responsibilities of Assistant Secretary for Veterans' Employment and Training; (b) establish position of Regional Administrator for Veterans' Employment and Training; (c) expand duties of Disabled Veterans' Outreach Program Specialists; (d) establish assignment formula and duties for local Veterans; employment Representatives; (cont)

Legal Authority: 22 USC 2778

CFR Citation: 22 CFR 120 to 130

Legal Deadline: None

Abstract: The ITAR were first published in their current form in 1955 and have been periodically amended to reflect statutory enactments and to implement foreign policy. The last substantial revision occurred in December 1984. The State Department office which administers the ITAR, the Office of Defense Trade Controls (until recently, the Office of Munitions Control), is continually seeking ways to improve its export control function through clarification and amendment of the ITAR, as necessary. Along these lines, the Department plans to expand the types of transactions which are exempt from its licensing requirements and to elaborate its policy for designating items on the U.S. Munitions List. In addition, certain regulatory

1754. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 22 USC 2658

CFR Citation: 22 CFR 135

Legal Deadline: None

Abstract: This regulation established uniform administrative requirements for grants and cooperative agreements to State and local governments. The regulation is being changed to include institutions of higher education, hospitals, and other nonprofit organizations. This effort represents a merging of OMB circulars A-102 and A-110, and is being promulgated by 27 Federal agencies under the common rulemaking procedures. As a result of public comment, OMB has placed this rule on hold.

Interim final rule at 22 CFR Part 136 made effective on June 20, 1988, the effective date of that section of the statute (PL 100-204).

Abstract: This action will amend the DOSAR to prescribe regulations covering disposition of personal property abroad by certain U.S. Government contractors. The regulation implements a general regulation at 22 CFR Part 136 (see 53 FR 23118, June 20, 1988) which was promulgated pursuant to section 186 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989. The DOSAR coverage will be issued as an interim final rule pending adoption on a governmentwide basis, as the statute covers all contractors that enjoy importation or tax privileges in a foreign country because of their contractual relationship to the U.S. Government. The purpose of the statute is to ensure that contractors do not profit from transactions with persons not entitled to exemptions from import restrictions, duties, or taxes.

Department Regulations Agenda; Semiannual Summary

AGENCY: Department of Transportation.

ACTION: Department regulations agenda.

SUMMARY: The regulations agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of and allow it to more effectively participate in the Department's regulatory activity.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the agenda is 400 Seventh Street SW., Washington, DC 20590; except for the Federal Aviation Administration, which is located at 800 Independence Avenue SW., Washington, DC 20591, and the U.S. Coast Guard, which is located at 2100 Second Street SW., Washington, DC 20593.

Agenda

Background

Improvement of Government regulations is a prime goal of the Bush Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation (Department) achieve these goals and in accordance with Executive Order 12291 "Federal Regulation" (46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual regulations agenda for publication in the **Federal Register.** The agenda summarizes all current and projected rulemaking, reviews of existing regulations, and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding 12 months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for and reviewed by the Department Regulations Council, the Department's regulations agenda is prepared and published in the **Federal Register.** The Department's last agenda was published in the **Federal Register** on October 30, 1989 (54 FR 44884). The next one is scheduled for publication in the **Federal Register** in October 1990.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Pub. L. 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared; i.e., those regulations that would have a significant economic impact on a substantial number of small entities. A Regulatory Flexibility Analysis is required for a rulemaking which, in the heading "Small Entities Affected," indicates an effect on small businesses, governmental jurisdictions, or organizations. If a Regulatory Flexibility Analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that, each year, the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding 12 months. The agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last agenda. However, it should be noted that, after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities, and a full RFA review will be unnecessary.

Regulatory Impact Analysis

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively, that

(1) is likely to result in:

(a) An annual effect on the economy of $100 million or more;

DOT

(b) a major effect on the general economy in terms of costs, consumer prices, or production;

(c) a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2) the Secretary or head of the initiating office has determined requires such an analysis.

Definitions

The agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that, in the judgment of the head of the initiating office or the Secretary or the Deputy Secretary,

(a) is a major regulation;

(b) concerns a matter on which there is substantial public interest or controversy;

(c) has a major impact on another operating administration or other parts of the Department or other Federal agency;

(d) has a substantial effect on State and local governments;

(e) has a substantial impact on a major transportation safety problem;

(f) initiates a substantial regulatory program or change in policy;

(g) is substantially different from international requirements or standards; or

(h) otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means (a) a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the **Federal Register** or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

Explanation of Information on the Agenda

The format for this agenda is required by Office of Management and Budget Bulletin No. 86-16 (July 2, 1986).

First, the agenda is divided by initiating offices. Then, in accordance with the OMB Bulletin, for each initiating office, the agenda is divided into four categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, and (4) completed actions. For each entry, the agenda provides the following information: (1) The "significance" of the action (i.e., whether it is significant because it is on the Regulatory Program or because of agency priority or whether it is nonsignificant or routine and frequent); (2) a short descriptive title; (3) the legal basis for the action being taken or the regulation being reviewed; (4) the related regulatory citation in the Code of Federal Regulations; (5) an indication of any legal deadline and, if so, for what type of action (e.g., NPRM, final rule); (6) an abstract of the review or the proposed or final regulation; (7) a timetable, including the earliest expected date for a decision, on whether to issue the proposed or final regulation or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (8) an indication as to whether the rulemaking will affect small entities and/or levels of government and which categories of small entities or governments will be impacted; (9) if there is information that does not fit in the other categories, it will be included under a separate heading entitled, "Additional Information"; (10) a listing, where determined, of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation, if a Regulatory Impact Analysis is not prepared.); (11) an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the agenda; and (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the agenda and facilitate tracing further action on the issue in the **Federal Register** which may occur between agenda publications. (Departmental rulemaking documents published in the **Federal Register** now contain RIN numbers.)

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules), to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued on that date; it is the earliest date on which a decision is expected to be made

on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review under Executive Order 12291 must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the **Federal Register** would follow within a few days. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (●) preceding an entry indicates that the entry appears in the agenda for the first time.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for or to obtain copies of specific regulatory documents, including the Department's semiannual regulations agenda issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's regulations agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the agenda, individuals can determine which Notice or Advance Notice of Proposed Rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information, as well as make the agenda easier to use. We would also like you, the public, to make suggestions or comments on how the agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from agenda to agenda? Do you find that the format for setting out the information enables you to use the agenda easily? Do you find that the presentation of the information in the agenda is clearly explained in the preamble to the agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary at the appropriate address noted in the "Addresses" paragraph above.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved at the appropriate address noted in the "Addresses" paragraph above.

Purpose

The Department is publishing this regulations agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department with regard to any specific item on the agenda. Regulatory action, in addition to the items listed, is not precluded. If further information is desired on any of

the items listed in the agenda, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the agenda in general or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, DC, on March 12, 1990.

Samuel K. Skinner,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

Some Administrations within the Department differ in procedures or as to inclusion on a mailing list. For the offices listed below, persons desiring to obtain a copy of a specific regulatory document to be issued that is listed in this agenda should communicate, either by telephone or by letter, with the contact person listed with the regulation at the following addresses:

United States Coast Guard (USCG)

(Name of contact person), United States Coast Guard, 2100 Second Street SW., Washington, DC 20593.

Federal Highway Administration (FHWA)

(Name of contact person), Federal Highway Administration, 400 7th Street SW., Washington, DC 20590.

Federal Railroad Administration (FRA)

(Name of contact person), Federal Railroad Administration, 400 7th Street SW., Washington, DC 20590.

National Highway Traffic Safety Administration (NHTSA)

(Name of contact person), National Highway Traffic Safety Administration, 400 7th Street SW., Washington, DC 20590.

Urban Mass Transportation Administration (UMTA)

(Name of contact person), Urban Mass Transportation Administration, 400 7th Street SW., Washington, DC 20590.

Saint Lawrence Seaway Development Corporation (SLSDC)

(Name of contact person), Saint Lawrence Seaway Development Corporation, 400 7th Street SW., Room 5424, Washington, DC 20590.

Research and Special Programs Administration (RSPA)

David A. Watson, Training Unit, DHM-51, OHMT/RSPA, 400 7th Street SW., Washington, DC 20590.

Maritime Administration (MARAD)

James Saari, Secretary, Maritime Administration, 400 7th Street Street SW., Room 7300B, Washington, DC 20590, (202) 366-5746.

Federal Aviation Administration (FAA)

The FAA has a mailing list system for Notices and Advance Notices of Proposed Rulemaking (NPRMs and ANPRMs). Persons interested in obtaining future copies of all of those documents to be issued by the FAA or only of those concerning certain parts of the Federal Aviation Regulations should request a copy of Advisory Circular No. 11-2, which describes the application procedure, by calling 202-267-3479 or by writing to: Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-200, 800 Independence Avenue SW., Washington, DC 20591.

Office of the Secretary (OST)

Persons desiring to receive future copies of the Department's regulations agenda should submit their request to: Assistant General Counsel for Regulation and Enforcement, C-50, Office of the General Counsel, Department of Transportation, Washington, DC 20590, (202) 366-4723.

Persons who have an interest in specific regulatory documents to be issued by the Office of the Secretary should forward requests for copies of those documents to the same address. These requests should fully identify the document desired.

Appendix B - General Rulemaking Contact Persons

The following is a list of persons who can be contacted within the Department for general information concerning the rulemaking process within the various operating administrations.

1760. ● + NONDISCRIMINATION ON THE BASIS OF HANDICAP IN AIR TRAVEL (AIR CARRIER ACCESS ACT)

Significance: Agency Priority

Legal Authority: 49 USC 1374(a); 49 USC 1374(c)

CFR Citation: 14 CFR 382

Legal Deadline: None

Abstract: An ANPRM requested comments on lifts and other boarding equipment for use in regional and commuter aircraft and air taxis; and accessible lavatories for narrowbody and smaller aircraft. It also sought comments on additional accommodations for hearing-impaired persons. This rulemaking is significant because of substantial public interest.

Significance: Nonsignificant

Legal Authority: 49 USC 1381

CFR Citation: 14 CFR 399

Legal Deadline: None

Abstract: Donald L. Pevsner petitioned the CAB to institute a rulemaking proceeding to ban use of the term "direct flight" because it is deceptive, and to declare use of the term to be a prima facie violation of section 411 of the Federal Aviation Act of 1958. The Department is now considering what action to take in response to the petition.

Legal Authority: 49 USC 1371; 49 USC 1381

CFR Citation: 14 CFR 380.30(e); 14 CFR 399.84

Legal Deadline: None

Abstract: The DOT rules cited above state that any price stated for air transportation, a tour or a tour component must be the entire price for that transportation, tour or component. In this petition, Mr. Donald Pevsner complains that some tour operators advertise prices which do not include additional features which must be purchased and which cost extra. He asks that the rules be amended to state that such additional features may only be priced separately if they may be purchased separately, i.e., if they are optional rather than mandatory.

Significance: Regulatory Program

Legal Authority: PL 98-575; PL 100-656, Sec 15(c) to 16 Commercial Space Launch Act

CFR Citation: None

Legal Deadline: None

Abstract: Persons authorized to conduct commercial launch activities by a license issued by the Office of Commercial Space Transportation (OCST) are required to obtain insurance or demonstrate financial responsibility, in amounts and on terms prescribed by OCST, to protect against third-party or government property damage claims resulting from the licensed activities. Licensees and other launch participants are also required to enter into reciprocal waivers of claims arising out of licensed activities. In addition, persons engaged in commercial launch operations must provide proof of financial responsibility, or offer other assurances, adequate to protect the Government when its property or personnel are involved in such operations. This rulemaking codifies the procedures by which OCST sets appropriate levels and terms of insurance and financial responsibility required to be carried by persons subject to its authority. This action is significant because of substantial public interest.

CFR Citation: 49 CFR 23

Legal Deadline: None

Abstract: The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR Part 23). This regulation has been controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. Section 106(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) extended and modified the program as applied to FHWA and UMTA; similar legislation applied the same requirements to the FAA. The Department issued a final rule to make the STURAA changes in October 1987; a similar rule for FAA programs was published in May 1988. The Department intends subsequently to issue an NPRM that would propose further changes in the regulation.

Significance: Agency Priority

Legal Authority: 29 USC 794

CFR Citation: 49 CFR 28

Legal Deadline: None

Abstract: This regulation would implement the 1978 amendments to section 504 of the Rehabilitation Act of 1973 which made its prohibition of discrimination on the ground of handicap applicable to the directly conducted programs of Federal agencies as well as to their financial assistance programs. The rule would apply to DOT facilities, personnel practices, and regulatory programs. It would be based on a model rule developed by the Department of Justice. This rulemaking is significant under DOT regulatory policies and procedures.

Significance: Agency Priority

Legal Authority: 49 USC 1657

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The DOT is considering whether additional regulations concerning the use of alcohol by sensitive safety- and security-related personnel in industries regulated by its operating administrations are necessary and, if so, what the scope and focus of any new regulations should be. This proceeding is being conducted to ensure that the Department and its modal administrations have the necessary regulatory tools to respond to the hazards of alcohol use and abuse in transportation, and is considered significant because of important Departmental policy.

CFR Citation: 49 CFR 27

Legal Deadline: NPRM, Judicial, March 22, 1990. Final, Judicial, September 21, 1990.
A judicial schedule for the proposed and final rules in this rulemaking was established by the Federal District Court on remand from the Court of Appeals for the Third Circuit.

Abstract: This rulemaking is necessitated by an en banc ruling of the U.S. Court of Appeals for the Third Circuit in ADAPT v. Skinner. The court directed DOT to revise its existing rule on this subject consistent with its opinion that provisions of the present rule were inconsistent with the Department's statutory authority. This rulemaking will incorporate an existing rulemaking concerning nondiscrimination on the basis of handicap in Federally assisted commuter rail programs. [RIN 2105-AB23]. This rulemaking is significant because of substantial public interest and Federalism implications.

Significance: Nonsignificant

Legal Authority: 5 USC 301; 45 USC 41; 49 USC 322; 49 USC 1657

CFR Citation: 49 CFR 9

Legal Deadline: None

Abstract: The Department of Transportation is proposing amendments to the regulations to establish procedural requirements that private litigants must meet before the Department would produce documents or make an employee available to testify in a private legal or administrative proceeding. The proposed requirements are necessary because Department attorneys and employees currently spend a considerable amount of time responding to litigants' requests for documents or testimony, often repeatedly on the same matter. This rule would ensure the more efficient use of DOT ability to respond to such requests.

Significance: Agency Priority

CFR Citation: 14 CFR 207; 14 CFR 208; 14 CFR 212; 14 CFR 298; 14 CFR 380

Legal Deadline: None

Abstract: The CAB proposed new charter rules for direct and indirect air carriers. The proposed rules retain the financial protections of existing rules for direct air carriers while eliminating rules restricting the types of groups (such as "affinity" or "single-entity") to whom charters may be sold. The proposal would also retain a security instrument and depository system for indirect air carriers, along with contract rules for public protection. The proposal also highlights depository bank and travel agent responsibilities in handling passenger funds. The proposal replaces one made earlier. DOT is considering what action should be taken. This rulemaking is significant because of substantial public interest.

CFR Citation: 14 CFR 399.80; 14 CFR 399.85

Legal Deadline: None

Abstract: The Department is proposing to provide formal notice to the public of its enforcement policy concerning the rebating of international air fares by adopting that policy as a Policy Statement in the regulations. No change in the substance of that policy is intended. The Department also proposes to revoke an existing Policy Statement on the advertising of rebates that is contrary to DOT's current enforcement policy. The proposal responds to a request for such action by the American Society of Travel Agents. The proposed regulation is significant because it involves important departmental policies and substantial industry interest.

1778. NONDISCRIMINATION ON THE BASIS OF AGE IN DOT FINANCIAL ASSISTANCE PROGRAMS

Significance: Nonsignificant

Legal Authority: PL 94-135

CFR Citation: 29 CFR 1691

Legal Deadline: None

Abstract: The NPRM proposed to prohibit age discrimination by recipients of DOT financial assistance programs. However, it has been concluded that exceptions to the statute would result in no substantive coverage of DOT programs. Moreover, the paperwork requirements for recipients, without substantive coverage, would have been counterproductive. The NPRM will be withdrawn. The Department will consider, in light of any changes in DOT programs, whether resultant substantive coverage would then warrant a new rulemaking proceeding.

Abstract: This rule will prohibit discrimination against air travelers on the basis of age and implement the Age Discrimination Act of 1975. A final rule was adopted by the CAB on April 10, 1980, and was forwarded to the Secretary of HHS for approval, as required by the Age Discrimination Act. The rule was approved by HHS on July 13, 1984, with changes. However, these changes have not been incorporated. Abstract: The CAB proposed to amend its rules requiring notice of contract terms for domestic travel to require that actual notice be given passengers of terms absolving carriers from any responsibility to transport a passenger to the destination named on the ticket, or to reimburse the passenger for expenses in reaching the airport noted on the ticket when a flight is diverted to another airport in the same metropolitan area. Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. The Board considered a final rule but did not decide what action to take. DOT is now considering what action to take.

Abstract: The American Association of Airport Executives, the Airport Operators Council International and the Air Transport Association of America petitioned the CAB to simplify its counter-sign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified counter sign. The CAB adopted an NPRM that proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted and whether a smoking notice should be included. DOT is now considering what action to take in response to the notice and comments filed.

1791. + NONDISCRIMINATION ON THE BASIS OF HANDICAP (AIR TRAVEL)

Significance: Regulatory Program

Legal Authority: PL 98-443

CFR Citation: 49 CFR 27; 14 CFR 382

Legal Deadline: NPRM, Statutory, January 30, 1987. Final, Statutory, March 30, 1990.

Abstract: The Civil Aeronautics Board (CAB) had a regulation providing protection of the rights of handicapped air travellers. Based on recent Congressional action, DOT began enforcing this regulation on January 1, 1985. The Supreme Court's decision in U.S. Department of Transportation v. Paralyzed Veterans of America held that Section 504 of the Rehabilitation Act of 1973 does not apply to nonsubsidized air carriers. This decision left the existing regulation intact. The Air Carrier Access Act of 1986 directed DOT to publish new regulations prohibiting disability-based discrimination in air travel. An advisory committee pursued the rulemaking through a negotiated process. The compliance date was subsequently changed from April 5 to June 4, 1990. Comments were invited on possible further extension of the compliance date to October 5, 1990 (55 FR 12336). This rulemaking was significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: 49 USC 101; 49 USC 102; 49 USC 301; 49 USC 302; 49 USC 322

CFR Citation: 49 CFR 40

Legal Deadline: None

Abstract: This rule codifies drug-testing guidelines developed by the Department of Health and Human Services, adapting them to fit the circumstances of employers regulated by DOT. The Department's substantive drug-testing rules require employers to conduct drug testing in accordance with these procedures. This rulemaking was significant, since it affected several operating administrations and their regulated industries.

Significance: Agency Priority

Legal Authority: 49 USC 324; 49 USC 1389; PL 100-457DOT and Related Agencies Appropriations Act, 1989

CFR Citation: 14 CFR 398, (Revision)

Legal Deadline: None

Abstract: Because of the shortfall in FY 1989 appropriations, an NPRM was issued to request comments on various alternatives being considered for reducing essential-service subsidy

Congress subsequently amended the appropriation to provide sufficient funds to continue the program at then existing levels through FY 1989. However, in the DOT FY 1990 Appropriation Act, Congress provided insufficient funds to continue subsidies at all communities receiving essential air service (EAS) in FY 1989. Under the final rule, EAS subsidy at points relatively close to alternate air service, or that had per-passenger requirements of $200 or more in 1988, has been eliminated. Criteria adopted will be applied in subsequent fiscal years should the appropriations shortfall continue and Congress provide no statutory direction to the contrary. This rulemaking was considered significant because of substantial governmental and public interest.

1794. TITLE VI CIVIL RIGHTS REGULATION

Significance: Nonsignificant

Legal Authority: 42 USC 2000d-4

CFR Citation: 49 CFR 21

Legal Deadline: None

Abstract: In 1981, the Department proposed a consolidation and expansion of its existing Title VI regulation (49 CFR Part 21). Few comments were received on this NPRM, and a final regulation was never published. The Department reviewed the existing regulation to determine if changes were needed. It was concluded that the Department can continue to enforce Title VI appropriately through the existing regulation. Consequently the Department does not anticipate further rulemaking action, and the NPRM was withdrawn.

Significance: Nonsignificant

Legal Authority: EO 11625; EO 12138; 45 USC 803; PL 95-507

CFR Citation: 49 CFR 23

Legal Deadline: None

Abstract: As part of the NPRM that proposed its minority business program rule (49 CFR Part 23), the Department proposed rules concerning minority business involvement in direct DOT procurement. However, because of the program established by Public Law 95-507, these proposed rules became unnecessary, and were never finalized. That program provides for subcontracting plans and goals in certain direct Federal contracts as well as for disadvantaged business set-asides under the Small Business Administration 8(a) program. Therefore, the NPRM has been withdrawn.

Significance: Nonsignificant

Legal Authority: PL 95-504; 49 USC 1371; 49 USC 1374; 49 USC 1386

CFR Citation: 14 CFR 205; 14 CFR 298

Legal Deadline: None

Abstract: This proposed rulemaking would have increased the minimum aircraft accident liability insurance

limits for U.S. and Canadian on-demand air-taxi operators from $75,000 to $150,000 per person. (The minimum liability per person for other types of air carriers is $300,000.) The NPRM also included alternative proposals. Commenters alleged that small carriers would be adversely affected by the premiums necessary to pay for the proposed higher coverage. As the currently effective rule has not created significant controversy or complaint in recent years, it was determined no alteration to the current rule is necessary, and the proposal was withdrawn.

Legal Authority: 49 USC 1324; 49 USC 1376; 49 USC 1389; PL 97-369

CFR Citation: 14 CFR 326, (Proposed)

Legal Deadline: None

Abstract: The essential air service (EAS) program has been changed substantially since the Civil Aeronautics Board first proposed procedural regulations implementing EAS carriers' right to interest payment on any claim for "hold-in" (compelled service) subsidy. Public Law 100-223 repealed section 419(a)(7)(B) of the Federal Aviation Act and added a new requirement for prompt payment of subsidy claims. No qualifying claims have ever been submitted, and the revising legislation has rendered further rulemaking action moot.

Abstract: After the sunset of the Civil Aeronautics Board on January 1, 1985, the Department became responsible for overseeing the consumer protection regulations applicable to airline passengers. The Department established a task force to review the current regulations and pending rulemaking proceedings to determine what, if any, actions should be taken. The internal analysis was completed and it was determined that no comprehensive report is necessary. In the next year, the Department expects to address the pending rulemaking petitions and either terminate old rulemaking proceedings or issue supplemental notices of proposed rulemakings to update information for rulemakings in which final rules are expected to issue.This entry was terminated because the comprehensive review of the consumer protection rules is now complete.

Abstract: Current regulations require installation of ARPA on certain ships to improve vessel and waterway safety. Training in the use of this equipment is necessary to ensure its proper application and maximum benefit. A very small percentage of licensed personnel (those manning vessels of 10,000 GT or larger) would be required to complete an ARPA training course. The course is expected to take 5 days and cost about $800.00 per student.

Abstract: Various laws, international agreements, and Coast Guard regulations require the posting of specific certificates, licenses, plans, operating instructions, and warnings onboard vessels. Some of these contain essential operational data which must be accessible at all times; others are primarily informational. This rulemaking project will seek to reduce posting requirements for nonessential operational data to reduce the burden on the public. Alternatives such as having items readily available rather than being posted are being considered.

Abstract: This regulation would require advance notice to the Captain of The Port (COTP) of the presence on board certain entering vessels of any Warsaw Pact national or Non-Entrant National crew member. Such notice would enable the COTP to take appropriate measures for the removal or restriction of the crew member(s) as necessary for the protection of the United States.

Abstract: This proposal would require all manned, oceangoing, U.S. ships of 79 feet or more in length which are engaged in commerce to keep records of garbage discharges. In addition, all manned oceangoing U.S. ships 40 feet or more in length which are equipped with galleys and berths would be required to maintain waste management plans. Significance: Nonsignificant

Legal Authority: 33 USC 1223(c)

CFR Citation: 33 CFR 161

Legal Deadline: None

Abstract: The Coast Guard conducted a study for the need for port access routes for the approaches to Chesapeake Bay, VA. (Notice of study results published July 13, 1989, 54 FR 29627). The study concluded that the southern approach part of the traffic separation scheme should be reconfigured to incorporate a proposed deep-water route for inbound and outbound vessel traffic. Significance: Regulatory Program

Legal Authority: 33 USC 1223; 33 USC 1224

CFR Citation: 33 CFR 166; 33 CFR 167

Abstract: The Coast Guard has conducted the Port Access Route Study mandated by the Ports and Waterways Safety Act. As a result of the study, the Coast Guard has determined that potential conflicts between oil drilling and shipping require creation of a fairway system off the coast of California from the vicinity of San Francisco to Los Angeles/Long Beach and changes to the San Francisco and Santa Barbara channel traffic-separation schemes. No structures would be permitted in the fairway. This project is considered significant because of public interest.

Abstract: The purpose of this proposal is to set new standards for the safe design, installation, and operation of marine vapor control systems. These systems are being required in several states to reduce emissions from tank vessels which carry oil and chemicals in bulk. This proposal would establish minimum safety standards, but does not require installation or use of vapor control systems. This action is considered significant because of substantial public interest and safety implications.

Abstract: This proposal would implement Annex V of the International Convention for the Prevention of Pollution by Ships, 1973. The Act to Prevent Pollution from Ships, as amended by Title II of P. L. 100-220, requires the Secretary to administer and enforce the annex. The Act would reduce the incidence of discharges of plastics, including synthetic fishing nets and other ship-generated garbage, into the oceans. This rulemaking is significant because of substantial public interest.

Abstract: Rulemaking would redefine and establish more stringent qualifying criteria for individuals engaged in transporting and transferring various categories of oil and dangerous liquid cargoes. The Port and Tanker Safety Act of 1978 mandated the establishment of personnel qualification and manning standards for tank vessels. In addition, the International Convention on the Standards for Training, Certification, and Watchkeeping for Seafarers 1978 (STCW), has entered into effect and establishes international standards for tank vessel personnel qualifications. In view of the length of time since publication of the NPRM, a supplemental NPRM was issued.

Significance: Nonsignificant

Legal Authority: 46 USC 4310

CFR Citation: 33 CFR 179.01 to 179.19

Legal Deadline: None

Abstract: This rulemaking would require marine dealers to furnish boat and engine manufacturers with serial numbers of new boats and engines sold and the names and addresses of retail first purchasers of those products. Manufacturers would use the information to locate purchasers of boats and engines recalled for defects which create a substantial risk of personal injury to the public and for failures to comply with applicable regulations. Currently many manufacturers cannot obtain sufficient first-purchaser information and their attempts to notify during recalls are inadequate.

Abstract: Limited visibility from the navigation bridge of vessels has been identified as a factor in vessel casualties and near-misses. CFR Citation: 46 CFR 16

Legal Deadline: None

Abstract: On November 21, 1988, the Coast Guard, along with other agencies of the Department of Transportation, adopted regulations requiring pre-employment, post-accident, reasonable cause and random drug testing. Since adopting those regulations, it has been necessary to delay implementation for foreign persons and to reduce an unnecessary pre-employment testing burden on employers in cases where individuals are changing jobs. It is anticipated that some additional adjustments to the rules may be necessary as the Coast Guard receives more information on compliance problems. Although the original rulemaking was significant, these modifications are not considered of sufficient import to warrant that classification.

1868. ALTERNATIVE PROVISIONS FOR REINSPECTIONS OF OFFSHORE SUPPLY VESSELS IN FOREIGN PORTS (CGD 82-004A)

Significance: Nonsignificant

Legal Authority: 46 USC 3306; 46 USC 3301

CFR Citation: 46 CFR 91

Legal Deadline: None

Abstract: The Coast Guard is proposing to amend the regulations concerning the reinspection of offshore supply vessels (OSVs) in foreign ports. Currently OSVs holding two year certificates of inspection are reinspected between the 10th and 14th month of the certificate's period. In recent years, more OSVs have been based overseas in remote locations. Vessel owners must reimburse the Coast Guard for inspector travel and per diem costs in connection with foreign inspections. This action would propose an alternative to the traditional Coast Guard mid-period reinspection. The benefits would be flexibility and financial savings to the OSV industry and more effective use of Coast Guard resources.

Abstract: The Commercial Fishing Industry Vessel Anti-Reflagging Act of 1987 requires that for any United States-built vessel to be eligible for a fishery license the controlling interest in any corporation which owns the vessel must be owned by individuals who are citizens of the United States. This project would implement the provisions of the Act. Based on comments received, the scope of this project has been expanded to include a complete revision of 46 CFR 67.03 which explains

Abstract: This proposal would clarify the scope and applicability of Part 63, increase safety by preventing an increase in the air flow to a boiler's furnace immediately after an emergency trip, and substitute an industry consensus standard for existing requirements where an equivalent level of safety is provided. The time required for design approvals will be reduced by eliminating several administrative and plan review procedures. Significance: Nonsignificant

Legal Authority: 33 USC 2602

CFR Citation: 33 CFR 151

Legal Deadline: Final, Statutory, June 15, 1989.
See discussion above.

Abstract: The Shore Protection Act of 1988 (33 USC 2501 et seq.) prohibits vessels from transporting municipal and

commercial waste unless they have a permit and display a number. The Act requires the permit and number 240 days after enactment. This interim rule implements these provisions of the Act and requests comments.

PL 100-710 has staggered requirements, several are effective in January 1989 while others are effective in January, 1990.

Abstract: The objective of this project is to bring existing regulations into conformity with law. PL 100-710 requires certain changes to existing regulations, such as eliminating requirements to present the vessel document for endorsement of mortgages. These changes are unequivocal and were effective on January 1, 1989. In addition, this proposal would implement requirements of the law which became effective in 1990. The interim final rule will minimize transitional uncertainty while permitting opportunity for comment.

Significance: Agency Priority

Legal Authority: 46 USC 3703; 33 USC 1225

CFR Citation: 46 CFR Chapter I

Legal Deadline: None

Abstract: This project would establish minimum safety requirements for marine vapor-control systems. The requirements would include design and operating requirements for tank vessels and waterfront facilities using vapor-control systems and qualifications for personnel authorized to operate them. This rulemaking is significant because of the safety implications. However, it is a duplicate of RIN 2115-AC65 and is being removed from the Agenda for that reason.

CFR Citation: 14 CFR 43; 14 CFR 65; 14 CFR 145

Legal Deadline: None

Abstract: Current repair station rules were developed during the infancy of the aviation industry. Very few changes were made to those rules since they were adopted in 1952. This rulemaking project proposes to review foreign repair-station requirements and update the rules to reflect the current international and domestic environment and needs. The FAA has held four public meetings to solicit information and views to review the existing regulations and to explore alternatives in revising the rules of this part. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed to amend several sections of the Federal Aviation Regulations. Several proposals would provide the FAA with the means to enforce certain safety regulations. Others would make current operator practices regulatory requirements. Several proposals would establish regulations on child restraint systems, safety belts aboard airships, and flight crewmember use of shoulder harnesses aboard aircraft. Two of the proposals would clarify the regulations concerning fire extinguishers and protective breathing equipment, and one obsolete section of the regulations and several obsolete references to particular dates would be removed. This action would reduce the number of passenger violations and enhance safety aboard aircraft. This rulemaking is considered significant because of substantial public interest and safety implications.

Abstract: This notice proposes to adopt certain recommendations of the National Airspace Review concerning changes to regulations and procedures dealing with airspace classification. These changes are intended to: (1) simplify airspace designations; (2) achieve international commonality of airspace designations; (3) increase standardization of equipment requirements for operations in the various classifications of airspace; and (4) associate appropriate pilot certification requirements, visual flight rules visibility and distance from clouds rules, and air traffic services offered in each proposed class of airspace. This proposal represents the combination of three separate advance proposals issued in 1985 concerning airspace assignment and related air traffic operating rules. The FAA believes the simplified airspace classification proposed in this action will reduce existing airspace complexity and thereby enhance safety. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed to revise the current requirements for passenger emergency exits and to adopt two new exit types into the regulations. These proposals are intended to provide more consistent standards with respect to passenger seating allowed for each exit type, and the type and number of exits required for passenger seating configurations. This notice proposed to reduce the maximum inflation time of an escape slide to reflect the current state of the art. These proposals resulted from the Public Technical Conference on Emergency Evacuation of Transport Airplanes held in Seattle, Washington, on September 3-6, 1985. This rulemaking is considered significant because it involves an important cabin-safety issue.

1917. + IMPROVED ACCESS TO TYPE III EMERGENCY EXITS

Significance: Agency Priority

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355 to 1357; 49 USC 1401; 49 USC 1421 to 1430; 49 USC 1472; 49 USC 1485; 49 USC 1502; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This notice will propose to amend the Federal Aviation Regulations to require improved access to Type III emergency exits in transport category airplanes. This proposal is the result of tests which were conducted at the FAA's Civil Aeromedical Institute and is intended to improve the ability of occupants to evacuate an airplane under emergency conditions. It will be applicable to air carriers, air taxi operators, and commercial operators of transport category airplanes, as well as the manufacturers of such airplanes. This rulemaking is considered significant because it involves an important cabin-safety issue.

1918. ● + RULES OF PRACTICE FOR FAA CIVIL PENALTY ACTIONS

Significance: Agency Priority

Legal Authority: 49 USC 1354(a); 49 USC 1374(d); 49 USC 1401 to 1406; 49 USC 1421 to 1428; 49 USC 1471; 49 USC 1475; 49 USC 1481 to 1482; 49 USC 1484 to 1489; 49 USC 1523

CFR Citation: 14 CFR 13

Legal Deadline: None

Abstract: This notice invited public comment on policy issues and proposed changes to the rules of practice regarding the FAA's civil penalty authority in actions not exceeding $50,000 for a violation. Several objections to the final rule, raised by individuals and by organizations representing air carriers, airport operators, and pilots, will be reexamined. The comments will assist in consideration of changes to the rules of practice to be applied in future and, where appropriate, pending civil penalty actions. This action is considered significant because of substantial congressional and public interest.

Abstract: This action would revise and upgrade the Parts 121 and 135 training, checking, certification, and qualification requirements, including cockpit resource management. In addition, commuter air carriers conducting Part 135 commuter operations in airplanes that require two pilots would be required to meet the proposed upgraded Part 121 requirements. This action is in response to recommendations of the joint Government/Industry Task Force on Flight Crew Performance and is significant because of its safety implications.

Abstract: This notice proposed to require installation of an improved emergency locator transmitter (ELT) that meets the requirements of a revised Technical Standards Order (TSO) on U.S.-registered airplanes and to terminate approval to use ELT's authorized under the original TSO issued for this equipment. The new equipment would be required for future installations. This proposal is prompted by unsatisfactory performance experienced with ELT's that are manufactured under the original TSO and relates to safety recommendations by the National Transportation Safety Board and the search and rescue community. Although most of the unsatisfactory field experience has been with automatic ELT's, the FAA is also proposing improved standards for survival ELT's. This proposal would save lives by increasing the number of survivors rescued after aircraft accidents. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice would revise the operating rules for air taxi and commercial operators by requiring that all turbine-powered (rather than just turbojet) airplanes with ten or more seats be equipped with an approved ground proximity warning system. The

proposed changes are needed because studies have shown that several terrain accidents involving turbo-propeller powered airplanes might have been avoided had the airplanes been equipped with a ground proximity warning system. This proposed rule is intended to reduce the risk of airplanes being flown into terrain with no apparent awareness by the crews that they are approaching the ground. This rulemaking is considered significant because of safety implications.

CFR Citation: 14 CFR 23

Legal Deadline: None

Abstract: This notice would propose to amend emergency egress requirements of the airworthiness standards for normal, utility, acrobatic, and commuter category airplanes. These proposed rules are necessary to improve the compatibility of the requirements for emergency exit provisions of commuter category airplanes with the corresponding requirements for similar sized transport category airplanes. These proposals provide alternative emergency exit requirements, applicable to commuter category airplanes, when additional bin safety features are included in the airplane design, and include specific requirements for flight crew emergency exits, emergency exit ditching provisions, and the size requirement of the passenger entry door for commuter category airplanes. This rulemaking is considered significant because it involves a cabin-safety issue.

Abstract: This action proposed changes to the airworthiness standards to improve the crash resistance of fuel systems on normal, utility, acrobatic, and commuter category airplanes. The FAA has determined that improved crash resistance of these fuel systems is necessary to prevent deaths and injuries due to fire in survivable crashes. The proposed design changes would limit fuel spillage near ignition sources and would provide additional time for the survivors to evacuate the airplane.

Abstract: This notice proposes to revise the performance requirements for transport category rotorcraft. The proposed changes are needed to define more clearly the factors for determining takeoff distances for transport category rotorcraft and to add several other relevant standards. If adopted, these changes would provide for an improved level of safety achievable because of recent technological advances in turboshaft engine design and associated rotorcraft design.

Abstract: Advance notice proposed the addition of a new paragraph, FAR Section 33.35(f), to incorporate requirements for the fuel mixture to go to full-rich if a disconnect occurs in the mixture linkage. NPRM would require both the fuel-air mixture control device and throttle control device to move automatically to an acceptable position for continued safe operation in the event that the control linkage of these levers becomes disconnected.

Abstract: This notice proposes to amend the Federal Aviation Regulations to minimize the failure hazards of high speed powerplant rotor systems used in turboshaft engines in newly designed transport category rotorcraft. Engine rotor failures have occurred resulting in the release of high energy rotor fragments or other engine component fragments. These fragments have impacted and damaged critical rotorcraft structures, systems, controls, and adjacent engines, as well as caused serious or fatal injuries to passengers and crewmembers. This proposal, if adopted, is intended to eliminate these hazards.

Abstract: This action would amend the Federal Aviation Regulations to require the servicing of airplane tires with nitrogen, in lieu of air, as the need to fill or service the tires occurs. This action is prompted by three confirmed, and other suspected, cases in which the oxygen in air-filled tires combined with volatile gases given off by a severely overheated tire, and exploded upon reaching autoignition temperature. A tire explosion in the wheel well during flight is suspected in the catastrophic loss of one airplane and severe damage to two others. An Airworthiness Directive has been adopted which affects current large transport category airplanes. The changes proposed in this rulemaking would extend the provisions of the Airworthiness Directive to future transport category airplanes.

1956. BIRD STRIKE DAMAGE ASSESSMENT

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g)

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would amend the Federal Aviation Regulations by upgrading the standards for protecting transport category airplanes from bird impact damage by requiring that airplanes be designed such that: (1) only minor damage would result from impact with a 4-pound bird and (2) the airplane would be capable of continued safe flight and landing after impact with an 8-pound bird. These standards are needed because of possible vulnerability of new technology flight controls, flight instruments, and flight structures to bird strike damage. These proposed changes are based on research and service experience and are intended to improve survivability of the airplane by providing better protection of critical structures and systems.

1957. 1-G STALL SPEED AS A BASIS FOR COMPLIANCE WITH PART 25

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g)

CFR Citation: 14 CFR 25; 14 CFR 36

Legal Deadline: None

Abstract: The low speed stalling features of some transport category airplanes are not characterized by the nose-down pitching that has traditionally identified the stall. As a result, the stall speed can be demonstrated to an artificially low level by continuing to decrease speed to the point that the airplane load factor is substantially less than one. The maximum usable power level may vary considerably with flight conditions. To correct this problem, this action would propose the use of a 1-G stall speed in all areas of Parts 25 and 36.

Abstract: Special Federal Aviation Regulation (SFAR) 27 prescribes standards and test procedures for fuel venting and exhaust emissions for the turbine powered airplanes. This proposal would replace SFAR 27, as amended through SFAR 27-6, with a new Part 34 of the Federal Aviation Regulations which will include all of the standards and test procedures of 40 CFR 87 previously included in SFAR 27. This will codify in a single part all of the applicable requirements of 40 CFR 87, Control of Air Pollution from Aircraft and Aircraft Engines; Emissions Standards and Test Procedures, as amended, December 30, 1982, and insert requirements to comply with Part 34 in the other affected Parts where applicable. PL 100-223, Section 303, Airport and Airway Safety and Capacity Enhancement Act of 1987.

Abstract: This action proposes new requirements for water survival equipment carried aboard airplanes and rotorcraft. The requirements would apply, after specified dates, to US-certificate holders that conduct common-carriage operations with airplanes and rotorcraft. This proposal is in response to the Airport and Airway Safety and Capacity Enhancement Act of 1987 (PL 100-223) and relates to safety recommendations by the National Transportation Safety Board. The proposed requirements are intended to increase the likelihood of aircraft passengers surviving a crash landing in water and, thus, this rulemaking is significant because of the safety implications.

PL 100-223 Sec 303

Abstract: The FAA proposes to require that all seats of transport category airplanes used in air carrier operations and transport category airplanes used in scheduled intrastate service comply with improved crashworthiness standards. The Airport and Airways Safety and Capacity Expansion Act of 1987 directs the Secretary of Transportation to initiate a rulemaking proceeding to consider requiring all seats onboard all air carrier aircraft to meet improved crashworthiness standards based upon the best available testing standards. The intended effect of this action is to increase passenger protection and survivability in survivable impact accidents. This rulemaking is considered significant because of its safety implications and statutory requirements.

Abstract: This proposed Special Federal Aviation Regulation (SFAR) would establish a voluntary alternative method for meeting the training, evaluation, certification, and qualification requirements for flight crewmembers, flight attendants, aircraft dispatchers, instructors, evaluators, and other operations personnel subject to the training requirements of 14 CFR Part 121 and Part 135. The FAA has developed this alternative method in response to recommendations made by a task force composed of representatives from the Government, airlines, aircrew professional organizations, and airline industry organizations. The proposed SFAR is designed to improve aircrew performance and would allow certificate holders that are subject to the training requirements of Part 121 and Part 135 to develop innovative training programs that incorporate the most recent advances in training methods and techniques. This rulemaking is significant because of substantial public interest.

Abstract: This notice proposes amendments to the FAR which would provide for improved cabin fire protection for transport category airplanes by requiring: (1) each lavatory to be equipped with a smoke detector system which provides warning to the cockpit or to the passenger cabin crew; (2) each lavatory trash receptacle to be equipped with a fire extinguisher which discharges automatically upon the occurrence of a fire within the receptacle; (3) the number of hand fire extinguishers in the cabins of airplanes with passenger seating capacities greater than 200 to be increased; (4) a specified number of the hand fire extinguishers in the cabin to contain Hallon 1211 or equivalent as the extinguishing agent. These safety protections are currently required for operation of airplanes used in air carrier service, but not for the full range of transport category airplanes such as those used for executive transportation. Abstract: This action proposes to amend the Federal Aviation Regulations to update, clarify, and consolidate into one part, new Part 119, the certification and operations specifications requirements for persons who conduct passenger-carrying or cargo-carrying air operations for compensation or hire. Significant changes include defining what must be included in operations specifications; defining "scheduled" and "domestic" operations; increasing the lead-time period for application for a certificate; defining a "wet lease" operation; including in the regulations criteria to determine who has operational control of an operation; and standardizing the requirements and qualifications for management personnel. This action is needed to establish permanent minimum safety standards following the "sunset" of the Civil Aeronautics Board on December 31, 1984, and the enactment of the Airline Deregulation Act of 1978. This action would also replace SFAR 38, as amended, which has provided interim certification and operations specifications regulation. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: The current regulations need to be revised to account for the changed operational practices stemming from airline economic deregulation. This proposal would clarify or change the number of flight attendants required when passengers are on board an airplane, including at stops. This proposal includes two new requirements: (1) a revision of the reduced number of flight attendants which, under certain conditions, a carrier is permitted to have on board a passenger-carrying airplane during stops; and (2) a requirement for a demonstration of competency by the other authorized persons who may be permitted to be substituted for required flight attendants when passengers are on board the airplane during stops. This proposal would change the current rule by clarifying and specifying the training required to be completed by these other authorized persons. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed rules under which two or more alcohol- or drug-related motor vehicle convictions or related State administrative actions would be grounds for certificate action against a pilot. This notice also proposed rules under which a pilot's medical certificate would expire, requiring that the pilot apply for a new medical certificate, after an alcohol- or drug-related motor vehicle action. The notice proposed to require pilots to report alcohol- or drug-related motor vehicle actions to the FAA and proposed to add an express consent provision to facilitate FAA access to information reported to the National Driver Register. The proposed rules are needed to prohibit a pilot from operating an aircraft after multiple alcohol- or drug-related motor vehicle actions. This rulemaking is a significant FAA initiative based on the Department of Transportation/Inspector General Report of February 17, 1987, entitled "Report on Audit of Airmen Medical Certification Program."

Significance: Agency Priority

Legal Authority: 49 USC 1343; 49 USC 1346; 49 USC 1348; 49 USC 1354(a); 49 USC 1355; 49 USC 1401; 49 USC 1421; 49 USC 1422 to 1430; 49 USC 1472(c); 49 USC 1502; 49 USC 1522; 49 USC 106(g)

CFR Citation: 14 CFR 170

Legal Deadline: Final, Statutory, December 31, 1988.

Abstract: This rulemaking would prescribe benefit-cost based criteria for establishment and discontinuance of visual flight rule (VFR) airport traffic control tower facilities. It considers traffic density (number of aircraft operations without consideration of aircraft size), passengers served, and aircraft operating efficiencies along with the cost of establishing and maintaining or decommissioning a tower. The FAA utilizes these criteria to assess benefits and costs associated with establishing or decommissioning an airport traffic control tower at an airport as a part of its mission to maximize safety and efficiency throughout the airport and airway system consistent with available resources. This regulation, if promulgated, would implement the requirements of recent legislation requiring the publication of criteria for navigational aids and airport traffic control towers as a Federal regulation. This rulemaking is significant because of statutory requirements.

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: This notice proposes to amend the airborne low-altitude windshear equipment rule to: (1) remove the requirement that windshear flight guidance be installed on older airplanes; (2) amend the provision allowing for an extended compliance period based on a phased airplane retrofit schedule; and (3) provide for acceptance of alternative airplane equipment in the form of an approved airborne windshear detection and avoidance system.

This proposed amendment is based, in part, on information contained in a petition for rulemaking dated June 1, 1989, submitted by the Air Transport Association. The information was not available to the FAA when it was formulating the windshear equipment rule.

This notice solicits public comments on the issues presented in ATA's petition to assist the FAA in determining the merit of this proposal.

This rulemaking is considered significant because of substantial public interest.

Abstract: This rulemaking would revise the schedule for installing traffic alert and collision avoidance systems (TCAS II) on airplanes with more than 30 passenger seats. The TCAS II system will provide a collision avoidance capability that operates independently of the ground-based air traffic control system and in areas where there is no air traffic control coverage. Congress recently passed legislation permitting an extension of the schedule. This action would implement that legislation, reduce the prospect that carriers will divert critical maintenance and modification resources away from other safety programs to meet the TCAS II schedule, and allow the FAA to evaluate operation of TCAS II in the total air traffic control environment. This rulemaking is significant because of substantial Congressional and public interest.

Abstract: This rulemaking would suspend certain provisions of the regulation which require the installation and use of automatic altitude reporting transponders. This suspension would allow certain aircraft operations in the airspace within 30 miles of a terminal control area primary airport to be conducted without an automatic altitude reporting transponder. Abstract: This action would amend various sections of the regulations. Some of the amendments are clarifying or editorial in nature or correct improper or obsolete references. Others relax certain existing requirements. Others allow issuance of special flight permits for an additional purpose, relax a requirement for passenger information signs, and eliminate the bulk erasure device on cockpit voice recorders. This action is in response to numerous complaints, suggestions, and petitions for exemption concerning several regulatory requirements received from users of the National Airspace System. These users state that these sections contain obsolete references and vague, complex, and inadequate language and that, in some instances, the cost of compliance is not justified by the benefits derived.

1991. SMALL AIRPLANE AIRWORTHINESS REVIEW PROGRAM NOTICE NO. 5

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g)

CFR Citation: 14 CFR 23; 14 CFR 91; 14 CFR 135

Legal Deadline: None

Abstract: This notice is one of a series of notices that proposes to adopt new and amended airworthiness standards for small airplanes. It also proposes to amend the flight instrument requirements in the general operating rules and the operating rules for air taxi and commercial operators. This particular notice proposes amended design requirements for complex systems critical for safety in small airplanes and amended requirements for locating certain instruments, including new technology electronic display indicators. It proposes to add a new airworthiness standard for electronic display instruments. It also includes related changes to the general and air taxi operating rules to allow a third attitude indicator in lieu of a rate-of-turn indicator.

CFR Citation: 14 CFR 1; 14 CFR 23

Legal Deadline: None

Abstract: This notice is one of a series of notices that proposes to adopt new and amended airworthiness standards for small airplanes which are based on certain proposals discussed at the Small Airplane Airworthiness Review Conference held on October 22-26, 1984, in St. Louis, Missouri. These new and amended airworthiness standards result in the need for new definitions to be added to the regulations, and this notice also proposes the addition of those definitions. The proposals in this notice reflect advancements in technology being incorporated in current designs, permit type certification of spin resistant airplanes, and reduce the regulatory burden in showing compliance with some of the requirements while maintaining the standards governing the design and type certification of small airplanes as may be required in the interest of safety.

1993. ROTORCRAFT REGULATORY CHANGES BASED ON EUROPEAN JOINT AIRWORTHINESS REQUIREMENTS PROPOSAL

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 27; 14 CFR 29

Legal Deadline: None

Abstract: This notice proposes changes to the type certification requirements for both normal and transport category rotorcraft. The changes would revise airworthiness standards for systems, propulsion, and airframes and would introduce safety improvements, clarify existing regulations, and standardize terminology. The changes are based on some of the proposals that were submitted to the FAA by the European Joint Airworthiness Requirements 29 group. These proposals are intended to encourage the European community's acceptance of the Federal Aviation Regulations' rotorcraft type certification requirements and to obviate the development of a new and different European standard. Adoption of these changes will achieve increased commonality of airworthiness standards among the respective countries.

1994. IMPROVED STRUCTURAL REQUIREMENTS FOR PRESSURIZED CABINS AND COMPARTMENTS IN TRANSPORT CATEGORY AIRPLANES

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would amend Part 25 of the Federal Aviation Regulations (FAR) to upgrade the structural requirements for transport category airplane pressurized cabins by (1) amending the criteria for evaluation of the secondary effects of openings in the pressure vessel, and (2) extending the area of consideration to include openings anywhere within the pressure vessel. The required opening sizes to be considered would not be changed. The proposal is the result of an FAA review of the pressurized cabin load requirements and is intended to make the pressurized cabin load requirements less design-dependent and more objective. It would require evaluation of openings in any pressurized compartment and examination of the effects of differential pressure loads on any critical structure inside or outside of the pressurized cabin.

CFR Citation: 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This notice proposed to modify the procedures for conducting an emergency evacuation demonstration by requiring that the flight crew take no active role in the demonstration and by changing the age/sex distribution requirement for demonstration participants. This notice also proposed to standardize the illumination requirements for the handles of the various types of passenger emergency exits. In addition, it is proposed to add a requirement for a "push to talk" switch to the public address system. These proposals are intended to enhance the provisions of transport category airplanes for egress of occupants during emergency conditions.

Abstract: This notice proposes to amend the Federal Aviation Regulations to add a new standard for transport category airplanes which would provide lightning protection requirements for installed electrical and electronic systems. This proposal is the result of increasing concern for the vulnerability of these systems to the indirect effects of lightning. It seeks to promulgate specific lightning protection requirements for electrical systems which perform essential or critical functions.

Legal Deadline: None

Abstract: This notice proposes to amend the airworthiness standards for transport category airplane landing gear aural warning systems and the operating rules for using transport category airplanes to update the present requirements. This proposal is prompted by reports of nuisance or inappropriate aural warnings which have occurred in modern transport airplanes which adhere strictly to the present regulations. It is intended to align the regulations with existing design practices thereby removing the regulatory burden associated with making an equivalent level of safety finding or exemption for those systems that do not meet the existing requirements. This proposal will not affect existing certificated airplanes.

2000. PROPOSED ESTABLISHMENT OF THE WASHINGTON TRI-AREA TCA AND REVOCATION OF THE WASHINGTON, DC, TCA AND AIRPORT RADAR SERVICE AREAS AT BALTIMORE-WASHINGTON AND DULLES AIRPORTS

Significance: Nonsignificant

Legal Authority: 49 USC 1348(a); 49 USC 1354(a); 49 USC 1510; EO 10854; 49 USC 106(g)

CFR Citation: 14 CFR 71

Legal Deadline: None

Abstract: This notice proposed to establish a Terminal Control Area (TCA) in the greater Baltimore/Washington, DC, area. Because the TCA would serve airports located in three different areas (Washington, DC, Maryland, and Virginia) the TCA would be established as the Washington TRI-Area TCA. The TCA would encompass four major airports: Andrews Air Force Base, Baltimore-Washington International, Dulles International, and Washington National. The TCA would consist of airspace from the surface or higher within a 20-mile radius of each airport up to and including 10,000 feet above mean sea level. This action is intended to increase the capability of the air traffic control system to separate all aircraft in the terminal airspace around these airports and to substantially increase safety while accommodating the legitimate concerns of airspace users.

Abstract: This notice proposes to establish a Terminal Control Area (TCA) at the Tampa International Airport, Florida. The TCA would consist of airspace from the surface up to 10,000 feet mean sea level within a 5-nautical-mile arc based on the Tampa International Airport, airport surveillance radar site located on the airport. The TCA extends outward to 30 nautical miles with altitude restrictions from 6,000 to 10,000 feet mean sea level. Establishment of this TCA would impose certain operating rules and pilot/equipment requirements, including requirements for an operable two-way radio, a 4096 transponder with automatic altitude-reporting equipment, an operable very high frequency omnidirectional radio range or tactical air navigational aid receiver, and restrictions on student pilot operations. This action is intended to increase the capability of the air traffic control system to separate all aircraft in the terminal airspace around the Tampa International Airport. Tampa International Airport is currently served by an Airport Radar Service Area which would be rescinded concurrent with the establishment of this TCA.

Abstract: This notice proposed changes to the certification and operation regulations of land airports serving air carriers. These actions regarding certification requirements and the control of ground vehicles on an airport are necessary for consistency with existing operating regulations and to address concerns that the current language appears to place undue responsibility and liability on certificate holders. The proposed changes are intended to permit use of uncertificated airports, by air carriers in unscheduled service, in certain situations and clarify responsibility for compliance with airport rules for the operation of ground vehicles by individual tenants, contractors, and employees.

Abstract: This notice proposes to revise the airworthiness standards for transport category airplanes concerning flutter, divergence, vibration, and buffet. It would clarify the requirement to consider flutter and divergence when treating certain damage and failure conditions required by other sections of the Federal Aviation Regulations. It would revise the required safety margins by slightly reducing the safety margin concerning airplane speed for normal configurations and providing a minimum safety margin concerning airplane speed for damage and failure configurations. These changes are intended to provide consistency with other sections of the Federal Aviation Regulations, to relieve a design burden which is now unnecessary as a result of advances in technology, and to improve certain safety margins as a result of the evolution in the design of transport airplanes.

Significance: Regulatory Program

Legal Authority: 49 USC 1348; 49 USC 1502; 49 USC 1510; 49 USC 1522; 49 USC 106(g) Revised Pub L 97-449, January 12, 1983

CFR Citation: 14 CFR 99

Legal Deadline: None

Abstract: This action establishes requirements for all civil aircraft to be equipped with a transponder (basic transponder or Mode S transponder) with automatic altitude reporting equipment when conducting operations into or out of the United States into, within, or across the contiguous United States Air Defense Identification Zone. This rulemaking was considered significant because of substantial public interest.

2011. + EXIT ROW SEATING

Significance: Regulatory Program

Legal Authority: 49 USC 1354(a); 49 USC 2355; 49 USC 1356; 49 USC 1357; 49 USC 1401; 49 USC 1421 to 1430; 49 USC 1472; 49 USC 1485; 49 USC 1502; 49 USC 106(g)

CFR Citation: 14 CFR 121; 14 CFR 135

Legal Deadline: None

Abstract: This final rule regulates exit-row seating in aircraft operated by U.S. air carrier and commercial operators (certificate holders), except on-demand air taxis with nine or fewer passenger seats. Only persons who are determined by the certificate holder to be able, without assistance, to activate an emergency exit and to take the additional actions needed to ensure safe use of that exit in an emergency are seated in exit rows. This rulemaking was significant because of substantial public interest.

2012. + AIRWORTHINESS STANDARDS; TRANSPORT CATEGORY ROTORCRAFT STRUCTURAL FATIGUE EVALUATION

Significance: Agency Priority

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49

CFR Citation: 14 CFR 29

Legal Deadline: None

Abstract: This final rule amends the type certification standards for transport category rotorcraft by adding flaw tolerance requirements to the requirements for fatigue evaluation of structures. This rule also extends the requirements for fatigue evaluations from flight structures only to all critical structures, including landing gear, and requires consideration of operations having a high number of power cycles per hour. This rule is intended to avoid or reduce catastrophic fatigue failures in transport category rotorcraft. This rulemaking is considered significant because of substantial public interest.

2013. + AIRWORTHINESS STANDARDS; OCCUPANT RESTRAINT IN NORMAL AND TRANSPORT CATEGORY ROTORCRAFT

Significance: Agency Priority

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 27; 14 CFR 29

Legal Deadline: None

Abstract: This final rule amends the airworthiness standards for normal and transport category rotorcraft by adding two dynamic crash impact design conditions for seat and occupant restraint systems and by increasing the static design load factors for seating devices and items of mass in the cabin or adjacent to the cabin as prescribed. This rule also prescribes a shoulder harness for each occupant and adopts human impact injury criteria as a measure for occupant protection for dynamic crash impact conditions. This rule, consistent with the present state of the art, significantly improves occupant protection for normal and transport category rotorcraft in a survivable emergency landing impact mode. This rulemaking is considered significant because of the obvious safety improvements in crash situations and also because of industry and operator concerns as to incurred costs due to increased weight and design efforts.

Significance: Agency Priority

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 25; 14 CFR 121; 14 CFR 135

Legal Deadline: None

Abstract: This final rule amends the airworthiness standards for transport category airplanes and the operating rules for air carrier and air taxi operators of such airplanes to ensure the availability of the public address system during emergency conditions by requiring an independent public address system power source. This rule is intended to increase airplane safety by facilitating the rapid evacuation of passengers under such conditions. This rule is applicable to airplanes that are required to have a public address system for use in air carrier, air taxi, or commercial service and that are manufactured on or after a specified date, regardless of the date of application for a type certificate. This rule does not apply to airplanes operated by persons other than air carriers, air taxis, and commercial operators. This rulemaking is considered significant because it involves an important cabin safety issue.

2015. ● + ANTI-DRUG PROGRAM FOR PERSONNEL ENGAGED IN SPECIFIED AVIATION ACTIVITIES

Significance: Agency Priority

Legal Authority: 49 USC 1354(a); 49 USC 1355; 49 USC 1356; 49 USC 1357; 49 USC 1401; 49 USC 1421 to 1430; 49 USC 1472; 49 USC 1485; 49 USC 1502; 49 USC 106(g)

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: On November 21, 1988, the FAA adopted regulations requiring preemployment, post-accident, reasonable cause and random drug testing. Those individuals required under Federal law or regulation to have periodic medical examinations were also required to undergo a drug test at the same time. This final rule announces a delay in the compliance date for drug testing, insofar as those regulations would require testing of persons located outside the territory of the United States. Under this final rule, employees located outside the territory of the United States must become subject to testing no later than January 2, 1992. This extension of the compliance date is adopted in order to allow negotiation with foreign governments to continue in an orderly and effective fashion. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 91

Legal Deadline: None

Abstract: On October 14, 1988, the FAA published a final rule (53 FR 40318) which required that all aircraft operating in a TCA be equipped with very high frequency omnidirectional range or tactical air navigation equipment. In a separate action, on June 26, 1989, the FAA published Notice No. 89-17 (54 FR 26782) which proposed to eliminate the navigational equipment requirements associated with aircraft operations in a TCA. Specifically, the notice proposed to eliminate the navigational equipment requirement for any aircraft conducting operations in a TCA under visual flight rules. This final rule, which delays the current effective date of the previous equipment requirement exclusion applicable to helicopters from January 1, 1990, to October 1, 1990, will allow affected operators to delay the purchase of equipment should that proposal be adopted and will provide the FAA with the necessary time to consider comments and reach a decision regarding the proposal in Notice No. 89-17. This rulemaking was significant because of substantial public interest.

CFR Citation: 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This final rule requires that fuel tank access covers on transport category airplanes be designed to minimize penetration by likely foreign objects and be fire resistant. This final rule also requires that all turbine-powered airplanes operated in air carrier service after October 30, 1991, meet these new standards. This rulemaking was considered significant because it involved an important crashworthiness safety issue.

Abstract: This final rule establishes a Terminal Control Area (TCA) at Phoenix Sky Harbor International Airport, Arizona. The TCA will consist of airspace from the surface or higher within a 25-mile radius of Phoenix Sky Harbor International Airport to and including 10,000 feet above mean sea level. This action will increase the capability of the air traffic control system to separate all aircraft in the terminal airspace around Phoenix Sky Harbor International Airport. Phoenix Sky Harbor International Airport is currently served by an Airport Radar Service Area which is rescinded concurrent with the establishment of this TCA. This rulemaking is considered significant because of substantial public interest.

Abstract: This part prescribes procedural requirements for the issuance of type certificates and changes to those certificates; the issuance of production certificates; the issuance of airworthiness certificates; and the issuance of export airworthiness approvals. In addition it prescribes rules governing the holders of these certificates and procedural requirements for the approval of certain materials, parts, processes, and appliances.

In accordance with the Regulatory Flexibility Act of 1980, the FAA has completed an initial review of Part 21 and has determined that a number of sections of that part impose a significant economic impact on a substantial number of small entities. Therefore, a full regulatory flexibility analysis of those sections will be conducted, and the results of that analysis will be published in the Federal Register.

Abstract: This rule adopts new and revised airworthiness standards for certification of airframe and related equipment on both normal and transport category rotorcraft. In addition, one amendment changes an operating rule affecting external load operators. These amendments grew out of a rotorcraft regulatory review program and the recognition by both government and industry that updated safety standards are needed. These amendments provide a high level of safety in design requirements, while removing certain unnecessary existing burdens and better utilizing the unique characteristics and capabilities of rotorcraft.

Legal Deadline: None

Abstract: On March 29, 1989, the FAA published a final rule, Certification of Recreational Pilots and Annual Flight Review Requirements for Recreational Pilots and Non-Instrument Rated Private Pilots (54 FR 13028). This action amends that final rule to clarify the meaning of the phrase "flight time" in the requirements for an annual flight review; to clarify the new annual flight review requirements for certain pilots who have recently met the biennial flight review requirements; to clarify new pre-solo requirements for student pilots with a recent solo endorsement; and to modify the pre-solo flight instruction and the annual flight review requirements for certain glider-rated private pilots.

These minor revisions are necessary to provide for transition to the new student, recreational, and private pilot rules and the annual flight review

requirements. The revisions are intended to respond to comments raised but not resolved fully when the final rule was being adopted.

Abstract: This final rule adopts fatigue requirements for empennage, canard, tandem wing, and winglet/tip fin structures for airplanes certificated in the normal, utility, acrobatic, or commuter category. Service history, airworthiness directives, and field reports related to unsafe, or potentially unsafe, fatigue failures of empennage structural components on airplanes of these types have shown the need to consider empennage fatigue strength during type certification. Due to recent developments in airplane designs in which conventional wing and empennage configurations are being replaced or modified by canard, tandem wing and winglet/tip fin structures which also are essential for safe flight, fatigue requirements for these new structures are included. This final rule establishes a level of safety for the prevention of catastrophic fatigue failures of these structures.

Abstract: This project would: (1) reclassify terminal control areas into one category; (2) apply the operating requirements of the current Group I TCA to Group II TCA's; (3) require student pilots to obtain a logbook endorsement from a certified instructor pilot prior to operating in any TCA; (4) replace the term "airport traffic area" with the term "control tower area;" (5) apply the two-way radio communications requirements of Section 91.87 for operations at an airport with an operating control tower operated by other entities; (6) adopt a new definition for airport traffic areas (control tower areas); (7) redefine control zones with a standard ceiling of 3,000 feet AGL; and (8) use nautical miles versus statute miles to describe certain terminal airspace designations. These issues have been subsumed in the broader airspace reclassification proceeding and have been consolidated therein.

CFR Citation: 14 CFR 91

Legal Deadline: None

Abstract: This final rule establishes standard visibility and cloud clearance minimums for night-visual flight rules (VFR) operations. Except for helicopter operations in uncontrolled airspace and fixed-wing operations in a closed traffic pattern in uncontrolled airspace, these minimums apply to such operations regardless of whether the operation is conducted in controlled or uncontrolled airspace. The FAA originated this rulemaking effort as a result of a recommendation of a nongovernmental aviation safety panel. This panel's recommendation sought to reduce the incidence of fatal aircraft accidents associated with VFR flights in

instrument flight rules conditions while in uncontrolled airspace. Such accidents have occurred under the visibility and cloud criteria of the existing rule.

Abstract: This action withdraws a notice of proposed rulemaking which proposed to amend the Federal Aviation Regulations to provide helicopter instrument flight airworthiness standards for approach and landing phases to permit flight at airspeeds below the normal minimum instrument flight speed. The objective of the notice was to permit decelerating instrument approaches and thus shorten required landing distances. The FAA has carefully considered all of the comments received in response to the notice, the comments made at a public meeting, and the results of further research flight tests. As a result, the FAA has concluded that additional study is required to identify what is required to permit the decelerating approaches. Accordingly, the notice has been withdrawn.

Abstract: This action rescinds a regulation that segregated uncontrolled general aviation aircraft from military turbojet aircraft operating under visual flight rules within a segment of airspace west of Phoenix, Arizona, south of Luke Air Force Base, and within the confines of a portion of VOR Federal Airway No. 16. The regulation is no longer needed because the number of such aircraft operations has been significantly reduced and aircraft are required to have a transponder with automatic altitude reporting equipment (Mode C transponder) in the airspace within 30 nautical miles of the Sky Harbor International Airport, Phoenix, Arizona. This final rule does include a 30-day comment period. If any comments are received in response to this final rule, a disposition of those comments will be published in the Federal Register.

Abstract: On January 4, 1989, the FAA published a final rule (54 FR 260) establishing warning areas in airspace subject to FAA jurisdiction in order to reflect Presidential action extending the territorial sea of the United States, for international purposes, from 3 to 12 nautical miles from the United States coast. The warning areas were established in the same location as non-regulatory warning areas previously designated over international waters. The Department of Defense conducts hazardous military flight activities in these areas. The areas had been established for a period of 1 year to permit the FAA to consider the need for rulemaking action to meet military training needs in this airspace. This action continues for an additional 12 months the effectiveness of these areas while airspace analyses and rulemaking efforts are ongoing.

Abstract: On August 22, 1989, the FAA published a final rule (54 FR 34904) which made several technical amendments to the regulations pertaining to the allocation and transfer of air carrier and commuter operator slots at Kennedy International Airport, LaGuardia Airport, O'Hare International Airport, and Washington National Airport. Among other revisions, the final rule changed the definition of aircraft authorized for operations in "scheduled commuter" slots from any aircraft with a maximum passenger seating capacity of less than 56 seats to propeller-driven aircraft with less than 75 seats. This action delays the effectiveness of the final rule only insofar as it would prohibit turbojet aircraft with a maximum certificated seating capacity of less than 56 seats to operate the scheduled commuter slots.

Abstract: This final rule alters the Seattle, Washington, Terminal Control Area (TCA). This rule will raise the upper limits of the TCA to 10,000 feet mean sea level to enable air traffic control to provide terminal air traffic control service to arriving and departing turbojet aircraft in a TCA environment throughout transition to and from the en route structure. Additionally, this rule will extend the lateral limits of the TCA north and south to 30 nautical miles, east and west to 18 nautical miles from the airport, to provide an area wherein air traffic control can provide TCA control and services throughout critical maneuvering phases of flight operations in the terminal area. This rule also redefines several existing subareas which will enhance air traffic procedures and simplify visual flight rule transient operations outside TCA airspace.

Abstract: This rulemaking action responds to a petition filed by the American Diabetes Association (ADA) and others. The current diabetic rule prohibits insulin-using diabetics from driving in interstate or foreign commerce. The ADA has petitioned to change the regulation to provide for exemptions. The purpose of this action is to consider the proposed exemption program. A supplemental ANPRM is being issued to request comments on the development of medical evaluation procedures and risk assessment procedures for insulin dependent diabetics.

2043. + COMMERCIAL DRIVER'S LICENSE STANDARDS; BIOMETRIC IDENTIFIER

Significance: Regulatory Program

Legal Authority: PL 100-202, Sec 9105

CFR Citation: 49 CFR 383

Legal Deadline: None

Abstract: This action will develop improved identification systems for truck and bus drivers as identified by the Congress in the Truck and Bus Regulatory Reform Act of 1988. Such high technology "unique" identifiers, when and if incorporated into the Commercial Driver's License Information System and the related State information systems, would reduce still further the opportunities for a driver to fraudulently obtain multiple licenses and to conceal disqualifying offenses. Alternatives under consideration include, but will not be limited to, retinal eye scans and advanced fingerprint technologies. Potential costs will accrue to the States for startup and operation of the upgraded identification methods, and to drivers and/or employers for incremental licensing costs passed on to them by the States. Safety benefits are expected to flow from the more accurate identification of CDL applicants and tracking of CDL holders' offenses. This rulemaking is significant because of substantial public interest.

Abstract: The FHWA is addressing the issue of the gross vehicle weight rating (GVWR) criterion used to define a "commercial motor vehicle" subject to the Federal Motor Carrier Safety Regulations (FMCSR's). The FHWA is specifically seeking public comment on the enforcement and regulatory capability regarding the rating. This rulemaking is considered significant because of its potential impact on the motor carrier industry.

Significance: Agency Priority

Legal Authority: 49 USC 3102; 49 USC app 2503; 49 USC app 2505

CFR Citation: 49 CFR 390

Legal Deadline: None

Abstract: This rulemaking document proposes revisions to the current requirements contained in 49 CFR 390.21 concerning the marking of motor vehicles. Three areas are being considered for possible revision: (1) the applicability of the marking requirements to all commercial motor vehicles operated in interstate commerce, (2) postcard type registration of motor carriers, and (3) the treatment of rental vehicles. The third area of concern is being considered in response to a request for interpretation filed by the Truck Rental and Leasing Association (TRALA). This rulemaking is considered significant because of the public interest in commercial motor-carrier safety.

Legal Deadline: None

Abstract: Sections 207-209 of the Motor Carrier Safety Act of 1984 establish a process whereby any State law or regulation pertaining to commercial motor vehicle safety in interstate commerce will be reviewed and analyzed by the Commercial Motor Vehicle Safety Regulatory Review Panel (Safety Panel). The Safety Panel is to determine if such law or regulation has the same effect as, is less stringent than, or is additional to or more stringent than the Federal Motor Carrier Safety Regulations. Based on the determination of the Safety Panel, the Secretary is to initiate a rulemaking proceeding to determine if such a law or regulation may remain in effect and enforced. This notice of proposed rulemaking is the initial rulemaking action for any possible preemptive action by the Secretary. It will contain alternatives for comment on ways the Secretary may satisfy the requirements of section 208 of the Act. Section 9109 of the Truck and Bus Safety and Regulatory Reform Act of 1988 extends the deadline for Secretarial preemption under certain conditions until no later than 10/30/91.

Legal Deadline: Final, Statutory, October 31, 1989.
Final action must be taken by 10/31/89.

Abstract: The FHWA is requesting comments on several issues relating to the appropriate use of emergency warning devices for commercial motor vehicles in response to Section 9106 of the Truck and Bus Safety and Regulatory Reform Act of 1988 (Pub. L. 100-690, 102 Stat. 4181). Issues include the use of fuses as an alternative or supplement to bidirectional emergency reflective triangles, as well as all aspects of emergency warning devices, including the type allowed and exemptions and/or condition for use. On 11/9/89, a notice of termination of rulemaking was published at 54 FR 47092 regarding the use of fuses as an alternative or supplement to bidirectional reflective triangles. Based on available information and public comments, it was determined that no enhancement of motor carrier or highway safety would be served by revising current regulations. The remaining issues will be addressed in separate rulemaking actions.

L. 97-424, 96 Stat. 2097), the Secretary may determine which safety or efficiency-enhancing devices are to be excluded when measuring the length and width of vehicles for compliance with federally mandated dimensions. The present system of employing rulemaking proceedings is too time-consuming and cumbersome to meet the needs of industry and is needlessly burdensome for FHWA. Therefore, a new approach will be proposed.

Abstract: The FHWA and NHTSA established an advisory committee to develop a report which includes a recommended rulemaking proposal concerning a uniform system for handicapped parking. The committee will develop its recommendation using a negotiation process. The committee is comprised of persons who represent the interests affected by handicapped parking regulations. The regulations would address: the use of the International Symbol of Access on handicapped plates and placards; fees for plates and placards; and the recognition of out-of-State handicapped plates and placards. It is intended that the problems facing the handicapped traveler would be greatly reduced.

Abstract: This rulemaking action will amend Section 391.43 of the Federal Motor Carrier Safety Regulations (FMCSR's) to permit certain licensed health care professionals to perform physical examinations of commercial motor vehicle drivers. The FHWA is addressing this issue in response to the numerous requests received from motor carriers, medical facilities, physicians, physician assistants (PA's), and nurse practitioners (NP's) to allow PA's and NP's to perform physical examinations under the supervision of licensed doctors of medicine or osteopathy. This action would permit drivers to have their physical examinations performed at more convenient times and locations and perhaps at a lower cost. This action would require health care professionals, who perform the physical examination, to become more knowledgeable of the FMCSR's requirements. The certification and determination that a driver is physically qualified in accordance with the requirements of 49 CFR 391 would remain with the licensed doctor of medicine or osteopathy.

Abstract: Section 12009 of the Commercial Motor Vehicle Safety Act of 1986 establishes 21 requirements under the Commercial Driver's License (CDL) program which States must meet before October 1, 1993 to avoid losing a portion of their Federal-aid highway funds. This regulation will delineate the criteria and standards which the FHWA will use in determining whether a State is substantially in compliance with the 21 requirements. In addition, the rule will include a procedure governing initial and subsequent reviews of State compliance with these requirements.

Significance: Nonsignificant

Legal Authority: PL 99-570; 49 USC 3102; 49 USC app 2505

CFR Citation: 49 CFR 383

Legal Deadline: None

Abstract: To reconcile the training needs of the motor carrier industry with the requirements of the commercial driver's license (CDL) program and the Commercial Motor Vehicle Safety Act of 1989, the FHWA is considering proposing additional minimum Federal standards for State-issued learner's permits that allow drivers to be trained in the operation of commercial motor vehicles (CMVs). Among the alternatives under consideration: Applicants for Commercial Driver Instruction Permits (CDIPs) might need to possess drivers' licenses and undergo record checks analogous to those now required for CDLs; CDIP transactions might be entered in the Commercial Driver's License Information System (CDLIS); and CDIP holders might be explicitly subject to the same disqualifications as CDL holders. Since driver training is nationwide in scope, the FHWA is considering proposing options that would allow a State to issue a CDIP to a driver trainee, or a 90-day CDL to a trained driver, without regard to his/her State of domicile.

Abstract: The FHWA is proposing revisions to the requirements for private motor carriers of passengers and the drivers of private motor vehicles of passengers. The proposed revisions would require private motor carriers of passengers and drivers of private motor vehicles of passengers to operate under the Federal Motor Carrier Safety Regulations (FMCSR). However, the

paperwork burden of these requirements will be minimized and several parts of the FMCSR will not apply to either private motor carriers of passengers or to drivers of such vehicles. This rulemaking is significant in that it is controversial, involving bringing new carriers under the regulatory scheme.

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR 770. The amendments are also intended to provide more authority and flexibility to States and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

Significance: Agency Priority

Legal Authority: 23 USC 315; 49 USC 303

CFR Citation: 23 CFR 771

Legal Deadline: None

Abstract: The need for rulemaking in this area has been caused by recent court decisions. The courts have delayed or halted several important Federal-aid highway projects on the grounds that the proximate effects or impacts from a given highway would constructively use land from a park or historic site. In each instance the FHWA had determined that there existed no constructive use. This determination was based on an analysis of proximity impacts and whether the impacts would substantially impair the functions or values which qualified the property for protection under Section 4(f) of the DOT Act. The FHWA has been operating under an informal policy directive on constructive use since 11/12/85. This rulemaking action would formalize existing policy on constructive use, and future court decisions would address the regulation rather than be based on ad hoc interpretations of specific project facts. This action is considered significant

because of substantial public interest in environmental matters.

Abstract: The Federal Highway Administration (FHWA) is requesting comments on a proposed amendment to the design standards which apply to Interstate highway construction and reconstruction projects eligible to receive funding under the Federal-aid highway program. A revised publication approved by the American Association of State Highway and Transportation Officials (AASHTO) entitled "A Policy on Design Standards--Interstate System, AASHTO 1988" would be substituted for the previous version of these standards last revised June 20, 1967. If the Federal Highway Administration (FHWA) adopts the 1988 document, the new AASHTO publication would constitute the FHWA's policy on geometric design for all federally-assisted construction and reconstruction projects on the Interstate highway system.

Abstract: Due to amendments to the Federal Motor Carrier Safety Regulations (FMCSRs) which have occurred in the past few years, certain information and terminology currently found in the written examinations for drivers is no longer correct. Consequently, the FHWA is amending the written examination, which is given to driver applicants by motor carriers subject to the jurisdiction of the FHWA, to correct the examination's information and terminology. While the revisions are nonsubstantive in nature, they will improve the usefulness of the written examination.

Abstract: The FHWA is amending Part 395, Hours of Service of Drivers, of the Federal Motor Carrier Safety Regulations (FMCSR's) to include an exception for tow truck operators responding to an emergency situation at the request of a law enforcement or emergency response official. This action is being taken in response to a petition submitted by the Towing and Recovery Association of America, Inc., (TRAA) which requested relief from the hours of service requirements of Part 395 for tow truck operators responding to the emergency situation. This amendment will provide needed flexibility to tow truck operators responding to highway emergencies. This rule also arranges the definitions in Section 395.2 alphabetically; adds the definition "on call"; and consolidates the exceptions and exemptions in Section 395.6 of the FMCSR's.

Abstract: This document amends 49 CFR Part 396, Inspection, Repair and Maintenance, of the Federal Motor Carrier Safety Regulations (FMCSR's). The Federal Highway Administration (FHWA) delayed the compliance date to July 1, 1990, when motor carriers are required to implement the periodic inspection requirements contained in the final rule, Inspection; Repair and Maintenance, published on December 7, 1988, (53 FR 49402). On December 12, 1988, the FHWA clarified that provisions of the final rule were to be complied with by December 7, 1989 (53 FR 49968) except as provided for in Part 396. This document also included recent interpretations, makes minor technical amendments to clarify the rule and eliminates certain items from the inspection report. These interpretations are made in response to many requests the FHWA has received to clarify the intent of the final rule. The elimination of some of the items that were to be included in the inspection report was made to simplify the recordkeeping requirements.The final rule (delay in compliance date) was published on 12/8/89 at 54 FR 50722. Significance: Nonsignificant

Legal Authority: 49 USC app 2505; 49 USC 3102

CFR Citation: 49 CFR 394

Legal Deadline: None

Abstract: The FHWA is amending the definition of "reportable accident" for motor carriers operating in interstate commerce by changing the criterion for reporting accidents resulting in only property damage under Part 394 of the Federal Motor Carrier Safety Regulations (FMCSRs). The current dollar value assessment is being replaced with a towaway criterion. "Towaway" is defined as "one or more vehicles incurring disabling damage as a result of the accident and transported away from the scene by a tow truck or another vehicle." Integral to this definition is the term disabling damage. This amendment does not affect the requirement to report a accidents involving injury or death. This action is being taken in an effort to standardize and simplify State and motor carrier industry accident reporting procedures by removing the uncertainty of estimating a dollar value amount. The FHWA is also soliciting comments on two other potential changes: (1) revising the Federal definition of a reportable accident to be consistent with the American National Standard Institute (ANSI) D-16 definition (cont)

Abstract: By an Interim Final Rule published on 11/24/89, the FHWA amended 49 CFR Part 393, Parts and Accessories Necessary for Safe Operation, of the Federal Motor Carrier Safety Regulations (FMCSR's). The amendment allows Mexican motor carriers operating commercial motor vehicles in border commercial zones time to comply with the requirement that every commercial motor vehicle be equipped with brakes acting on all wheels. This action will facilitate the flow of trade and traffic between the two countries without interruption. The FHWA also removed the exception (Paragraph (b)) from 393.1 which deferred application of Part 393 to certain Mexican commercial motor vehicles until November 18, 1989. In this Interim Final Rule the FHWA requested comments on all issues addressed. The FHWA will further review the issue along with public comments before deciding whether further action is necessary.

Abstract: On November 21, 1988, the FHWA issued a final rule (53 FR 47134) requiring motor carriers to have an anti-drug program. This program includes testing drivers who operate commercial motor vehicles (CMV's) in interstate commerce for drug use. The final rule set forth the classes of controlled substances, the types of tests to be conducted, and through reference to 49 CFR 40, Procedures for Transportation Workplace Drug Testing Programs, procedures for testing and reporting of the test results. On November 6, 1989, the FHWA published a notice (54 FR 46616) that stated the FHWA policy regarding implementation of certain provisions of the anti-drug program in view of a preliminary injunction issued on January 6, 1989, enjoining the FHWA from implementing random and certain mandatory post-accident testing of commercial motor vehicle (CMV) drivers. The notice also clarified the types of testing that must be implemented by December 21, 1989. Implementation of the random and certain mandatory post-accident testing provisions of the 11/21/88 final rule will be deferred until further notice.

Additional Information: The rulemaking actions published on the subject of Controlled Substances Testing and listed under Supplemental Timetable were published under RIN # 2125-AA79. The initial Final Rule published on 11/21/88 was considered major under EO 12291. It has been determined that the regulatory actions issued 11/06/89 and 02/01/90 regarding the drug testing program were only clarifying the initial rule. Therefore, they were considered non-major and non-significant. A final rule published on 12/27/89 at 54 FR 53294 deferred the compliance date to 1/2/92 for carriers domiciled in a foreign country.

Abstract: The FHWA amended Parts 383 and 391 of the Federal Motor Carrier Safety Regulations (FMCSR's) to address certain questions that were posed in the final rule (Docket MC-125; Notice No. 87-06) published in the Federal Register on June 1, 1987. Specifically, in this document the FHWA defines "excessive speeding," "reckless driving" and "other serious traffic violations." The FHWA also amended the subject parts to clarify or make minor revisions. Because of the public interest in the issue of commercial motor vehicle safety and the expected benefits of improved transportation safety, this action was considered significant under the regulatory policies and procedures of the Department of Transportation.

Significance: Nonsignificant

Legal Authority: 49 USC 4917; 23 USC 315

CFR Citation: 49 CFR 325

Legal Deadline: None

Abstract: The FHWA had initially decided to withdraw this rulemaking. Upon further review, it was determined that certain amendments were necessary. The final rule amends 49 CFR Part 325 to: (1) incorporate the Environmental Protection Agency (EPA) noise emission standards for commercial motor vehicles operating in interstate commerce; and (2) allow a minimum distance of 31 feet for measuring the level of exterior noise of commercial motor vehicles. This action allows greater flexibility in the enforcement of the noise emission standards. The FHWA is also retaining the 2 decibel (2dB(A)) correction factor for measurements made at accoustically hard sites.

Abstract: The FHWA is amending Parts 390, 391, and 393 of the Federal Motor Carrier Safety Regulations (FMCSRs). This action amends the intracity zone exemption to make it consistent with Truck and Bus Safety and Regulatory Reform Act of 1988 (the Act) (Title IX, Subtitle B of PL 100-690, 102 Stat. 4181). It also exempts certain foreign motor carriers from the provisions of 49 CFR Part 393 for a period of one year from the date of enactment of the Act (i.e., 11/18/89). The Act also required the Secretary to report to Congress on the effects of the delayed application and recommend "on the extent to which foreign motor carriers may or should comply with all or any of the requirements of Part 393." The final rule published on 3/24/89 requested comments on the application of Part 393 to foreign motor carriers. The rulemaking action responding to the public comments is being addressed in a separate rulemaking action which can be located under RIN 2125-AC49.

Abstract: This rulemaking amended current regulations to include dromedary decks and plates under the dromedary box provisions. This preempts inconsistent State laws and regulations to permit truck tractors equipped with dromedary decks or plates having the capacity to carry cargo that were in legal use on December 1, 1982, to continue to operate throughout their useful lives. Proof of such legal use continues to rest with the operator of the equipment.

Abstract: This rulemaking action amends the Manual on Uniform Traffic Control Devices (MUTCD) to revise the definition of short-term pavement markings to provide the States with flexibility in providing temporary pavement markings in construction and maintenance areas. The MUTCD is incorporated by reference in 23 CFR 655, Subpart F and is recognized as the national standard for traffic control devices on all public roads. The amendment affects various parts of the MUTCD and is intended to expedite traffic, improve safety, and provide a more uniform application of highway signs, signals and markings.

Abstract: The Federal Highway Administration (FHWA) amended its regulation on Certification Acceptance (CA) by updating the physical construction cost figure used for eligibility regarding a limited CA application procedure as provided in 23 CFR 640.107. This amendment reflects inflationary trends in construction cost indices, increases State operating flexibility, and reduces administrative burdens. A State may now elect to utilize limited-coverage under a simplified CA application procedure if the projects are estimated to cost less than $1 million as opposed to $500,000.

Abstract: This standard, which is applicable to passenger cars, light trucks, and school buses, specifies requirements for the integrity of motor vehicle fuel systems. The purpose of the standard is to reduce deaths and injuries caused by fires which result from fuel spillage after motor vehicle crashes. This evaluation follows up and expands on a prior study on passenger cars which showed that, while the regulation was effective in preventing deaths and injuries, the incidence of crash fires appeared to be increasing. This evaluation will also provide the initial assessment of the regulation as it applies to light trucks.

Abstract: The intention to apply in Federal Motor Vehicle Safety Standard No. 208 rulemaking additional injury criteria in order to prevent facial lacerations, neck injury, knee shear, tibia, and ankle trauma was announced in Notice 39 Docket 74-14 (50 FR 14602, April 12, 1985). The final rule (Notice 40) stated that the agency will issue another Notice on the additional information about the potential effects of adopting these criteria. Alternatives and potential costs were addressed in Notice 39.

Abstract: Petitions for reconsideration have raised the question of whether the Part 572(E) dummy's chest deflection limit of 2 in. is appropriate for belt restraints. The rulemaking will address the petitioner's issues. The intention is to upgrade the chest-deflection injury criteria for unrestrained occupants when vehicles are tested for the Standard compliance with the Hybrid III Dummy The Final Rule stated that the agency will have to resolve this issue by September 1, 1990.

Significance: Nonsignificant

Legal Authority: 15 USC 2001; 15 USC 1392; 15 USC 1401; 15 USC 1407

The Motor Vehicle Information and Cost Savings Act (P.L. 98-547) requires a Report to Congress five years after promulgation of the Federal Motor Vehicle Theft Prevention Standard.

Abstract: This standard, which applies to passenger cars, requires identifying numbers or symbols to be placed on

major parts of high theft passenger motor vehicles. A comprehensive evaluation will be performed to determine the effectiveness of the regulation in reducing the incidence of motor vehicle thefts and to estimate the costs of manufacturing and applying the identifying information. The evaluation of the regulation is required by the Motor Vehicle Information and Cost Savings Act and calls for a Report to Congress five years after promulgation of the standard.

Abstract: This standard regulates the performance of antilock brake systems for passenger cars and other vehicles with hydraulic brakes. The purpose of antilock brakes is to enhance the driver's control of the vehicle during emergency braking. Antilock brakes are currently available on some passenger cars. The standard, at this time, does not require them for all cars. The regulation was selected for review because of public interest in the costs and benefits of antilock brakes.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1401; 15 USC 1403; 15 USC 1407

CFR Citation: 49 CFR 571.105

Legal Deadline: None

Abstract: Federal Motor Vehicle Safety Standard No. 105 requires vehicles to have a brake failure indicator lamp which illuminates upon a failure within the brake system. This failure may be the result of a gross loss of pressure (Par. S5.3.1(a)) or a drop in the level of brake fluid in any master cylinder reservoir compartment to less than a specified safe level (S5.3.1(b)). The standard does not specify which mode of failure must be specified. This mode selection is left to the choice of the manufacturers. A petition from Mr. Sinclair Buckstaff, Transamerica Consultant Engineers (Buckstaff) requests that a loss of pressure indicator be made mandatory with a fluid level loss indicator to be optional (preferably mandatory) also, along with the pressure failure indicator. Buckstaff maintains a master cylinder internal failure can occur wherein no failure indication would ever occur if only a fluid level loss indicator were installed on the vehicle. The petition is under consideration.

Abstract: Accidents involving heavy trucks have a disproportionate (higher) fatality rate than all other motor vehicles. This rulemaking proposes to reinstate stopping distance performance requirements in Standard 121 so as to help improve heavy vehicle braking performance and hence reduce the number of accidents involving these vehicles. Although a court decision found that Standard 121, as it then existed, was unenforceable, additional accident data and technical review have persuaded NHTSA that the court's requirements can now be met.

Significance: Agency Priority

Legal Authority: 15 USC 1392 National Traffic & Motor Vehicle Safety Act of 1966; 15 USC 1407 National Traffic & Motor Vehicle Safety Act of 1966

CFR Citation: 49 CFR 571.121; 49 CFR 571.105

Legal Deadline: None

Abstract: Proposed action would establish a new brake standard for all trucks, buses, and trailers with a Gross Vehicle Weight Rating (GVWR) over 10,000 pounds. This standard would replace Standard No. 121, Air Brake Systems, and that portion of Standard No. 105, Hydraulic Brake Systems, that applies to vehicles with a GVWR over 10,000 pounds. It would also establish new requirements for heavy trailers having other than air-actuated brakes. In developing the standard, the agency will consider compatibility with international regulations. Research programs in support of this new standard and possible future upgradings of the standard will investigate such long-term advanced braking system concepts as antilock systems, automatic brake adjustors, load-sensing proportioning values, air driers, and retarders for heavy trucks, buses, and trailers. This rule is considered significant because of the level of public and Congressional interest. It is necessary to prevent and reduce the severity of accidents involving heavy vehicles by providing increased accident avoidance capability.

2125. + STANDARD 301; FUEL-SYSTEM INTEGRITY - UPGRADE FOR BUSES

Significance: Agency Priority

Legal Authority: 15 USC 1407; 15 USC 1410

CFR Citation: 49 CFR 571.301

Legal Deadline: None

Abstract: NHTSA is contemplating amending the standard to include buses over 10,000 pounds gross vehicle weight rating (GVWR) (such as intercity and transit buses) and to upgrade the standard's current requirements for all buses (including school buses) to which the standard already applies. The current standard applies to passenger cars, multipurpose passenger vehicles, trucks, and buses that have a GVWR of 10,000 pounds or less. This action is considered significant because of the safety implications involved.

2127. + PROCEDURES FOR PARTICIPATING IN AND RECEIVING DATA FROM THE NATIONAL DRIVER REGISTER PROBLEM DRIVER POINTER SYSTEM

Significance: Agency Priority

Legal Authority: 23 USC 401

CFR Citation: 23 CFR 1325

Legal Deadline: None

Abstract: This regulation will implement an improved National Driver Register (NDR), the purpose of which is to assist chief driver licensing officials of participating States in exchanging information regarding the motor vehicle driving records of individuals. The objective is to prevent the issuance of driver's licenses to individuals whose licenses to operate a motor vehicle have been withdrawn or denied, especially those convicted of drunk driving. By participating in the NDR, State Driver licensing officials may better identify problem drivers and deny them access to the nation's highways, thus making them safer. Annual cost to the Government will be between $5 and $7 million. This action is considered significant because of the impact on transportation safety.

Significance: Nonsignificant

Legal Authority: 15 USC 1407; 15 USC 1410

CFR Citation: 49 CFR 552; 49 CFR 571

Legal Deadline: None

Abstract: Federal Motor Vehicle Safety Standard (FMVSS) No. 301 specifies requirements for the integrity of motor vehicle fuel systems so that fires that result from fuel spillage during and after motor vehicle crashes may be reduced. This standard applies to passenger cars and school buses, and to multipurpose passenger vehicles, trucks, and buses that have a gross vehicle weight rating of 10,000 pounds or less. The California Highway Patrol (CHP) petitioned the agency to specify requirements in FMVSS No. 301 to reduce fuel spills from the fuel tank or fuel lines on heavy trucks and truck tractors over 10,000 pounds. The fuel spills, according to the CHP, are due to damage caused by road debris. On May 2, 1988, the agency published a grant of petition for rulemaking in the Federal Register for the CHP petition. However, the agency is granting the petition pending the results of its forthcoming investigation of fuel-tank fires in over-the-road trucks.

Abstract: Federal Motor Vehicle Safety Standard No. 106 requires hoses, end fittings, and hose assemblies, except under limited circumstances, to be marked in a manner providing source identification for the hose, fitting, or assembly. Paragraphs S12 and S13 provide two exceptions. Paragraph S12 exempts "assemblies" from individual labelling of the "components." The "assembly" must still be labeled as specified in the appropriate paragraphs S5.2, S7.2, and S9.2. Paragraph S13 exempts hoses, fittings, and assemblies, if each or all are installed in a vehicle to which the standard applies (i.e., new vehicles, factory assemblies) from the individual requirements for labelling these components or assemblies. Rulemaking is to be initiated to clarify these requirements as they apply to the labelling of components or assemblies which use "reusable" fittings. A conflict may exist as to whether these materials with "reusable" components are considered to be "assemblies."

Legal Deadline: None

Abstract: This notice lists the subject insurers, including rental and leasing companies, required to file annual reports with this agency on motor vehicle theft, unless exempt from filing such reports. The listing of insurance companies in this notice is derived from data provided by A. M. Best, the Automotive Fleet Fact Book, and Business Travel News Survey, whose data are based on reports submitted voluntarily by the insurance industry and rental and leasing industry. Those insurance companies and rental and leasing companies included on the final rule listing would be required to file reports for the 1989 calendar year not later than October 25, 1990. Any insurance company or rental and leasing company not on the final list is not required to file a report for the 1989 calendar year.

Abstract: This proposed amendment to 49 CFR 542 will require manufacturers to provide the agency with any information necessary to select the likely high-theft carlines to be covered by the Theft Prevention Standard. Presently, the manufacturers are not required to provide the agency with this information and, thus, few manufacturers submit information within the specified time frame established under Section 603 of the Cost Savings Act.

Abstract: Proposed action would require automatic brake adjusters and brake adjustment indicators on all trucks, buses, MPVs and trailers over 10,000 pounds GVWR. On-road vehicle inspections and accident data indicate that brakes out of adjustment is a safety problem which adjusters and indicators--in conjunction with on-road inspections--should alleviate.

Significance: Regulatory Program

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.108

Legal Deadline: None

Abstract: NHTSA proposes a comprehensive review of headlighting requirements of FMVSS No. 108 which may be simplified, while being consistent with motor-vehicle safety. The agency has concentrated its efforts into five principal areas. This action addresses the first of these, which is the feasibility of a standard directed toward onboard original-equipment headlighting performance rather than toward performance of individual aftermarket headlamps in a laboratory environment. This action is considered significant because of safety implications. Based on comments received, a second NPRM was issued.

Abstract: In response to a petition for rulemaking, the advance notice invited comment on possible amendments to the regulation with respect to the manner in which light trucks, vans, multipurpose vehicles, and certain other vehicles are classified. The October 17, 1988 Notice of Proposed Rulemaking proposed two alternative vehicle classification approaches for those vehicles now categorized as light trucks, multipurpose passenger vehicles, and passenger cars. Significance: Agency Priority

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 1.50; 49 CFR 571.214

Legal Deadline: None

Abstract: The purpose of this notice is to announce that the NHTSA is considering the proposal of requirements for light trucks, vans, and multipurpose passenger vehicles intended to reduce the risk of fatalities and injuries in side impacts and other crashes where the side protection of the vehicle is a relevant factor, and to request comments to assist the agency in developing the proposal. The contemplated requirements would be part of the agency's efforts to address the serious problem of side impacts. As another part of those efforts, the agency proposed requirements for passenger cars intended to reduce the risk of injuries to the thorax and pelvis in side impact crashes between vehicles. (RIN 2127-AB86.) This rulemaking is considered significant because of the public safety implications.

2164. + STOP-SIGNAL ARMS ON NEW SCHOOL BUSES; NEW STANDARD

Significance: Agency Priority

Legal Authority: 15 USC 1407

CFR Citation: 49 CFR 571

Legal Deadline: None

Abstract: Many injuries occur to school age children when drivers of other vehicles do not see the children or the school bus as the children are approaching or leaving a school bus. An average of 13 fatalities per year were reported resulting from pedestrians being struck by vehicles other than the school bus as they are approaching or leaving the school bus. The objective of this proposed project is to develop a new motor vehicle safety standard that will require installation of stop signal arms on all new school buses as recommended in the National Research Council's report "Improving School Bus Safety." Stop signal arms are stop signs with flashing red lights that extend from the left side of the school bus when it stops to load or unload students. This will probably necessitate additional equipment and possibly more training for some drivers. This action is significant because of substantial public interest, and possible Federalism implications.

2172. GEAR LOCK; THEFT PROTECTION

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.114

Legal Deadline: None

Abstract: This action would amend Federal Motor Vehicle Safety Standard 114 to prevent the inadvertent knocking out of gear of the gear shift lever and potential accidents, injuries and fatalities from vehicles rolling out of control. This amendment is in response to a petition for rulemaking relating to an inadvertent knock-out-of-gear accident resulting in a fatality. In addition, FMVSS 114 is proposed to be amended to insure that, if a steering column locking device is employed, the device cannot be activated until the key is removed and the vehicle must be in park on automatic transmission vehicles to remove the key.

2173. PART 544, MOTOR VEHICLE THEFT PREVENTION; REPORTING REQUIREMENTS FOR MOTOR VEHICLE RENTAL AND LEASING COMPANIES

Significance: Nonsignificant

Legal Authority: 15 USC 2032

CFR Citation: 49 CFR 544

Legal Deadline: Final, Statutory, October 25, 1989.

Rental and leasing companies who are self-insured are required to report to the agency October 25th of each year.

Abstract: This notice has proposed to require theft reports only from rental and leasing companies with combined fleets of 50,000 or more vehicles. This would result in the largest rental and leasing companies being required to file theft reports, instead of the approximately 4,000 companies currently required to do so. NHTSA has determined that reports from the largest rental and leasing companies would provide the agency with the representative sampling of the theft experience of rental and leasing companies, while reducing an unnecessary burden on smaller such companies.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.205

Legal Deadline: None

Abstract: The Taliq Corporation of Sunnyvale, CA, petitioned the agency to create a new category of glass-plastic glazing, AS-15. This proposed glazing would consist of a layer of tempered glass and a layer of plastic with the tempered glass layer on the outside surface when installed in the vehicle. This glazing would be permitted only in vehicle locations not requisite for driving visibility. The petition was granted and the NPRM proposed to expand upon the request.

Significance: Agency Priority

Legal Authority: PL 100-690

CFR Citation: 23 CFR 1313

Legal Deadline: Final, Judicial, November 18, 1989.
NHTSA was required to publish a final rule by November 18, 1989.

Abstract: Under the Anti-Drug Abuse Act of 1988, Pub. L. 100-690, this rulemaking establishes regulations and criteria under which States may apply for and receive federal alcohol highway safety incentive grants. Grant criteria include prompt license suspension for Driving While Intoxicated (DWI) offenses, self-sustaining community DWI programs, mandatory alcohol blood testing, prevention of underage drivers from drinking, suspension of vehicle license plates and registration for DWI offenses, and prevention of open alcohol containers and drinking in cars. This rulemaking was significant under DOT policy and procedures because it will have substantial impact on State and local governments.

2194. ODOMETER DISCLOSURE REQUIREMENTS

Significance: Nonsignificant

Legal Authority: 15 USC 1981

CFR Citation: 49 CFR 580

Legal Deadline: Other, Statutory, December 28, 1989.
Deadline under APA for responding to petitions for reconsideration of final rule.

Abstract: The final rule permits, in limited circumstances when a title document is physically held by a lienholder, or has been lost, the use of a secure power of attorney document for the purpose of mileage disclosure. The rule also clarifies the definition of transferor and transferee, clarifies the certification requirement, requires the transferee to return to the transferor a signed copy of the odometer disclosure statement, and requires that title reassignment documents be issued by the states. Petitions for reconsideration of the final rule are under review.

Abstract: The agency amended Federal Motor Vehicle Safety Standard No. 115 and Part 567 with regard to vehicles not originally manufactured for sale in the United States and that do not comply with Federal motor vehicle safety standards, but that are imported into this country by businesses unaffiliated with the original manufacturer. These vehicles often are labelled with "homemade" 17 digit Vehicle Identification Numbers (VIN). Under the proposal, the importer would label the vehicle partially exempt from Standard No. 115 and direct interested parties to the location of the original manufacturers's number to be used in lieu of the VIN. The agency took this action in response to a petition from the National Automobile Theft Bureau (NATB).

Abstract: The petitioner claimed that it is possible to "high-hitch" or false latch the fifth wheel and the kingpin when connecting a trailer to the towing tractor. (The fifth wheel is the coupling unit on the tractor that allows the unit to be joined and towed through a wide range of articulation.) Petitioner requested the agency to write a

standard that would not allow false latching of the tractor trailer fifth wheel. Information was requested on separation of tractor trailers, availability of accident data, information on the cost of changing the present designs, and performance tests should a standard be considered. Upon review of comments received, it was determined that the requested action was not necessary

Abstract: This notice listed the subject insurers required to file annual reports with this agency on motor vehicle theft, unless exempt from filing such reports. The listing of insurance companies in this notice was derived from 1987 data provided by A. M. Best, whose data are based on reports submitted voluntarily by the insurance companies. Those insurance companies included on the final rule listing were required to file reports for the 1989 calendar year not later than October 25, 1989. Abstract: The purpose of this notice is to report the results of this agency's actions for determining which car lines are subject to the marking requirements of the motor vehicle theft prevention standard for the model year 1990 and publish a list of those car lines. The agency has previously published a list of the car lines that were selected as high theft car lines for prior model years, beginning with the 1987 model year. The list in this notice includes all of the car lines in the previous lines, as well as the new lines that were introduced for the 1990 model year and that have been selected as likely high theft lines. This notice is revised yearly (each model year).

Legal Deadline: Final, Statutory, June 22, 1989.

Abstract: FRA is required to adopt qualification standards for locomotive operators. Major elements that could be included in such standards involve initial training, retraining, performance monitoring, testing and retesting, and general fitness criteria. Issues being explored include the structure of the program to resolve questions of whether a Federal license program or a railroad licensing program meeting Federal criteria will best achieve the statutory intent. This rulemaking is significant because of Departmental policy.

Significance: Agency Priority

Legal Authority: PL 100-342, Rail Safety Improvement Act of 1988

CFR Citation: Not yet determined

Legal Deadline: Final, Statutory, December 22, 1989.

Abstract: FRA is required to issue necessary rules to provide for the recording of events relating to train operations and to ensure that devices recording those events are tamper-resistant. Aspects of the issue being explored include: determining the state of the art for such devices; the recordable events appropriate for accident investigation purposes; standards for "tamper resistance"; and regulatory structure. Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 225

Legal Deadline: None

Abstract: This project addresses possible problems of bias and inaccuracy in FRA's railroad data base. Although FRA investigates about 400 accidents a year and receives unsolicited information on a few more accidents, FRA's sole source of information on the great majority of railroad accidents is the railroad company itself. The proposed rule would require that the railroad provide written notification to any employee whom the railroad alleges to have caused a certain type of accident, informing the employee of the relevant allegations and of his or her right to file an accident statement with FRA. The proposed rule also would establish the format and filing procedures for such statements. Alternatives being considered are: (1) revising the reporting form itself to include boilerplate language regarding what, where, and how to file the employee statement and (2) requiring a separate notice to the employee with the same information. Potential costs have yet to be determined. This action is considered significant because of departmental policy.

Abstract: The FRA issued a final rule which makes amendments to existing regulations on Control of Alcohol and Drug Use in Railroad Operations and related provisions of other rules. The final rule encompasses improvements in the regulatory program discovered through experience and public comment, corrects and clarifies certain provisions, and conforms the original provisions of the rule to amendments issued with the random testing rule of November, 1988. Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 218

Legal Deadline: Final, Statutory, June 22, 1989.

Abstract: Railroads use on-track equipment adapted for service as mobile sleeping quarters, in order to have large dormitories adjacent to work sites. A recently enacted statute required FRA to establish rules to protect those vehicles from the risk of being struck by other on-track vehicles. This project set out the required protective procedures and was therefore considered significant.

Abstract: This regulation would implement section 303 of the Surface Transportation and Uniform Relocation Assistance Act of 1987. It would define the procedures applicants must follow in developing fixed guideway projects. It also would set forth the means by which the agency will evaluate cost-effectiveness, the results of alternatives analysis, and the degree of local financial commitment as required by law. This regulation is significant because it involves important departmental policy. However, a provision of the Department of Transportation and Related Agencies Appropriations Act, 1990 (Pub. L. 101-164) prohibits the use of any funds made available by this Act to "implement or enforce" the proposed rule. Therefore, UMTA is awaiting clarification of how to proceed in view of the imposed restrictions.

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR Part 770. The amendments also are intended to provide more authority and flexibility to State and local agencies and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

Abstract: Currently commuter air carriers providing scheduled passenger service file two quarterly traffic schedules. One schedule summarizes nine traffic elements while the other schedule provides the origination and destination for all the carriers' on-line passengers. The Department has installed a new traffic and market data system for certificated and foreign air carriers called the T-100 system. This system could be used for commuter air carriers, providing the Department with one automated traffic and market data system for all carriers. This system would be less burdensome for the commuter air carriers and be more efficient for the user.

Abstract: The present definition of revenue and nonrevenue passengers for aviation reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in section 403(b) of the Federal Aviation Act of 1958. These definitions have become outmoded in the process of air-fare deregulation. In addition, first class and coach passengers are defined in terms of the type of fare paid with premium or standard fares being the benchmark for first class. Significance: Nonsignificant

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: The Federal pipeline safety standards governing hazardous liquid pipelines do not apply to pipelines operated at 20 percent or less of the specified minimum yield strength of the pipe. When the standards were issued in 1969, these pipelines were thought not to pose an unreasonable risk to public safety because of their low operating stress levels. Since then, however, a number of accidents have been reported on low stress level pipelines, particularly involving harm to the environment. This rulemaking action would assess the need to extend the Federal safety standards to cover these low stress level pipelines (except gathering lines), and, if warranted, apply the standards to those pipelines.

Proposed Rule Stage

2236. + HYDROSTATIC TESTING OF CERTAIN HAZARDOUS LIQUID PIPELINES

Significance: Regulatory Program

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Recent accidents involving petroleum pipelines demonstrate the potential for catastrophic losses if a large spill occurs in a populated area. Studies have shown that accidents attributable to latent material or construction defects can be prevented by restricting operation to not more than 80 percent of a prior test or operating pressure. In this regard, significant results have been achieved by imposing such an operating restriction on pipelines that carry highly volatile liquids. This rule would extend this existing safety standard to all hazardous liquid pipelines that are subject to Part 195. This rulemaking is

significant because of substantial public interest in the safety implications.

2237. + GAS GATHERING LINE DEFINITION

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 1804

CFR Citation: 49 CFR 192.3

Legal Deadline: None

Abstract: The existing definition of "gathering line" would be clearly defined to eliminate confusion in distinguishing these pipelines from transmission lines in rural areas. The costs should be minimal since the definition will conform to prevailing practices in government and industry. Action is significant because the definition is the subject of litigation.

Legal Authority: 49 USC 1672; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: Final, Statutory, November 1, 1989.

Abstract: Maintenance of appropriate information about pipelines is essential for emergency response, compliance with safety standards, and other purposes. As part of a continuing policy to adopt similar requirements for gas and hazardous liquid pipelines where appropriate for safety, this action proposes to equalize as far as possible the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines. Operators would also be required to keep an inventory of pipe and annually report mileage and other facts. In addition, operators would be required to provide certain information to State agencies upon request. This is a significant action because of Congressional and State concerns about the need for appropriate public officials to have pipeline information.

Significance: Agency Priority

Legal Authority: PL 100-561, Sec 303

Abstract: This rulemaking proposes the issuance of requirements for the establishment and operation of appropriate one-call notification systems in areas containing underground gas or hazardous liquid pipeline facilities. The requirements are intended for adoption by States with agencies participating in the Federal/State pipeline safety grant-in-aid program. Adoption would be a consideration in determining reimbursement of State program costs. This rulemaking is significant because of substantial public and congressional interest.

2248. ● CONFIDENTIALITY OF DOMESTIC NONSTOP SEGMENT DATA AND ONFLIGHT MARKET INFORMATION FILED IN THE T-100 SYSTEM BY U.S. AIR CARRIERS

Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Legal Deadline: None

Abstract: The Department issued a final rule on the T-100 Reporting System on November 16, 1988 (53 FR 46284). The nonstop segment data and onflight market information reported by the U.S. and foreign air carriers in this system was granted confidentiality for a three-year period. American Airlines filed a petition for rulemaking challenging the three-year period (Docket 46101). The Department found that the three-year period for international nonstop segment data and on-flight market information was appropriate, but would review the confidentiality period for domestic data (54 FR 31810, August 2, 1989). On January 16, 1990, Alaska Airlines filed a petition for rulemaking, challenging the 3-year period as it pertains to U.S. air carriers' international data (Docket 46710). This rulemaking will explore whether the 3-year period should be retained or revised for domestic data and whether U.S. air carriers should have access to international data filed by U.S. carriers.

Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377

CFR Citation: 14 CFR 241

Abstract: The accounting system that underpins the Form 41 Report is based on Generally Accepted Accounting Principles (GAAP) established by the Financial Accounting Standards Board. This board recently amended GAAP reporting disclosure standards by adding a Statement of Cash Flows. The Form 41 Report currently has a Statement of Financial Position. Unless there is some incompatibility with another aviation regulatory program, a proposed rule will be issued to replace the Statement of Financial Position with a Cash Flow Statement to maintain uniformity with GAAP. This rule would relieve large U.S. air carriers from the burden of preparing two different statements. Also, the rule would revise aircraft inventory reporting by requiring the reporting of airframe serial numbers and manufacturer's delivery dates which could be used to assess the age of aircraft. In addition, the operating revenue levels for various reporting groups would be adjusted for inflation.

2261. ● UPDATING REFERENCES TO ASTM SPECIFICATION D2513

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: The incorporation by reference of various provisions of the 1987 edition of the American Society for Testing and Materials (ASTM) Specification D2513, "Standard Specification for Thermoplastic Gas Pressure Piping Systems," would be revised to reference instead the 1988 edition, which is the latest published edition.

Abstract: This action will develop performance-oriented packaging standards and hazardous material classification based on the United Nations Committee of Experts on the Transport of Dangerous Goods. Rulemaking also includes former nonsignificant rulemakings entitled "Consolidation of Specifications and Establishment of Performance Standards for Specification Bags" (Docket No. HM-153), "Specifications for and use of Specification 17 Steel Drums" (Docket No. HM-182), and "Organic Peroxide Requirements" (Project 186-72). The rulemaking is significant because a large number of specifications for packaging in the hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials

DOT—RSPA **Final Rule Stage**

Regulations are due to the detailed specification-type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade. This rulemaking is significant because of substantial public interest and safety implications.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 1804; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: Adequate procedures for pipeline operation and maintenance, backed up by personnel training, have proven effective in minimizing the potential for accidents. Gas operators are required to have such procedures, but the existing requirements lack the clarity and specificity needed to assure a uniform, broad-based level of safety for all pipelines. Therefore, this proposal would clarify the existing requirements, make them more comprehensive, and, where appropriate, similar to the more detailed requirements applicable to the operation and maintenance of hazardous liquid pipelines. Also, a few additions and clarifying changes would be made to the hazardous liquid pipeline requirements. This is a significant action because of the need for adequate procedures to provide a basis for training and qualifying operator personnel. A related rulemaking to provide procedures requiring operators to amend operation and maintenance plans, and make operators subject to enforcement sanctions for failure to maintain plans, is entitled Amendment of an Operator's Plans or Procedures (RIN 2137-AB77).

Significance: Agency Priority

Legal Authority: 49 USC 1672(a); 49 USC 2002(e)

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: Each year a large percentage of gas and hazardous liquid pipeline accidents are caused by excavation damage. Based on existing rules intended to reduce damage to gas pipelines in populated areas, this action would require hazardous liquid pipeline operators to provide damage prevention programs and gas operators would have to expand their programs to cover rural areas. This is a significant action because of the widespread interest in the use of "one-call" programs to prevent damage to buried pipelines.

2275. DETERMINING THE EXTENT OF CORROSION ON EXPOSED GAS PIPELINES

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Corrosion is a major cause of gas and hazardous liquid pipeline accidents. A safety standard applicable to liquid pipelines requires operators to examine exposed pipe for evidence of external corrosion and, if harmful corrosion is found, to investigate further to determine the extent of the corrosion. As part of a continuing policy to adopt similar requirements for gas and liquid pipelines where appropriate for safety, this action proposes that exposed gas pipelines with evidence of harmful corrosion be investigated to determine the extent of the corrosion.

Significance: Agency Priority

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1387

CFR Citation: 14 CFR 241; 14 CFR 298; 14 CFR 399

Legal Deadline: None

Abstract: The threshold for the aviation-information program for regulatory flexibility analysis is 60 seats or maximum payload of 18,000 pounds or less. Carriers operating aircraft under these limits are considered small carriers. FAA, on the other hand, uses a threshold based on the operational certificate requirements (Part 121 versus Part 135) with the threshold established at 30 seats or maximum payload of 7,500 pounds for a Part 135 certificate. FAA regulatory analysis for safety, congestion, etc., centers around the lower threshold which means much of the aviation

economic information that they use has to be manipulated to fit their needs. This proposal of standardizing the threshold within the Department would save considerable resources and would eliminate much confusion in the air transportation industry. Most carriers, especially the newer ones, are familiar with FAA's requirements. Due to other priority projects, this rulemaking has been terminated. However, it will be reactivated at a later date.

2284. SUBSIDIZED COMMUTER CARRIERS AND FOREIGN AIR CARRIERS: RECORDS AND RETENTION PERIODS

Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1371 to 1374; 49 USC 1377; 49 USC 1381; 49 USC 1386; 49 USC 1482

CFR Citation: 14 CFR 249

Legal Deadline: None

Abstract: This rule would require commuter air carriers receiving subsidy to retain certain records in support of their claims for subsidy; require foreign air carriers submitting traffic and market data to retain records in support of their submissions; modify or eliminate several of the records prescribed for retention by public charter operators and overseas operators. In addition, the proposal would transfer the record retention requirements contained in Part 374a to Part 249. Due to other priority projects, this rulemaking has been terminated. However, it will be reactivated at a later date.

Abstract: This proposal would revise the placarding requirements in the Hazardous Materials Regulations (HMR) to recognize the requirements of the Environmental Protection Agency (EPA) which address the placarding of commodities which have been fumigated. Those portions of the HMR which address the fumigation placard would be removed from the HMR to avoid duplication with EPA's requirements for placarding commodities which have been fumigated.

CFR Citation: 49 CFR 192; 49 CFR 193; 49 CFR 195

Legal Deadline: None

Abstract: The safety standards for pipelines and liquefied natural gas facilities reference the workmanship standards of the American Petroleum Institute (API) "API 1104" for the acceptance of weld defects. Appendix A of the 1988 edition includes alternative acceptance criteria based on fracture mechanics. This action proposed to incorporate Appendix A by reference.

Additional Information: This action was scheduled as part of an overall rulemaking to update the incorporation by reference of American Petroleum Institute Standard 1104, "Welding of Pipelines and Related Facilities." A final rule published July 3, 1989 (RIN 2137- AB68) updated references to the 17th edition, but excluded the Appendix, which contains fracture mechanics criteria for weld acceptability. Considering that the use of this Appendix is not widespread and operators may seek approval to use it through the waiver process, the project was determined to be unnecessary and it was terminated.

Abstract: This regulation establishes conditions for MARAD approval of tanker vessels over 100,000 dwt built with CDS, for participation in the carriage of Alaskan oil from Alaska to the Panama Canal. MARAD is reassessing the need for this regulation in light of the experience in administering its provisions, its policy of allowing total repayment of CDS (46 CFR Part 276) and litigation challenging these policies. Abstract: This action would have solicited public comment to assist in evaluating requests received from an operator and another Department that MARAD expand the scope of its procedures concerning evaluation of bids for the carriage of preference cargoes to apply to all types of preference cargo, specifically including civilian purchased preference and military cargoes. Existing procedures apply only to bulk cargoes. Abstract: These interim final regulations amend MARAD's regulations regarding transfers of interests in U.S. documented vessels and approval of vessel mortgagees and trustees pursuant to P.L. 100-710. Publication of an interim final rule permit implementation of the new law without a hiatus and would minimize transitional uncertainty among the corporate and financial communities that are affected. Significance: Regulatory Program

Legal Authority: 46 USC app 1242(b); 46 USC app 1114(b)

CFR Citation: 46 CFR 382, (New)

Legal Deadline: None

Abstract: This regulation requires provision of rates and cost data to MARAD so it can determine fair and reasonable rates for carriage of preference cargo in bulk vessels at the request of concerned Federal agencies. Calculation of fair and reasonable rates is based on industry cost data supplied by participating carriers. It establishes requirements for submission of data on which the calculations are to be based. This rulemaking was significant because it concerned a matter on which there was substantial public interest. It clarified the meaning of a statutory term.

Abstract: This rulemaking clarified MARAD policy that cargoes which are not preference cargoes, but are reserved to U.S.-flag vessels by agreement of countries which receive U.S. foreign assistance in the form of cash transfers (or any similar cash assistance program), are not "commercial" cargoes subject to foreign competition, and therefore are not subsidizable.
